Mills Seed House

F. B. MILLS COMPANY

Rose Hill, N. Y., January 1, 1914

To Our Customers:

Again it is our pleasure to send you a copy of our Annual Seed and Plant Catalogue and gratefully acknowledge your generous patronage during the past year.

The demand for MILLS SEEDS has increased far beyond our expectations which proves our past statements that we send out only the very best grade of seeds at satisfactory prices. HIGH QUALITY at LOWEST PRICES is our aim and our excellent facilities for mail, express and freight shipments and the large number of SEED and PLANT GROWING FARMS, located in all parts of the country, enable us to grow and offer at low prices the best that can be produced.

You can pay much higher prices than ours to some Seed Houses and you can buy seeds (a cheaper grade) for less than our prices but you cannot buy a better grade of seeds than we offer no matter how much you pay. We use only one grade and this is the best that can be produced.

We shall appreciate your order as early as possible, but if you delay until nearly planting time, we will make a special effort for quick delivery. Everything selected from this catalogue must be ordered from our Rose Hill office and is sent from there.

GENERAL INSTRUCTIONS ABOUT ORDERING

How to Order=It is very easy for anyone to order Seeds, Bulbs or Plants from us. In making out an order always write Name, Post Office, County and State the first thing you do, and then write the varieties you want, quantity of each and carry out the catalogue price after each one and enclose the total amount in any convenient form of remittance and send it to us by mail and we do the rest. Be sure to use our Order Blank if you have it. If not, any writing paper will do.

Free by Mail==We send Seeds, Bulbs or Plants postpaid by mail at the postpaid prices named in this catalogue, except where there are special quotations for the goods to be sent by Express, customers to pay the express charges. This brings our seeds to the door of our customers, without any trouble and expense.

Express Shipments==All orders to go by express we ship by the American Express Co. direct from Rose Hill, N. Y., and always securely pack and obtain the lowest rates possible but customers must pay the express charges on arrival.

Freight Shipments==Everything selected from this catalogue, mak ing a shipment too heavy for mail or express. we ship by freight direct from our warehouses at Rose Hill, N. Y. over the Marcellus & Otisco Lake Railway which connects with the New York Central Railway lines, one of the largest systems in this country, which makes direct connections with railroads in the far South and West.

Prepaid Railroad Stations==Many of our farmer customers live near prepaid railroad stations where there are no agents. In such cases we cannot ship unless we prepay the charges and wherever it is possible we ship to the nearest station to this prepaid station, as we never pay freight charges. This insures quick delivery and no danger of loss.

Canadian and Foreign Orders=We will accept orders from Canada and Foreign countries at prices named in this catalogue if 10c per pound is included in addition to catalogue prices to pay the extra postage and packing charges. When we ship by express or freight, we do not pay the duty if any is required. No Canadian or Foreign Postage Stamps or Coin, Except Canadian Coin, Will Be Accepted.

How to Send Money == We advise our customers to send money by either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter. Small amounts will be accepted in U. S. Postage Stamps (Canadian or Foreign Stamps not accepted) when not convenient to send anything else, but do not send stamps if you can avoid it.

Silver or gold coin should be sawed or pasted in cloth or pasteboard to prevent breaking through the envelope, and then it should be registered. Do not send money loose in a letter. It is not safe, and if lost we are not responsible for it. We earnestly request our customers to remit by Money Order if possible. The fee on a Money Order is only 3c to 5c for small amounts, and nearly all Post Offices issue them. You may deduct the M. O. fees from the order.

Terms==Our terms are strictly cash with the order. We do not carry any accounts and do not ship any goods C. O. D., as the extra expense, labor and confusion are unnecessary.

Lost Orders. It occasionally happens that an order is lost, (that very seldom occurs), therefore, if any who order do not hear from us within a reasonable length of time they should send a duplicate order. naming the date on which the former order was sent; the amount of money enclosed, and in what form. Do not simply say "I sent an order about ten days ago and have not heard from you." but go on and give date and full particulars as requested which will enable us to investigate the matter, and if it cannot be traced, fill the duplicate order immediately. No inquiries will receive attention which do not contain duplicate, etc., as above mentioned, and if we have filled the order, and it is lost, we will refill, but we will not refund for lost orders. We guarantee safe arrival of all goods. If you write us regarding any orders sent, give Post Office address from which you sent your order, and if Post Office order, send receipt or number.

Orders Without Name or Address—We do not want a dissat-

Orders Without Name or Address=We do not want a dissatisfied customer on our books, but we know we must have a few for the reason we now have on hand, over 1,000 orders from people who sent us their order for different amounts and omitted giving their name or address and we have no way of knowing who sent us these orders. After reading this, if your order was not filled let us hear from you, (but be sure to send us duplicate of order) as we are waiting to hear from all who have any cause for complaint, assuring every one we try to satisfy each customer.

Our Guarantee==We exercise the greatest care to have all our and true to name and to reach the customer in good condition, and grow if properly planted. Our goods must be carefully inspected by purchaser upon receipt, and if they are not found as above we will refill the order, free of charge, providing sufficient proof is given us within a reasonable length of time. We cannot guarantee crops and will not be held responsible for them or for any liability other than as above, and if our goods are not accepted on these conditions, they must be returned at once, and the amount paid will be refunded.

If you receive more than one of these Catalogues please hand Extras to your Neighbors.

Our Great "Famous Six" Collection of Seeds for 25c.

12 DAY LETTUCE==After once trying this you will say it is the quickest grower on record, always tender, crisp and sweet. We do not think it has an equal GIANT CLIMBING TOMATO==The most wonderful Tomato we have ever known. Climbs trellises 12 to 20 feet. Fruits often weigh 3 pounds each. They are very smooth and solid, a handsome red in color, and contain only a few seeds. A most satisfactory variety to grow.

60 DAY CABBAGE -This is the quickest growing variety of Cabbage in the world. It heads quickly, is very solid, and of splendid quality. Try it and you will say it is a wonder. It has been tested by over a million people, and they cannot praise it too highly.

NEW SUGAR PARSNIP==The very best Parsnip in cultivation. Matures carly, yielding a large crop, and brings the highest price. The roots grow to a fine size, enabling them to be easily dug; are very smooth, flesh is fine grained and of excellent quality. A great cropper, yielding more than 700 bus. to the acre.

15 DAY RADISH = A wonder for quick growth. It has produced Radishes fit to use in 15 days. Is very crisp and tender, and of a deep scarlet color.

CUCUMBER, FANCY PICKLES==The most perfect strain of pickles ever produced in America. The fruits are symmetrical in shape, with no thick, small or pointed ends. A marvel of beauty during the bearing months. This variety is very quick growing, and is find for slicing.

OUR GREAT OFFER == These 6 Vegetables have made such a great record that we have put the 6 kinds in _collection and call it "The Famous Six," how a packet looks, but the regular size of each one is about \$x4% inches, our standard size, and are printed in 2 colors.

GOOD LUCK - FOUR LEAVED CLOVER

A charming plant as easily grown in pots as Hyacinths, Tulips, etc. Introduced last year, and sold at a high price. Should be growing in every home. A very interesting plant and sure to attract a great deal of attention.

Bulbs 3 for 10c, 6 for 15c, 12 for 25c.

GRAPE VINE BERRY

A gigantic Berry, trais 30 to 50 ft. on arbor like a grape vine, very hardy, fruit black, large, luscious, over one bu. has been picked from a plant. A prize for anyone. The plants are hardy, very scarce, will be a wonder in any neighborhood. Two or three bushes will produce all the berries any ordinary family will use, We do not offer any plants for sale this season, but can furnish seeds which will germinate and produce plants at small expense.

Seeds pkt. 6c, 3 pkts. 15c,
6 pkts. 25c.

TIGERED AND SPOTTED GLOXINIA

Something grand in Gloxinias. Easy to grow in pots, blooms all summer. Flowers spotted, all colors, rich and varied beyond description, makes a gorgeous sight and will delight everybody. Bulbs 15c each, 2 for 25c.

EVERBEARING STRAWBERRIES

Here is an Everbearing Strawberry that grows freely from seed and will fruit the first summer. The plants grow very fast. The valuable point of this New Berry is that from the time the first fruit appears they continue to fruit until late in the fall. They are enormous yielders, single plants having produced nearly half pint of berries in one picking as late as October. They are perfectly hardy and will grow anywhere. Seeds pkt. 6c. 3 pkts. 15c, 6 pkts. 25c.

Novelties===Specialties===Bargains

We want all our customers to carefully examine the following sixteen pages of Novelties, Specialties and Bar-GAINS. We offer a choice selection of new and rare vegetables worthy of a place in your garden this year. We know that if you plant a garden you will want some of them, and we have made the prices very low for such new and rare sorts.

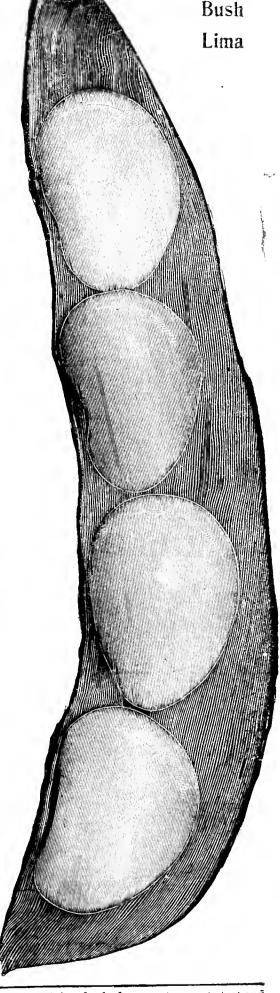

Monstrous Bush Lima

This new GIANT BUSH LIMA is a wonder and is just the Lima our customers appreciate. The plants grow a true bush, about 11/2 feet in height, always very healthy, strong, upright growth, not requiring poles or stakes. They begin

Bountiful Bush Bean The pods are produced in great abundance and are of large to bear about July, continuing until frost. size, usually containing 4 large, thick beans. In size, they average the same as those of the large Pole Limas, and the quality is superb. Whether green or cured, they are very tender, rich and buttery, and have the true Lima flavor.

This new Bush Lima is very early for one of such enormous size. The first pickings fit for the table may be made in the latitude of New York in July and from that time until killed by frost, a continuous supply of large, luscious beans may be had.

Our illustration gives a fair idea of the large, handsome pod, and we know our customers will appreciate this Bush Lima. Stock is rather limited, and we will not be able to offer the seed this season, except in small quantities. Pkt. 8c., 3 pkts. 20c., ½ pt. 30c., pt. 50c., qt. 80c. postpaid.

Monstrous

POP CORN NOVELTY = 2 years ago we sent out several thousand sample packets of a new Pop Corn for trial and asked our customers to test and suggested by L. W. Wells, Jerseyville, Ill., who writes: "The Pop Corn sample you sent me of 15 grains to test is the most wonderful thing I ever saw to produce. I planted it about the 15th of May, three grains to a hill, and from the 15 stalks I gathered 122 good ears of beautiful golden corn, uniform in size. I suggest you call it "Golden Wonder."

ED, S. Humeston, Union, Iowa, writes: "The Pop Corn Novelty sent me last spring produced 117 ears from seven hills. It popped fine."

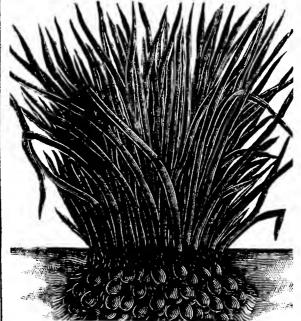

JOHN WAKLER, PARIS, ILL., writes: "I planted the sample Pop Corn, and 4 hills grew 63 ears." This is a great Pop Corn.

We offer a limited supply of seed this year.

Price Pkt 6c. 3 pkts 15c. 6 pkts 25c.

We offer a limited supply of seed this year. Price, Pkt. 6c., 3 pkts, 15c., 6 pkts. 25c.

Kentucky Wonder Pole Wax Bean

This is more prolific than the Green Podded Kentucky Wonder. It begins to bear when scarcely higher than the average bush variety and keeps on producing until killed by the frost. It is a very strong grower, one vine filling a pole with a mass of vines densely loaded with luscious wax beans. They are solid, meaty, entirely stringless and when cooked deliciously rich and buttery. You will find this a real good Wax Pole Bean.
Pkt. 8c, 3 pkts. 20c, ½ pt. 20c, pt. 35c.

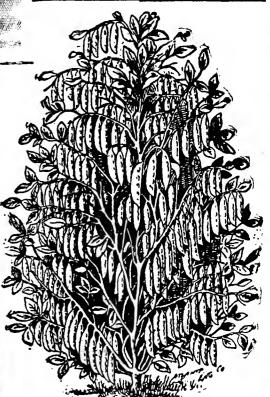

Wonderful Coffee Berry

This berry or bean is easily grown in any ordinary garden soil and is very prolific. The plant grows very strong, producing a great abundance of pods containing the coffee beans. It makes an excellent drink, very nearly equal to good Java coffee. It can be planted in May and cared for the same as beans. It will be found a good substitute for coffee, many preferring it to genuine Postum Cereal.
Pkt. 5c, 3 pkts. 12c, ½ pt. 18c, pt. 30c.

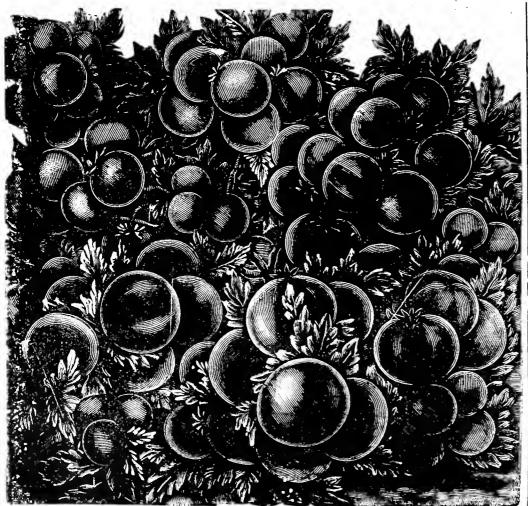

Ground Almonds

The Ground Almond has a fine flavor. resembling the Cocoanut or Almond. The meat is snow-white, covered with a thin shell or skin of brown color. It grows close to the surface; is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If the nuts are planted in the spring the same as potatoes a big crop can be expected about potato harvest time. They grow so rapidly and produce such immense crops that you will be surprised as well as your neighbors when you show them what you have. Try

Pkt. of 50 nuts 10c, 3 pkts. 25c, 6 pkts.

MILLS NEW EARLY TOMATO==QUICK CROP

One Plant of Our Quick Crop Tomato

Earliest Tomato in Cultivation

This is the great tomato we introduced last year, and we have received nothing but praise for it from every section where it has been grown. It has made wonderful records everywhere. It is handsome in shape, as will be seen by the illustration; very smooth, thick from stem to blossom end, very solid and heavy. Free from cracks and ridges, and the meat is solid, with only a few seeds. The color is a beautiful dark red. The fruits are produced in large clusters, ripening from early summer until killed by frost. Taking all points into consideration, it is the most perfect early tomato we have ever grown. Not only is it perfect in form and quality, but is a perfect wonder for earliness, producing large, handsome, red fruit ahead of any other variety we have grown. The vines grow strong and are very hardy, making it desirable for early planting. Not half enough can be said in favor of this great early tomato, and we want our customers to grow it this year. It deserves a place in every garden, and we highly recommend it to everyone.

Pkt. 6c, 3 pkts. 15c.

Scarlet Band= ed Poppy

A great curiosity. New species from Asia Minor. Doubtless the finest of the open ground poppies. Blooms all summer, producing flowers 2 to 21/2 inches across. with a fiery dark orange scarlet band and with black spots at base. The branching plants grow about 16 inches high. Try it.

Pkt.5c,3 pkts. 12c.

Scarlet Banded Poppy

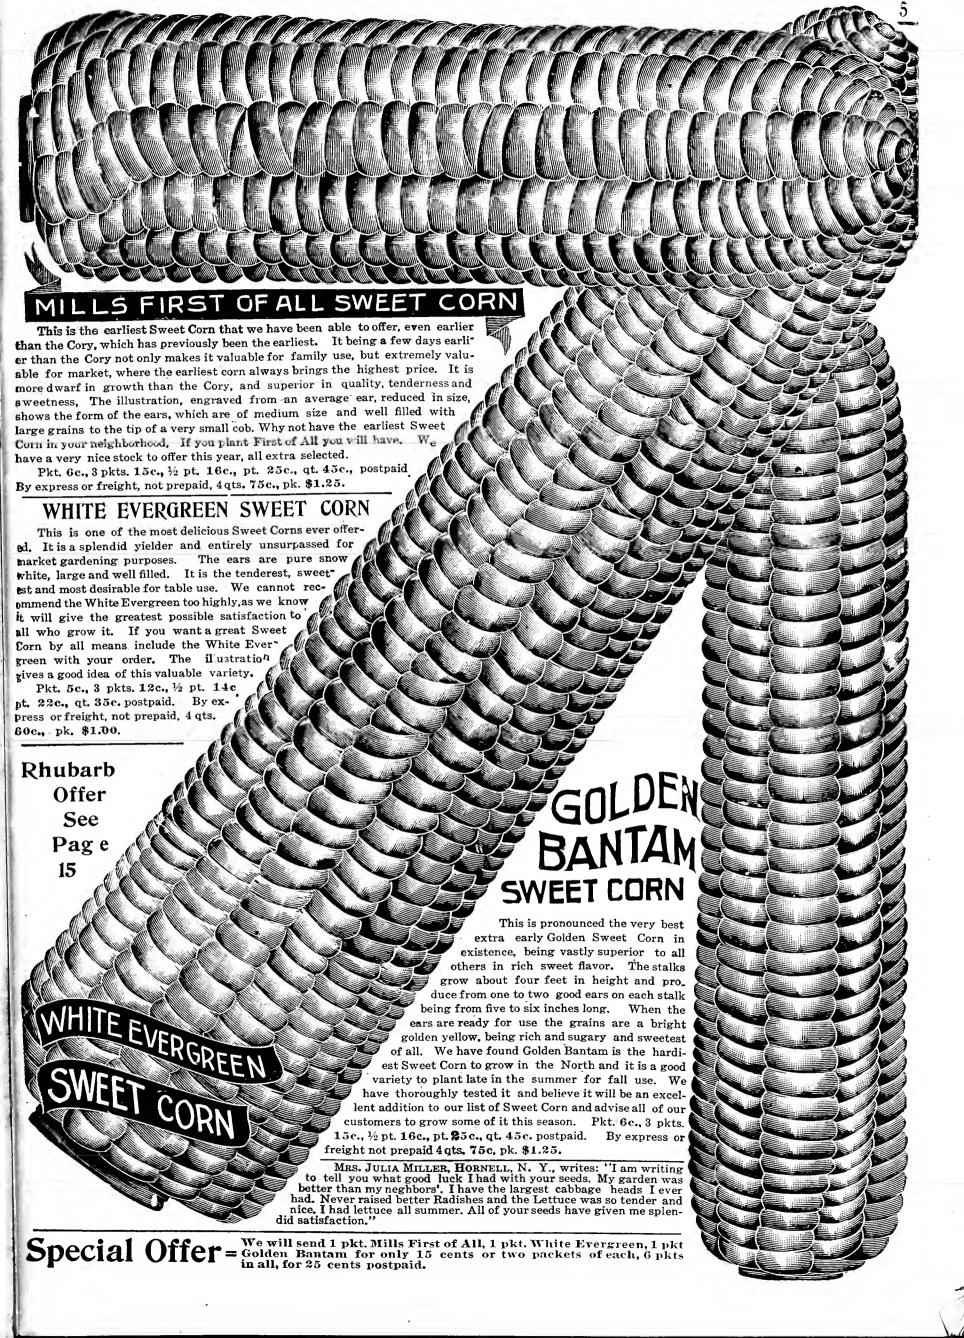

Copenhagen Market Cabbage

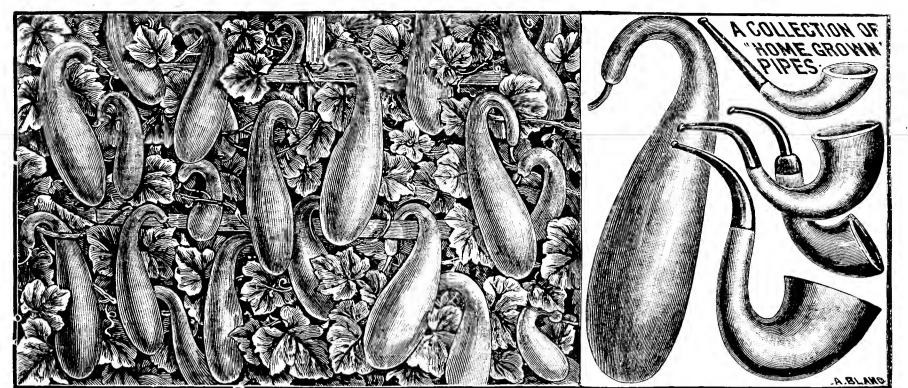

all Globe Shaped Cabbage attracts attention wherever grown. It is the most popular cabbagein the Copenhagen markets. The heads are remarkably solid, with few loose leaves, of fine quality, with small cores, and have an average weight of about 10 lbs each, This Cabbage is unrivaled as the most equally maturing and equally maturing and large heading early cabbage in existence, It was first intro-It was first introduced in 1910, seed behigh priced, and wery high priced, and we have only this season been able to secure seed enough direct from the originator to offer our customers. GOLDEN NCHING SELFBANCHING from the originator to offer our customers. If you grow Copenhagen Market you will have one of the finest early cabbages ever offered. Highly recommended by everyone growing it, and we wish we had

This new earliest of all Globe Shaped Cab-

Copenhagen Market Cabbage eryone growing it, and we wish we had price of seed direct from Copenhagen, Pkt. 10c., 3 pkts. 20c., oz. 40c., 2 ozs. 75c.

This is a wonderfuly attractive vine which anyone can grow, and can be used in making pipes. They are the lightest pipes made for their size, graceful in shape, color like meerschaum.

CALABASH PIPES made from imported South African gourds have been used in several countries for some time and are coming into use in America. The use of the Calabash as a pipe was discovered a few years ago by the Boers after the Boer war.

The plants thrive and do well in all parts of the United States, producing an abundance of Gourds from which the pipes can be made. The vine is not only very productive, but ornamental and useful for covering arbors, fences and unsightly places. Anyone can grow it in the garden, back yard, or any place

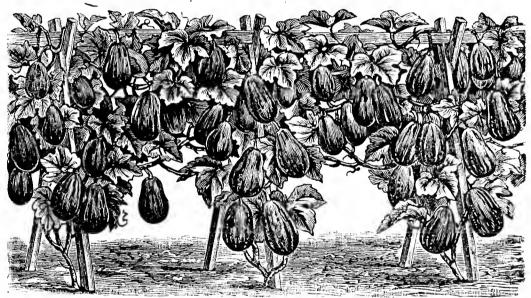

The Calabash Gourd has only recently been introduced in the United States and the seed has been scarce and high priced. Two years ago we were fortu nate in securing a very small quantity of the genuine seed stock and from this we have a fine crop of seed to offer our customers this year and hope every or Jer will call for at least one packet of this new Pipe Gourd. It is well worth growing. Pkt. 6c., 3 pkts. 15c. 6 pkts. 25c.

Delicata Squash

This is a handsome Squash, good for both summer and winter use. It is an orange yellow in color, splashed and striped with dark green on the outside and we can highly recommend it as an excellent variety to grow in the garden for home use on account of flesh being rich, dry and of very fine flavor, surpassing in richness of flavor many of the old standard varieties.

New Delicata is not only excellent in quality, but is one of the earliest of any of the vine Squashes, is wonderfully prolific and can be trained on trellises as shown by the illustration, making it a handsome as well as valuable variety to grow. The squashes are of medium size, but not too large for ordinary family use, solid and heavy, and the seed cavities are very small and it matures about the same time as summer Squashes. It can also be used for winter use as well, on account of its being an excellent keeper, being equal in this respect to any of the winter varieties.

We do not hesitate in recommending Delicata as a very prof-Itable squash to grow. Try it. Pkt. 5c., 3 pkts. 12c., oz. 15c.

Henderson Bush Musk Melon

This new Bush Melon was introduced last year and the introduced claim it is the most remarkable and valuable seed novelty of the age.

Our seed stock came direct from them and in describing it we can do the

better than to give their description. They say:

"For a number of years, we have been breeding and selecting this to markable variation from vine melons and at last have it so "fixed" that we feel confident in offering it as the most valuable seed novelty that has been introduced in many years. The fruits are of the popular Jenny Lind type but larger, averaging 5 inches in diameter. They vary somewhat in shares from flattened-round to almost spherical. The ribs are shallow; the surface is dark green, but so densely netted that it appears almost russet colored The flesh is very deep, edible almost to the rind, and is colored light greet flushed with salmon towards the center. The seed cavity is small. The quality is superb, lusciously sweet and juicy. The crowning merit of the Henderson Bush Musk Melon is its vineless character of growth, or 'hue' habit," which is of distinct advantage, saving space and permitting it to im grown even in small gardens, where home-grown melons have been denied. The plants grow stocky and igorous from 15 to 18 inches in length, and from two to three of them to a hill form a mound 2½ to 3 feet in diameter which permits the hills to be spaced 3 feet apart,"

We have tested this new Melon and believe our customers will be great ly pleased with it. We paid an enormous price for the seed stock we place ed last year in order to have sufficient for our customers this season, but 🦇 our supply is limited we can only offer in packets.

Pkt. 10c., 3 pkts. 25c., 6 pkts. 40c.

Spicy Canteloupe

New White Musk Melon

This is a rather peculiar name for a Musk Melon, but on account of its producing Melons so near white, hence its name. The melon was originated by an expert on Musk Melons and it is claimed this new Melon is very attractive and of superior quality in many ways. It is claimed to be at least ten days earlier than any other salmon fleshed variety and is very prolific. The flesh is solid, very sweet and of a dark salmon color; ripens to the rim. The seed cavity is very small which makes the Melon very solid, The Melons grow uniform in size, slightly oblong and heavily netted as shown in our illustration of an average specimen. The vines grow large and strong with very thick leaves which protect the fruit from the hot sun. We know this is a really good Novelty and will be appreciated by our customers who want to grow Melons of superb quality. Try it,

Pkt. 5c, 3 pkts. 12c, oz. 15c, 2 ozs. 25c.

SPICY CANTELOUPE

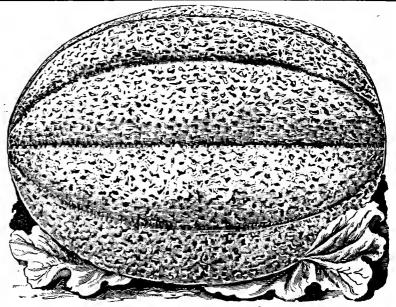

This grand new Canteloupe is very prolific, always making a strong growth, and produces an abundance of handsome melons, averaging from 8 to 10 in. long by about 6 in. in diameter. They are very solid and the seed cavity is unusually small. The flesh is salmon color, about 2 in. thick, always of superb quality, far superior to nearly all other Canteloupes. The flesh is entirely stringless, maintains its sweetness close to the rim.

On account of the very small seed cavity, the Melons are always solid and heavy, the rim being cream color, which changes nearly yellow as the Melon matures and there is also a peculiar netting which appears irregularly upon the smooth skin as shown by the illustration.

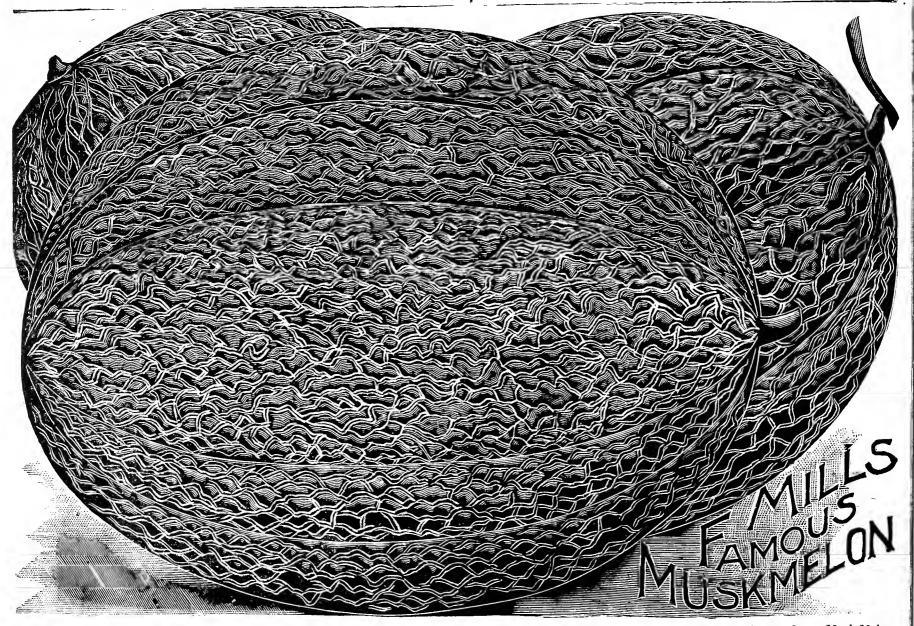

From our trials the past two seasons, we have been so well pleased with this new Canteloupe that we decided to offer it to our customers this year.

Pkt, 6c, 3 pkts. 15c, oz. 14c, 2 ozs. 25c,

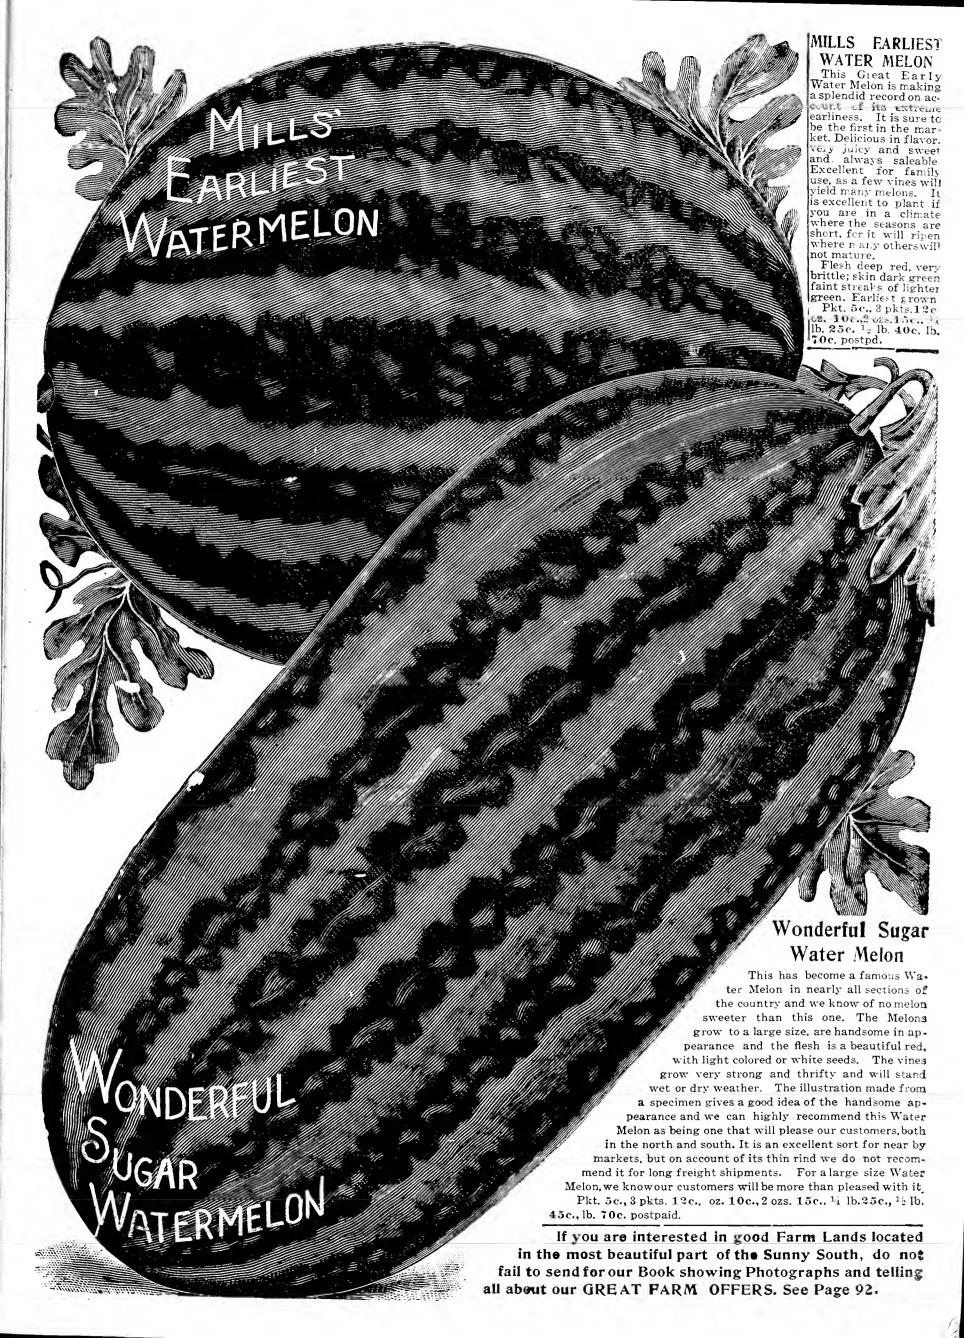

MRS. MAUD E. JAMESON, QUINTER, KANS., writes: I had fine luck with all your seeds. The Giant Climbing Tomatoes were wonderful. The Lettuce was the nicest I ever raised. Radishes, Cabbage, Cucumbers and Parsnip were good. I am well pleased and find that your seeds grow well in Western Kansas.

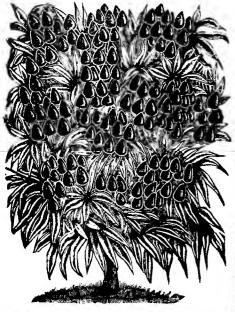

New White Musk Melon

Mills Famous Musk Melon = It is quite an early variety. The melons are uniform in size, of fine appearance, handsome shape, delicious quality, and will sell in any market. It is larger than many other early varieties, flesh is orange yellow, seed cavity very small and produces very few seeds, which makes seed high in price. As a table melon it cannot be surpassed. The illustration gives a good idea of the handsome melons. Our supply of seed is somewhat limited, but we are anxious that every customer should give it a trial this year, even if they only grow a few hills in the garden for testing. Pkt. 5c. 3 pkts. 12c. oz. 10c. 2 ozs. 18c. ½lb. 30c. ½ lb. 50c. lb. 80c, postpaid

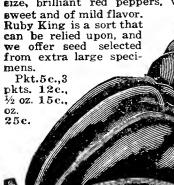

The plant grows from 1½ to 2 feet high and is very prolific, always producing a large number of clusters of peppers in the form of a bouquet, as shown by the illustration, there being from 12 to 36 cone shaped fruits to the bouquet, from % to 1 inch long. Pkt. 5c., 3 pkts. 12c.

MILLS IMPROVED RUBY KING PEPPER

A well known variety and one of the leading peppers, always in great demand. It grows to a good size, producing large size, brilliant red peppers, which are sweet and of mild flavor.

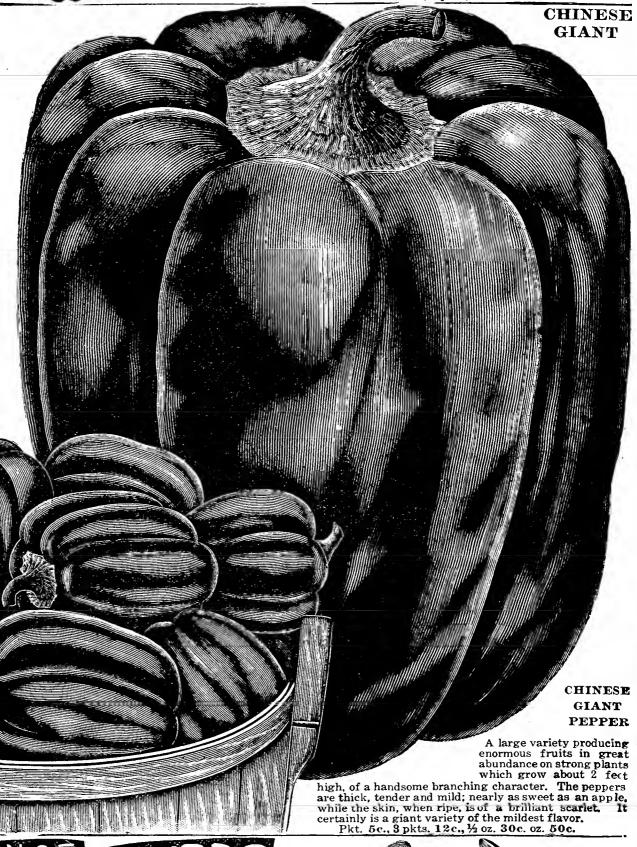

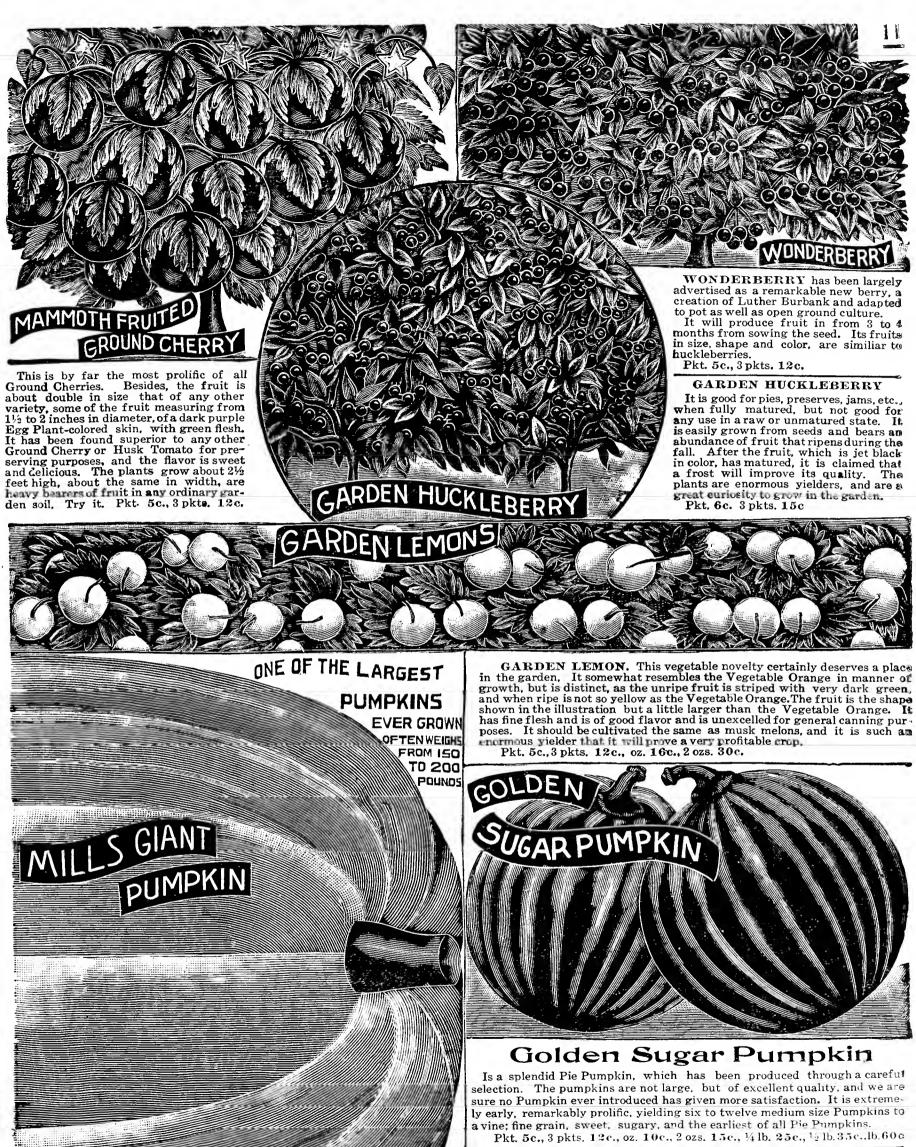

QUICK POP== POP CORN

A very early variety, and while the stalks grow short, they produce from 2 to 4 perfect ears of a beautiful golden yellow color. This Pop Corn is very quick to pop, hence its name, and the kernels expand to a large size when popped. It is a beauty, and a few hills in the garden will produce a good supply,

Pkt. 5c., 3 pkts. 12c.

Mills Giant Pumpkin

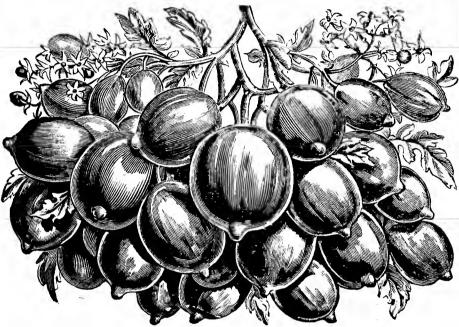

This is a prize-winning variety, growing to an enormous size, and should be grown to be appreciated. But few have an idea of the giant size these pumpkins attain. The flesh is bright yellow, fine grained, and of good quality, Notwithstanding the large size of the pumpkin it is excellent for pies. We have raised specimens weighing over 200 pounds, and it is nothing uncommon for our customers who have grown this variety to show specimens weighing over 100 lbs. There is nothing offered that will create a greater interest than this Giant Pumpkin. It is an excellent pumpkin to plant for show purposes, on account of its attaining such an enormous weight.

Pkt. 5c.3pkts. 12c., oz. 15c., 2 ozs. 25c., 4 lb. 40c., ½ lb. 65c., lb. \$1.25

PRINCE BORGHESE TOMATO

This is quite a novelty, is new and distinct and it is claimed was originated by the great Italian horticulturist, M. Herb. from whom the original seed stock came.

The plants grow very strong and produce fruit in enormous clusters as shown by the engraving; fruit being a handsome 3carlet color, the size and shape of a lemon, very firm, and superior in quality to many other Tomatoes. A novelty well worth trying. Pkt, 5c, 3 pkts. 12c.

RESPLENDENT TOMATO

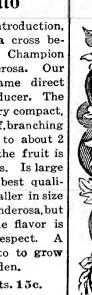

New variety which was introduced 2 years ago and claimed to produce fruits of many different colors on one plant, from light green when very small to white, lemon, pink, orange and yellow to a deep ruby red, the fruits being borne in great abundance. The plant is of stout, upright, branching growth, tree-form, with potato-like foliage unlike any other variety we have grown in our trial gardens. We have genuine stock, direct from the introducer. Pkt. 6c., 3 pkts. 15c.

Dwarf Ponderosa

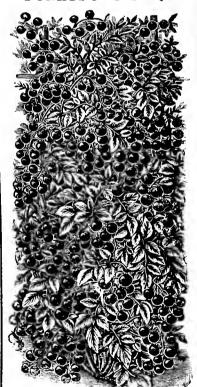

introduction. new claimed to be a cross between Dwarf Champion and old Ponderosa. Our seed stock came direct from the introducer. The plant grows very compact, stocky, of dwarf, branching habit, growing to about 2 feet high, and the fruit is borne in clusters. Is large and of the very best quality. A little smaller in size than the old Ponderosa, but we consider the flavor is equal in every respect. A first class tomato to grow in any home garden.

Tomato

Pkt. 6c., 3 pkts. 15c.

TOMATO BERRY

Here is quite a novelty, and, if given a support, will train on an arbor or trellis of any kind. The fruit is a bright crimson in color and borne in clusters of from 12 to 20 fruits, about the size of an early grape. Contains only a few seeds and is fine for cooking, canning and preserving. The plants grow very strong and on account of their enormous productiveness present a very handsome appearance. They begin to fruit early and continue for a long time.

Pkt. 5c., 3 pkts. 12c.

COCOANUT OR CLIMBING 13 WATER MELON

wonderful little melon. grow very strong and can be trained on am arbor as shown by the illustration or they nay be allowed to trail on the ground but when grown on an arbor they make a very attractive sight.

This melon grows to about the size of a Cocoanut and the seed is very small, not nuch larger than an apple seed. The fruits ripen quite a long time, being un like other sorts which ripen their fruit nearly all at one time.

The fruit is very solid and a rich crimson, good flavor, of the very best quality and A valuable little melon for the home garden, We consider this a very novel, attractive variety to grow. Our seed stock is very imited.

Pkt, 10c., 3 pkts. 25c.

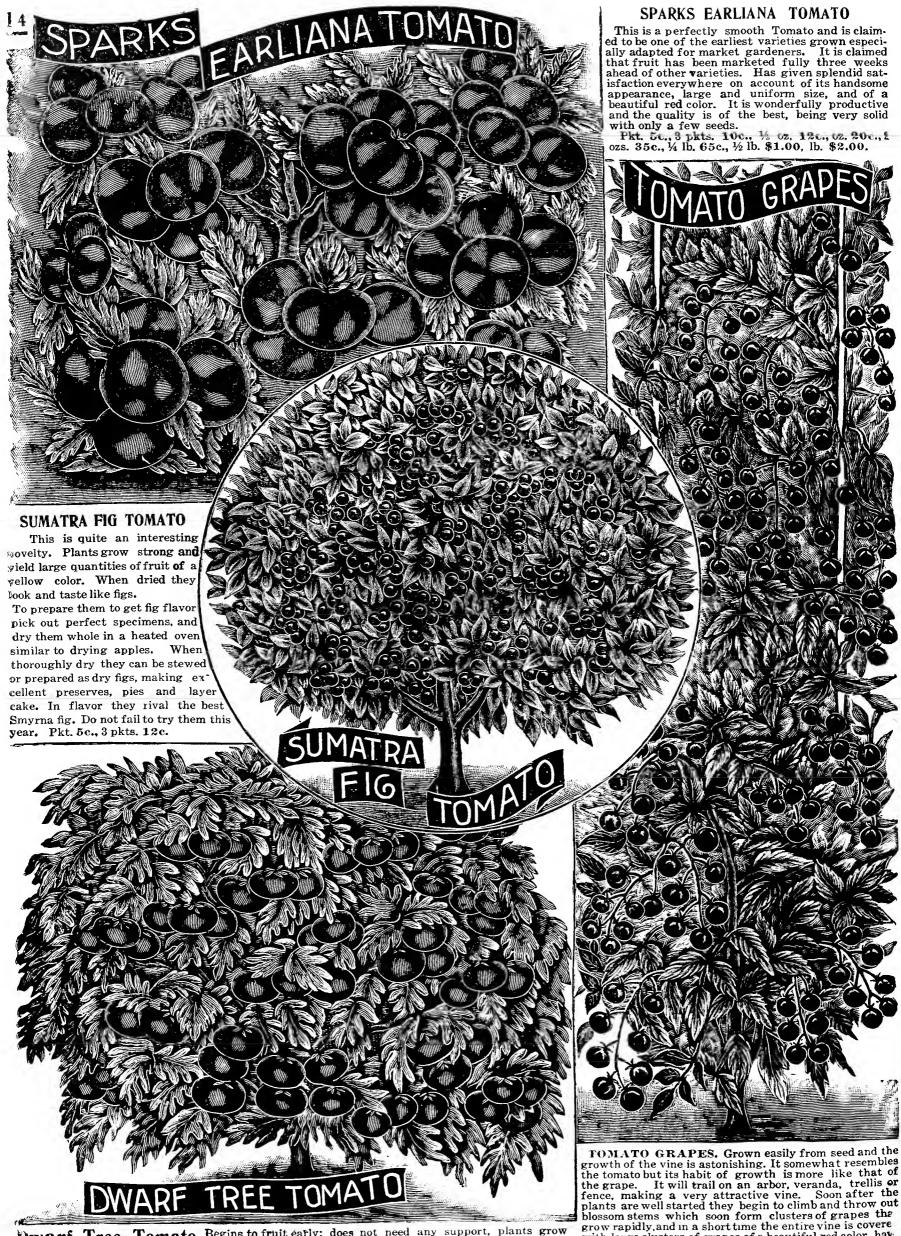

CHAMELEON PLANT

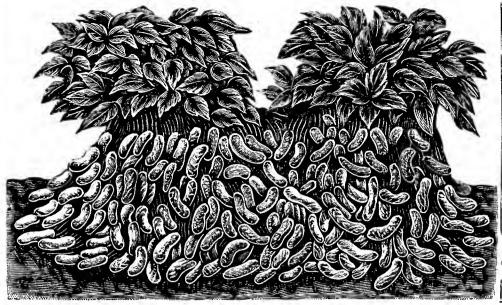

An interesting plant. The fruits are very attractive. are good size, but flattened, and have strong ribs, similar to a tomato of the old type. The fruits of this new Tri color or Chameleon Plant pass from white into an intense yellow, and later on into a brilliant scarlet. They change color like a chameleon. The production of fruits is very abundant. They keep well during several months, and there are always and at the same time fruits of the three different colors on the plant, thus producing a very strange effect. It is a great curiosity growing in the

garden. Pkt. 6c, 3 pkts. 15c.

Dwarf Tree Tomato=Begins to fruit early; does not need any support, plants grow upright with fruit well above the ground; handsome pink color ways round and smooth. You should grow it this year. Pkt. 5c., 3 pkts. 12c., ½ oz. 20c., oz. 30c., ¼ lb. \$1.00, ½ lb. \$1.70, lb. \$3.00 postpaid.

TOMATO GRAPES. Grown easily from seed and the growth of the vine is astonishing. It somewhat resembles the tomato but its habit of growth is more like that of the grape. It will trail on an arbor, veranda, trellis or fence, making a very attractive vine. Soon after the plants are well started they begin to climb and throw out blossom stems which soon form clusters of grapes the grow rapidly, and in a short time the entire vine is covere with large clusters of grapes of a beautiful red color, having the flavor of the tomato. Fruit is excellent for preserving and using in various ways. One vine will yield enormous quantities of fruit. Pkt. 5c., 3 pkts. 12c.

ROMAINE

variety of Lettuce but in another class from sorts usually grown and entirely different. Leaves of light green shaded to white when blanched. Grows uniform and selfuniform and selffolding, so it is unnecessary to tie
leaves together
in order that it
may blanch.

It has a flavor
of its own, is very
crisp and tender,

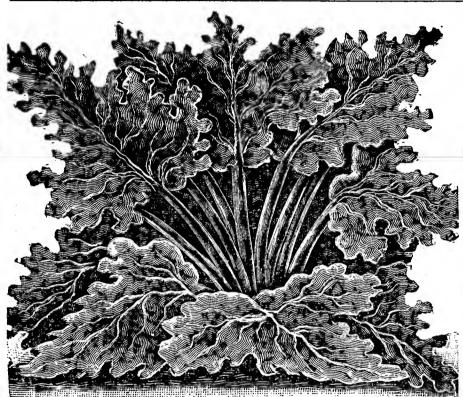

and when once grown, it will be

always grown.
Pkt. 5c.,3 pkts.
12c.

PEANUTS MAMMOTH

Peanuts can be grown successfully in almost any place where corn succeeds. This variety contains earliness and large size, and is also very prolific, as shown by the engraving from photo. Every part is useful; the vines as valuable feed for horses, cattle and sheep; producing from one to two tons of vines per acre, while the nuts contain a large per cent. of rich nourishment. They do best on a light sandy soil, but will produce a good crop on any open soil when it is plowed deep and carefully tilled. Plant them in rows 2½ to 3 feet apart and from 9 to 12 inches in the row, under about 2 inches of dirt.

If you grow a crop of peanuts you will also find that your soil has been benefitted nearly as much as if sown to clover. We encourage everyone to try a crop of peanuts, even if only for home use. Pkt. 6c., 3 pkts. 15c., pt. 25c.

A single plant of Giant Crimson Rhubarb

You Can Grow Rhubarb in Winter

The profit in growing Rhubarb is enormous. The culture for open field, also as a forcing crop for winter, is very simple. You can have Rhubarb pies any time in winter and market some at high prices. Plant a quantity of our Giant Crimson Roots this spring; cultivate well to secure large clumps of roots by fall. In November take these clumps up and allow them to freeze for a few days and nights; then set them in barrels or boxes and put them in a cellar or any place where the temperature can be kept from 50 to 70 degrees. Keep the soil moist, not wet, and in four or five weeks you will have Rhubarb large enough to use or market. You can get about three cuttings during the winter, when prices are high, and from \$100 to \$200 worth can be grown in an ordinary cellar during the winter,

The heat from a lamp is usually sufficient in a warm cellar, but a good place is in a shed or cave with stoves in, If you have a place you can keep the temperature on an average of 60 degrees, you can make an enormous profit forcing Rhubarb during winter. There is always a great demand and as a money maker with very little work and expense, we recommend Rhubarb.

Not only is Rhubarb valuable for forcing, but it is a paying crop to grow in open field in summer, and we advise our customers to try it.

We offer a good stock of Roots which will make excellent stock to grow for forcing next winter. Send us your order for roots. Every root planted this spring will make a good clump for winter forcing. Try this plan.

Price of good roots, 10c. each, 6 for 50c., 15 for \$1.00 postpaid. By express or freight, not prepaid, 100 for \$4.00, 250 for \$8.00, 500 for \$15.00, 1000 for \$27.00.

We offer seeds, pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ oz. 15c., oz. 25c., $\frac{1}{4}$ lb. 80c.

Giant Crimson Rhubarb or Pie Plant

Our Giant Crimson Rhubarb is one of the greatest and most valuable Novelties we have ever offered. It is the earliest of all Rhubarb, and fit for use not only in the spring, but all through the summer and fall, while common sorts are fit to use only a few weeks in spring. As fast as stalks are pulled new ones take their places, and in the south or Pacific states, it may be used all the year, requiring only water in dry localities to keep it growing. Stalks are of medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb, fully equal to the finest berries for sauce or pies, and is really a combination of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it. and when cooked makes a beautiful crimson sauce which looks and tastes like berries. It is especially adapted for forcing in greenhouses or cold frames.

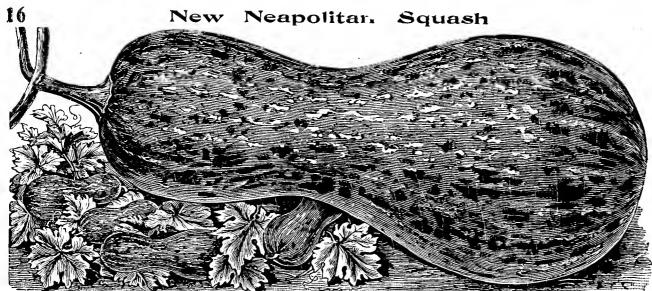

Rhubarb is the first vegetable from the ground in spring and the easiest plant of all perennials to grow. A half dozen plants will supply a large family during the season, and plants well established will last for years. We offer good seed and roots grown for us from true stock. Did you ever try to force Rhubarb? If not, try our plan as described on this page.

This is a very pecul iar Pepper and worth growing. We found growing. We found it while traveling in California and atonce arranged for a supply of seed The seed we of seed The seed we have was procured from selected Peppers, and not one pod was less than 7 inches long. It is a safe Pepper to plant; it has no insect enemies; when dried it is not recibels. The price perishable. The price is rarely less than 10 cents per pound dried and often double that figure. If you vant a novelty grow

Pkt.5c.3 pkts.12c.

Neapolitan Squash

A gigantic variety which grows nearly 30 inches long, being of a very peculiar shape, as shown in the illustration. It is almost solid meat, there being a very small seed cavity. The flavor is rich, it is dry, fine grained, and as easily grown as any other Squash or Pumpkin. We have an unusually choice lot of seed grown from the originator's stock, and we know our customers will like this novelty.

Pkt. 6c. 3 pkts. 15c., oz. 20c., 2 oz. 35c.

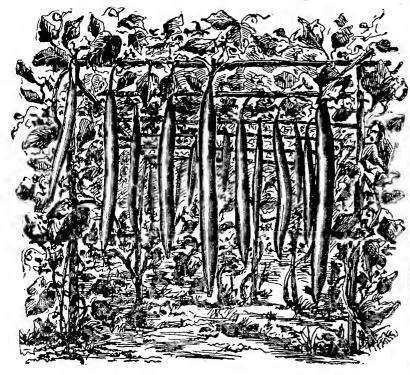

Black Giant Sunflower

Giant variety, heads enormous in size. Seeds short, well filled with meat, shell is thin. Grows to a wonderful size, single heads having measured over 5 ft. in circumference. Pkt. 6c,3 pkts. 15c, postpd.

Mammoth White Russian

Well known variety and largely planted. Pkt. 5c., 3 pkts. 12c., pt. 20c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk, 75c.

Long White Italian Squash

A rather peculiar squash, and a favorite with many gardeners who supply the Italian trade. Used in many ways and has a delicious vegetable flavor when properly cooked. Try this new squash. Pkt. 5c., 3 pkts. 12c,

Globe of Gold Sunflower

A dwarf sunflower growing about 3 feet high. Branches freely, carrying medium size double globe shaped flowers of rich, deep golden yellow, hence its name, Globe of Gold. Easily grown and the most densely double of any sunflower. Handsome on lawns or in the garden. Pkt. 6c.3 pkts. 15c

Globe of Gold Large French Strawberries Sunflower

You Can Grow These Large Luscious Fruits From Seed

Have you ever heard of the French Strawberries, which have you ever neard of the French Strawberries, which can be grown from seed? If not, you should certainly grow them this year. Their great size and luscious sweetness will surprise you. They are far ahead of American varieties, and we want all our customers to give them a trial

this year.

These Strawberries are easily grown from seed, and they are the most interesting of all fruit to grow this way because they grow so large and produce such handsome and delicious berries.

Seed should be sown early in hot bed or in open ground in a seed bed soon as weather will permit, and when young plants are well started transplant in rows 3 feet apart and 2 feet in the row.

We have been very fortunate in securing a good supply of the seed, all imported from our grower in Europe, and we believe it will please everyone. Order your seed now.

Pkt. 6c, 3 pkts. 15c.

CATALPA SPECIOSA Catalpa trees are grown for fence posts, telephone poles, railroad ties, etc.and will repay good cultivation just as surely as corn will, and any farmer will know what that means. Any soil that will grow farm crops will grow Catalpa trees. Distance for planting depends largely upon the soil. The aim should be to plant the trees just as thickly as can be done and grow to post size without overcrowding and checking the growth. On ordinary soil they should be planted about 6 by 8 ft. The cultivation of Catalpa trees is very simple, but they should be well cultivated for at least two years after being set. The whole object of cultivation is to prevent weeds and grass from occupying the ground and robbing the trees of moisture. This cultivation should be kept up until the trees are large enough to completely shade the ground. If you are growing only a few trees, mulching will answer the same purpose.

The best time to plant Catalpa trees is just as early as the frost is out of the ground in the spring and the ground dry enough to work.

If you plant Catalpa trees 6 by 8 feet, it will require 900 trees per acre. In ten years they should cut 7 to 10 posts each, or a total of 6 to 8 thousand posts, which are easily worth twenty to twentyfive cents each in the market. If they are cut for railroad ties or telephone poles, they will be even more valuable, but be sure you plant the genuine CATALPA SPECIOSA, which will grow a straight tree, as shown in the engraving.

For windbreaks, there is nothing better than a grove of Catalpa trees.

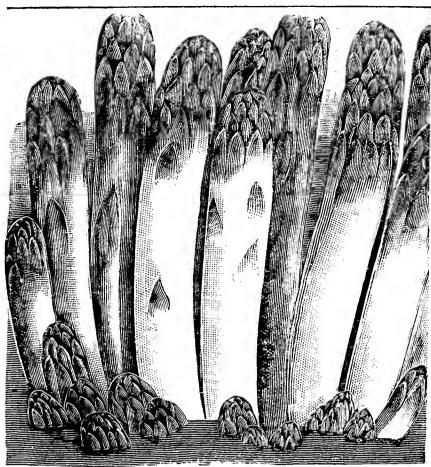

We offer seed which will produce plants and is the

Catalpa trees. We offer seed which will produce plants and is the we offer seed which will produce plants and is the cheapest way for anyone to start a field of these trees. Sow seed in a seed bed and keep free from weeds, and when plants are well started, transplant in rows 3 feet apart, about 1 foot apart in row, and by the next spring they will be large enough to set in a permanent place. Price of seed, pkt. 5c., 3 pkts. 12c., oz. 30c., 1/4 lb. \$1.00, 1/2 lb. \$1.75, lb. \$3.25. postpaid.

GENERAL LIST OF VEGETABLES

Palmetto Asparagus

ARTICHOKE

The Globe Artichoke is cultivated for its flower heads, which are cooked like Asparagus. We offer the Green Globe, which is the standard variety. Pkt. 6c., 3 pkts. 15c., oz. 30c.

ASPARAGUS

PALMETTO—This is the finest and best variety grown; remarkably tender and rich when cooked; free from any tough or woody fibre. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ½ lb. 25c., ½ lb. 40c., lb. 65c.

GIANT ARGENTEUIL—The popular variety in Europe and a special orite in Paris markets. Stalks large and thick. Pkt. 5c., 3 pkts. 12c., oz. favorite in Paris markets. Stalks large and thick. 10c., ¼ lb., 30c., ½ lb. 50c., lb. 80c.

BARR'S MAMMOTH-Stalks very large, grows quickly, light in color nearly equal to the Palmetto, but somewhat larger. Pkt. 5c., 3 pkts. 9c., oz 10c., 2 ozs. 16c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 65c.

COLUMBIAN MAMMOTH WHITE—This is a new variety: has white shoots which stay white as long as fit for use. It can be depended upon to give a very large per cent of white plants from seed. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ½ lb. 40c., lb. 65c.

CONOVER'S COLOSSAL-A well known, large, rapid grower. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 14c., ¼ lb. 18c., ½ lb. 25c., lb. 40c.

ASPARAGUS ROOTS

Every home garden should have a bed of Asparagus. It has become one of the most favorite and profitable garden crops; and makes a return early in the Spring before any other out-of-door crop can be marketed, and when a bed is well established it will yield splendid crops for a number of years.

We offer good roots of all varieties above except Giant Argenteuil at the following prices:

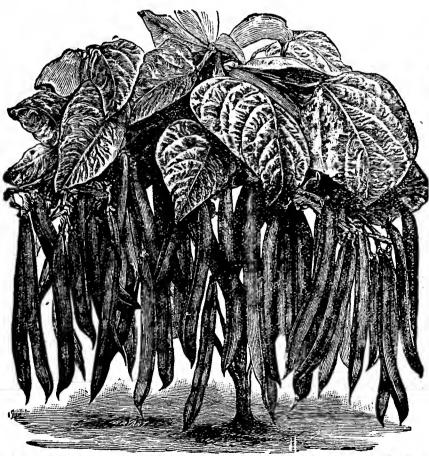

One-year-old, 50 for 60c., 100 for \$1.00 by mail postpaid. By express, one-year-old, 65c., per 100, 500 for \$2.25, \$4.00 per 1000.

Two-year-old roots by express 70c., per 100, 500 for \$3.00, \$5.00

BUSH BEANS = GREEN PODDED

THE BOUNTIFUL=This is one of the best Green Pod Varieties we offer. page 2, for description and prices.

GIANT STRINGLESS GREEN POD

GIANT STRINGLESS GREEN POD—Is claimed to be absolutely stringless and the best stringless bean. The pods are ready for market several days earlier than the best strain of Red Valentine or Early Six Weeks, making it very valuable. The rich green pods, from 5½ to 6 inches long, are so round that the back is creased, and when full grown are of fine flavor and very tender. It is very valuable for market gardeners and canning establishments. We have the pure stock that we can offer at: Pkt. 6c., 3 pkts.

12c., ½ pt. 15c., pt. 25c., qt.40c.,postpaid.By express or freight, not prepaid, 4 qts. \$1.00., pk. \$1.75, ½ bu. \$3.25, bu. \$6.00.

IMPROVED REFUGEE or 1000 to 1—Grow about 15 in. high, branching freely, pods nea-ly round, light green color, 5 to 6 in. long, very prolific. Pkt. prepaid, 4 qts. \$1.00., pk. \$1.75, ½ bu. \$3.25, bu. \$6.00.

MILLS IMPROVED TREE BEAN

IMPROVED TREE BEAN -This is a very prolific variety, growing nearly two feet high and branching out in all di rections, bearing pods sc high they seldom touch ground. They yield well pods are long, well filled with pure white beans of best quality. Plant in rows 21/2 ft. apart, 18 in. apart in rows, leaving one bean in hill and they will cover ground. They mature ear-ly and ripen evenly. Over 400 pods have been grown on a single plant. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., ½ pt. 18c.,pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid. 4 qts. 75c., pk. \$1.25.

IMPROVED REFUGEE or 1000 to 1

EXTRA EARLY RED VALENTINE—(Best Improved Round Pod Strain) This is one of the best strains of Valentine Beans ever offered. It matures quickly and is of the very best quality. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c. By express or freight not prepaid, 4 qts. 70c., pk. \$1.25, ½ bu. \$2.25, bu. \$4.00.

EARLY LONG YELLOW SIX WEEKS—This is an extra early variety; very productive, and always makes a good, thick, meaty pod. The pods are green, from six of eight inches long, and if gathered young are tender and stringless. Per pkt.5c., 3pkts. 10c., ½ pt. 12c., pt. 20c., qt. 35c., postpaid. By express not prepaid, 4 qts. 60c., pk. \$1.00.

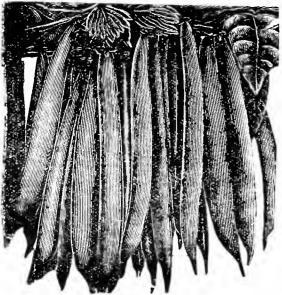

FULL MEASURE MEAS-UR E-A new rou-ndpodded bushbean produc-ing long round green pods alwayssolid and stringless is a very prolific grower, produc-ing poda five inches long, firm and tender, remain fit for use some time after maturity. Pkt. 6c., 3 pkts. 15c., ½
pt, 20c., pt. 30c., qt. 50c., postpaid by express or freight not prepaid, 4 qts., 75c., pk. \$1.25, ½ bu. \$2.25, bu. \$4.25.

BEST OF ALL—This is a valuable variety, medium early and bears abundantly. The pods are long, very fleshy, and of good flavor We consider this one of the best green pod sorts. It is very popular in the south, but it is equally desirable for northern gardens. Pkt. 6c., 3 pkts. 12c., ½ pt. 14c., pt. 22c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, ½ bu. \$1.80, bu. \$3.50.

BUSH BEANS - PODDED WAX

MILLS GIANT STRINGLESS WAX-Is a grand Wax Bush Bean and MILLS GIANT STRINGLESS WAX—Is a grand Wax Bush Bean and produces an abundance of handsome pods which are thick and fleshy and perfectly stringless, of a rich golden yellow color, very early. Plant grows upright and robust, quality is the very best and we can highly recommend it as a splendid Stringless Wax variety. There is no garden complete without a good supply of these splendid Stringless Wax Beans. It is a beauty. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c. 19t. 25c., qt. 40c., postpaid. By express or freight not prepaid, 4 qts. 80c., 19k. \$1.50, ½ bu. \$2.50 bu. \$4.50.

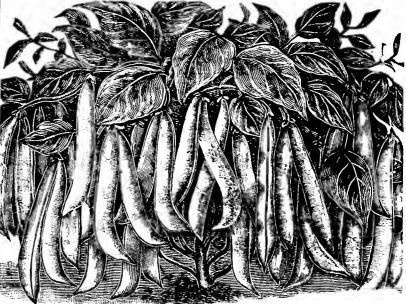

WONDER WAX

This is a real wonder. The plant is always laden with handsome wax pods produced in great profusion of a bright lemon yellow color, medium size, brittle, meaty and entirely stringless. It is a strong grower, holding its long straight pods well above the ground and rust proof. Pkt. 6c., 3 pkts. 15c., 12 pt. 20c., pt. 30c., at. 50c., postpaid. By ex. or frt. not prepaid, 4 qts. 80c., pk. \$1.40, 12 bu. \$2.50, bu. \$4.50.

PROLIFIC BLACK WAX

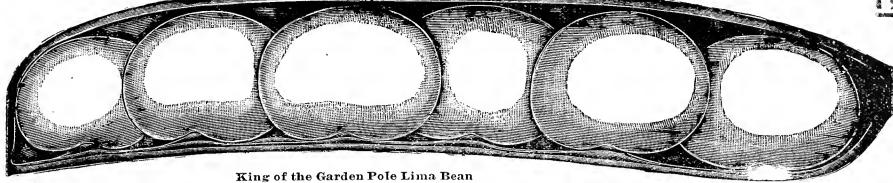

Tender, yellow, transparent pods 3 to 5 incheslong, best flavor, stringless. Prices same as Improved Golden Wax.

MILLS RUST PROOF WAX BEAN.

MILLS RUST PROOF WAX—One of the best Wax Beans in culearly, grow upright and robust, holding their pods up well from the ground, which are always of a beautiful golden color; unsurpassed in quality; pods golden yellow, about 5½ inches long. (See illustration.) Per pkt. 6c., 3 pkts. 12c., ½ pt. 15c. pt. 25c., qt. 40c., postpaid. By ex. or frt. not prepaid, 4 qts. 75c.,pk.\$1.25,½bu.\$2.60,bu.\$5.00.

King of the Garden Pole Lima

This is a well-known Pole Lima Bean and produces large sized pods and beans of the best quality. It is one of the best Pole Lima Beans of today. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. \$1.10, pk. \$2.00.

LAZY WIFE'S POLE BEAN

One of the best varieties for snaps of the late green podded pole beans. The pods are produced in great clusters, 5 to 7 inches long, broad, thick, fleshy and stringless with a buttery, rich flavor. The dried beans of pure white are very fine for winter use. Pkt. 6c. 3 pkts 15c., ½ pt. 20c., pt. 30c., qt. 50c.

GIANT PODDED POLE LIMA

This variety produces an enormous sized pod in great abundance on strong growing vines. Five and some times more of these big fat buttery beans are borne in pods which grow from 8 to 9 inches long.

Pods are produced in large clusters on very strong growing plants. As to large size, quality, tenderness and rich flavor we know of no Lima that can equal it. Try a few in your garden this year and you will say it has no equal.

Pkt. 6c., 3 pkts. 15c,, ½ pt. 20c., pt. 30c., qt. 50c. postpaid. By express or freight, not prepaid 4 qts. \$1.50, peck \$2.50.

BUSH LIMAS = Monstrous Bush all Bush Limas. See Page 1 for Prices.

FORDHOOK BUSH LIMA

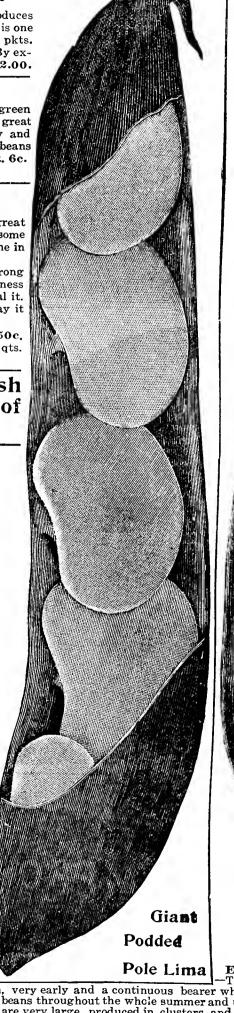

This is the bean that has been so largely advertised and which created quite a sensation in Bush Lima Beans when first offered. The plant grows erect, branching freely and bears enormous crops and the beans are ready for use as early as any other. The pods measure 5 to 6 inches in length, containing 4 to 5 beans each. The green beans, even when of full size, are tender, juicy and sweet in flavor when cooked. It is a grand Bush Lima Bean and we offer a choice crop of new seed. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., postpaid. By express or freight, not prepaid, 4 qts. \$1.40, peck \$2.50.

THE "BURPEE IMPROVED" BUSH LIMA

This is a distinct strain of Bush Limas. The plants grow upright and when full grown measure from 30 inches in height by nearly two feet across. The pods are large in size, borne abundantly in clusters of from five to eight, containing from four to seven large beans to a pod which are of the very best flavor. We consider this Lima will out-yield the ordinary strains of Bush Limas and we can highly recommend it.

Pkt. 10c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., postpaid. By express or freight, not prepaid, 4 qts. \$1.50, peck \$2.75.

EARLY LEVIATHAN POLE LIMA

Pole Lima

EARLY LEVIATHAN

This is a grand Pole Lima

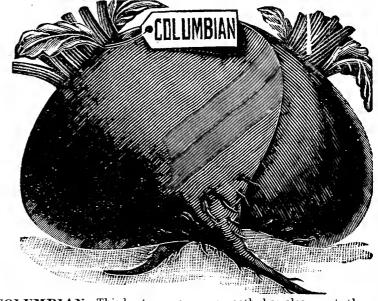

Bean, very early and a continuous bearer which makes it possible to pick beans throughout the whole summer and un til frost in the fall. The pods are very large, produced in clusters and contain four to five large sized, flat beans which are of excellent quality. We consider this Lima the one be depended upon for producing a good crop in any section of the country. Pkc 6c., 3 pkts. 15c., ½ pt. 20c., pt. 30c., qt. 50c., postpaid. By express or freely not Prepaid, 4 qts. \$1.15, peck \$2.00, bu. \$7.00.

GARDEN BEETS

MILLS EXTRA EARLY BLOOD TURNIP BEET=We sell more seed of this splendid Beet than

any other variety. It has been one of our specialities for years. See illustration on Back Cover.

COLUMBIAN-This beet grows very smooth, has clean roots three to four inches in diameter, which are ready for use almost as quickly as some of the earlier sorts and is of much better quality than many of them. The flesh is deep blood red, tender, and of rich flavor, and it retains its fine quality until the roots have reached full growth. It is one of the very best to grow for winter. Even if sown as late as July it will produce roots of good size before frost. Pkt. 5c., 3 pkts. 12c. 6 pkts. 20c., oz. 10c., 2 ozs. 18c., \(^{14}\) lb. 25c., \(^{12}\) lb. 45c., lb. 80c.

Eclipse ECLIPSE-Chis beet is quite early and superior

ELECTRIC BEET

ELECTRIC-This is almost round shaped. The flesh is rich, red and tender; remarkably early; tap root small leaves and top small, one of the earliest varieties: Pkt.5c., 3 pkts., 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

Mr. John D. Spoon, Wymore, Neb., April 29, 1912, 'Received your seeds for testing last month and in reply will say, that all of the seed grew or 100 per cent. Thanking you for the seeds, I remain, etc."

SWISS CHARD OR SPINACH BEET

This does not make edible roots like the regular gar-den beets, but is grown for the broad white leafstalks. which are bunched and cooked in same manner as asparagus. d makes a

mer vegeta' le. The young leaves may be gathered also and cooked like spinach, thus making excellent greens. Pkt. 5c., 3 pkts. 12c., oz. 10c., 4 lb. 25c., ½ lb. 45c., par lb. 80c.

per lb. 80c.

many other table beets. We have taken particular pains in selecting this strain for many years, and can furnish seed that will produce beets with a very small top, smooth, fine grain, tender, and of a handsome bright red color. We believe this is one of the best known beets and has given great satisfaction to all who have grown it. If you want to raise Eclips c

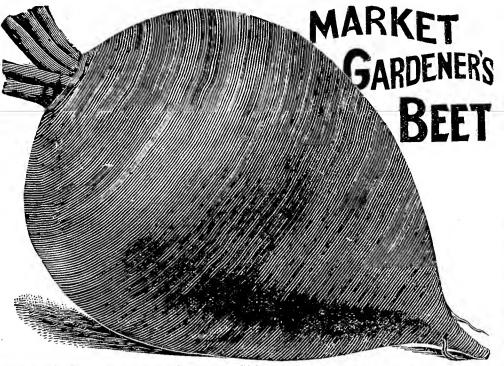

Beets try ou strain this year.

Pht. 5c., 3 phts. 12c., 6 pkts. 20c., oz, 10c., 2 ozs. 18c., ¼ 1b.

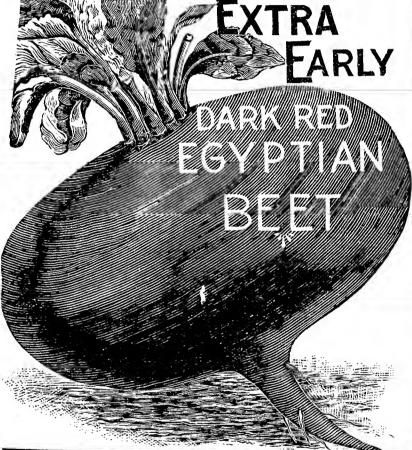

IMPROVED LONG RED—This is the best long red beet on the market, being unequalled for the table or live stock. It is popular everywhere. Tops are large; necks small; roots, stems and vines red; leaves green. Roots are large, tapering at both ends, growing nearly even with the surface. Flesh and skin dark red, tender, sweet, and remains so when kept until spring. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., 4 lb. 25c., ½ lb. 45c., lb. 80c.

This is as good a thing as can be sown in the garden; it is a special mixture made of all the best Table Beets and will give a supply from very early throughout the entire season. They can also be kept in the cellar during the winter, and we know this mixture will give great satisfaction wherever sown. Try it. Pkt. 5c., 3 pkts. 10c., 6 pkts. 16c., oz. 9c., 2 ezs. 16c., 1/4 kb. 20c., 1/2 lb., 35c., lb. 65c.

MARKET GARDENERS' BEET—This grows very rapidly and continues to grow for a long time making a heavy root for autumn or winter use. The quality is good at all stages of growth. It is an excellent keeper all winter; a very dark red in color throughout and the very best for table use. The shape is symmetrical; small top and very handsome in appearance. Try it this year. Pkt. 5c., 3 pkts. 12c., 6 pkts., 20c., oz. 10c., 2 ozs. 18c., 4 lb. 25c., ½ lb. 45c., lb. 80c.

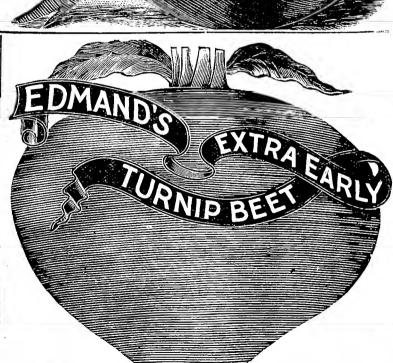

Crimson Globe is very tender and beautiful form with rich, red flesh; root grows to medium size sur-face is remarkably smooth and has a very small tap root; tops and leaves are small occupying little room little room in growing. It is free from any stringy or woody substance that is frequent among othamong other varieties of beets. Pkt. 5 c., Pkt. 5 c., 3 pkts.12e 6 pkts. 2 0 c., oz. 10c., 2 ozs 18c., ¼ lb. 25c., ½ lb. 4 5 c., lb. 80c.

This is the old well known Blood Turnip Beet claimed to be the earliest of all. The illustration gives the shape of this popular root. Flesh is a dark red color. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ½ lb. 25c., ½ lb. 45c., lb. 80c.

This has been one of our favorite varieties for several years and it is highly recommended by all who have grown it. It is of good shape and about the size for open garden culture. It is also good for forcing on account of producing very little foliage. The roots are very smooth and of a dark blood red color and the flesh is of the very best. They can be grown close together, about 4 inches apart. Pkt. 5c., 3pkts. 12c., 6pkts. 20c., oz. 10c., 2
ozs. 18c., 4 lb. 25c., 2
lb. 45c. lb. 80c.

Mills' Mammoth Prize

Long Red Mangel

This is the most popular long red mangel; sometimes called "Giant" or "Jumbo." It is the largest variety whow of. Grows about % out of the ground and we have frequently grown them to weigh 30 lbs. each. It has produced over 60 tons to the acre, It is not coarse grained, even when attaining enormous weight. It is one of the very best for cattle and sheep feeding during winter and those desiring a good red mangel will certainly want this one, as it always produces roots of good size and quality. The illustration, carefully engraved from specimen, will give a good idea of the size and shape and our customers who want a good stock feeding red mangel should order this one. Pkto 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 12c., ¼ lb. 15c., 1/2 lb 25c., lb. 45c., 5 lbs. \$2.00. postpaid.

Red Globe Mangel

This is the very best Globe Mangel and is used for planting in shallow soil. Is easy to dig on account of its having a short oblong shaped root. It is immensely productive and one of the best for stock feeding. It keeps as well as any when stored for winter use and our customers can make no mistake in planting this if they want to grow a good mangel. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 12c., 1/4 lb. 15c., 1/2 lb. 25c., lb. 40c.

Klein Wanzelben Sugar Beet

This is the best sugar beet to grow for the manufacture of sugar. It is also used to grow for stock. It is acknowledged by all to be by far the best sugar beet grown. We offer genuine imported seed as follows: Pkt. 5c., 3 pkts. 7c., oz. 8c., 2 ozs. 12c., 4 lb. 15c., lb. 40c., 5 lbs. \$1.75, postpaid.

Improved Imperial Sugar

This is another popular and productive sugar beet; has been in cultivation for some time and is well known in many sections as a favorite for stock feeding. It is rich and engary in quality and the crop sometimes reaches 30 tons per acre, and single specimens from to weigh nearly 35 pounds each. Pkt. 5c., 3 pkts. 7c., oz. 8c., 2 ozs. 12c., 14 lb. 22c., 1b. 40c., postpaid.

W We will ship by express or freight, not prepaid, 5 pounds or more of the above 5 Mangels or Sugar Beets at 30c. per pound.

WHITE VELVET OKRA (or Gumbo)

Never prickly and always round and smooth, while where varieties are either ridged or square edged. Outpields other varieties. Pkt. 5c., 3 pkts. 9c. (25c.) 10c., 11 lb. 20c., 12 lb. 35c., lb. 50c.

ENDIVE

CHREEN CURLED—This is a very hardy variety; dark green leaves; always blanch white and risp. Pkt. 5c., 3 pkts. 10c., oz. 15c., ½ lb. 20c., ½ lb. 55c.

BEGOAD LEAVED BATAVIAN—Produces large heads of broad leaves, used for flavoring soups, and if blanched the leaves make a good salad. Pht &c., 3 pkts. 10c., oz. 15c., 1/2 lb. 30c., 1/2 lb. &c., lb. \$1.00.

MUSTARD

BLACK-Pkt. 5c., 3 pkts. 9c., 0% 10c., 1/2 lb. 25c., lb. 40c.

WHITE-Very best, mild, and is exceedingly tender. Pkt. 5c., 3 pkts. 9c., 02. 10c., 1/2 lb., 25c., lb. 40c.

DANDELION

improved Large Leaven. Wery early if sown in May will be fit to cut in July. A very valuable variety. Pkt. 10c., 3 pkts. 20c., ½ oz 25c., oz. 40c.

COLLARDS

TRUEGEORGIA — Known to Cole or Colewart; originated in the South. Grown South for greens. Pkt. 5c., 3 pkts. 9c., 02. 10c., 1/2 lb. 30c., 1/2 lb. 50c., lb. \$1.00.

KOHL=RABI, or Turnip Rooted Cabbage

EARLY PURPLE VIENNA—It is largely grown for table use in Germany. Pkt. 5c., 3 pkts. 10c., oz. 20c., ¼ lb. 60c., % lb. \$1.00, lb. \$1.80.

EARLY WHITE VIENNA—Best for table use. Pkt. 5c., 3 pkts. 10c., oz. 15c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

CRESS

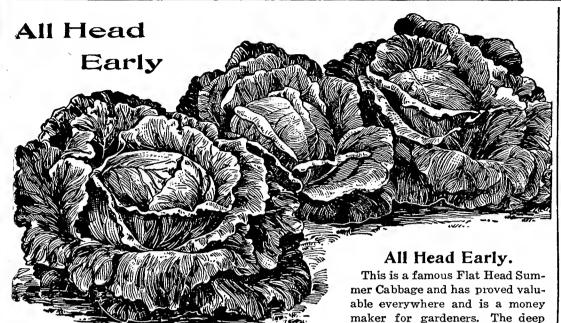

FINE CURLED—(Pepper Grass)—Agreeable taste to salad. Pkt. 5c., 3 pkts. 12c., oz. 10c, 1/2 lb. 30c., 1/2 lb. 50c.

CABBAGE = We offer a selected strain of all the Best Varieties 23 of Cabbage and know they will give satisfaction.

Mills Early June==Earliest Cabbage in the World. See Page 3 for description and prices. Giant Solid Head=A Giant Hard Heading Cabbage. See Page 3 for description and prices

flat heads are remarkably solid and

the most uniform in size and shape of any variety in cultivation. The introducer says it is the most thoroughbred of all American Cabbages and the heads grow so compact that fully a thousand more heads can be obtained to the acre than any other cabbage. It is suitable for growing in the spring and early summer or for use as a winter sort. Selected Stock -Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., ¼ lb. 45c., ½ lb. 85c., lb. \$1.60.

60 DAY CABBAGE

This is the quickest growing Cabbage in the world. It heads quickly, is very solid and of splendid quality. Try it and you will say it is a wonder.

say it is a wonder.

It was tested last year by over a million people and they cannot praise it too highly.

MRS. CHAS. A. MOYER, MOORA, MONT. writes, Your 60 Day Cabbage is a marvelous variety and should be grown in every home garden.

MRS. E. J. JOHNSON, RUWEDA, KAN. writes "I cannot recommend your 60 Day Cabbage too highly. It was ready to use long before my other kinds planted the same time.

Pkt. 10c., 3 pkts. 20c.

Early Jersey Wakefield.

We offer the finest strain of Jersey Wakefield to be had It is a well known variety, producing large heads almost as early as any of the other sorts. You should never buy cheap seed of this variety. Pkt. 5c., 3 pkts. 12c., oz 20c., 2 ozs., 30c., ½ lb. 55c., ½ lb. \$1.00, lb. \$1.85.

80 Days from Sowing of the Seed.

This is just the Cabbage for your garden-producing fine, solid, good sized heads and fit to use in 70 to 80 days from sow ing the seed. Its shape and habits of growth are shown by the it

lustration, the deep flat heads being remarkably solid and the moad uniform in shape and size of any variety. It is a beautiful cabbage in appearance and on account of its rapid growth far excels all others for tenderness. We are particularly anxious to have every one of our customers who raise cabbage grow Earliest Flathead this year. It will surely please every one. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., 1-2 oz. 20c., oz. 30c., 2 ozs. 40c., 1-4 lb. 75c., ½ lb. \$1.25, lb. \$2.25, postpaid.

4 Mills SUREHEAD Cabbage

MILLS SUREHEAD—While the Giant Late Flat Dutch is a good one and always produces an excellent crop, the Surehead comes close to it and produces large, solid firm heads, even in the most unfavorable season. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It produces large, round flattened heads and is remarkable for its certainty to head. It is all head and always sure to head, even where other varieties fail. Single heads have weighed over sixty pounds. pkts., 10c., 6 pkts. 18c., oz. 15c., 2 ozs., 25c., ¼ lb., 45c ½ lb., 80c. lb., \$1.50.

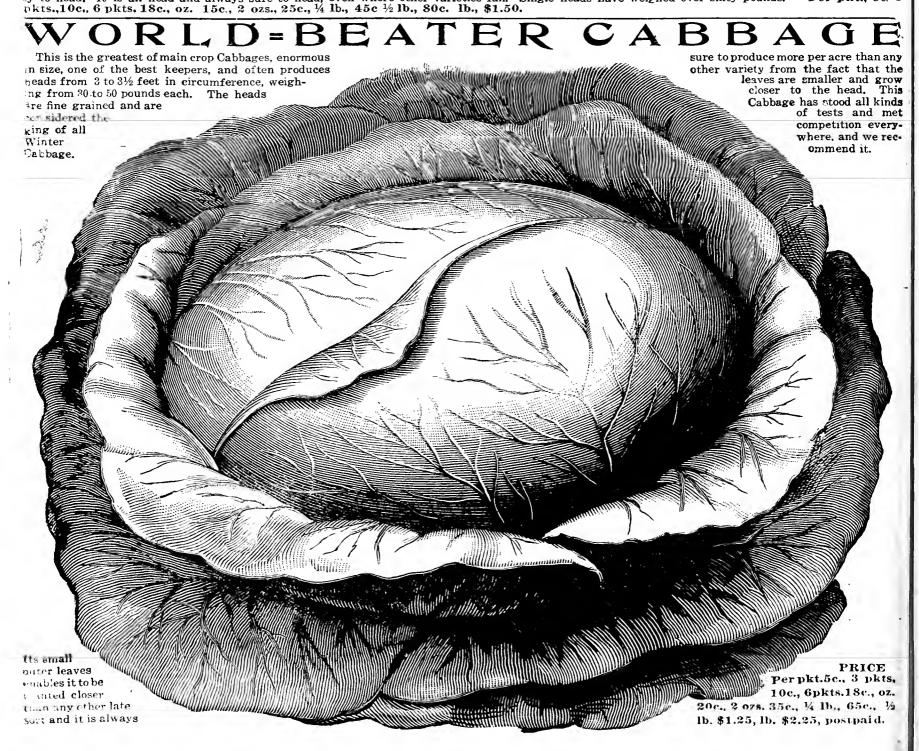

DANISH BALL-HEAD CABBAGE

This Cabbage comes from Denmark and it is prized so highly that the Danes grow it almost exclusively for Winter Cabbage. The heads are hard, round, of good marketable size, fine-grained and good keepers, are not so large as the late Flat Dutch, but are even harder and more solid. The true Danish Ball Head has become wonderfully popular for winter market and we believe that in many sections, where Cabbage is largely grown, at least four-fifths of all Winter Cabbage grown is Danish Ball-Head. Our stock is extra fine imported from Denmark, crop of 1913, and can be relied upon as the very best. Pkt., 5c., 3 pkts., 10c., oz., 30c., 2 ozs., 50c., ¼ lb., 80c., ½ lb., \$1.50, lb. \$2.60, postpaid.

THE HOUSER-This is a grand new late Cabbage and all who have grown it are more than pleased with it. It is a late variety, but the heads are about as hard as Danish Ball Head. It grows very compact. On account of the heads being so round and deep, it is not liable to crack. As to(quality there is no better variety found, there being no coarse ribs or stems to be found in a head. A very vigorous grower and will stand drought to a remarkable degree, and the heads grow so even and solid that they will average 10 to 12 lbs. each through a whole crop. It is highly recommended for keeping qualities and is an excellent sort to grow for storing for spring markets. Pkt. 5c., 3 pkts. 12c., 6 pkts.20c., oz. 25c., 2 ozs. 45c.

MAMMOTH ROCK RED-Largest Red Cabbage known; heads of a deep red inside and out and almost as solid as a rock. Per pkt., 5c., 3 pkts., 10c., oz., 20c., 2 ozs., 35c., 1/4 lb., 65c.,

Per pkt., 5c. 3

Forms large cone-shaped heads of excellent quality, and is certain to head, as it will grow solid heads in seasons when other sorts fail to produce anything. Per pkt., 5c., 3 pkts., 12c., oz., 15c., 2 ozs., 25c., ¼ lb., 35c., ½ lb., 65c., lb.,

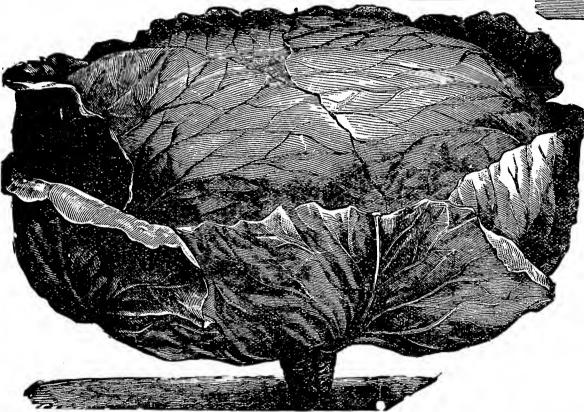

EARLY SPRING

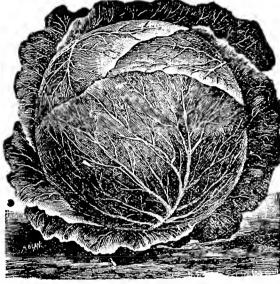

This is a first-class, extra

This is a first-class, extra early, round, flat head Cabbage. The heads are always uniform, remarkably solid, with but few leaves and is giving great satisfaction everywhere. The stem is short, which makes it very valuable for truckers as well as private gardeners. Pkt. 5c., 3 pkts. 12c., oz. 20c., 2 ozs. 35c., ¼ lb. 60c., ½ lb. \$1.15, lb. \$2.00.

MILLS SHORT STEM DRUMHEAD

ALL SEASONS CABBAGE

All Seasons Cabbage-This Cabbage is good early, medium or late, just as the name indicates and can be planted at all seasons, producing fine large heads not liable to burst after heading. It is a good cabbage everywhere and is sure to please all who grow it. Pkt. 5c., 3 pkts, 10c., oz, 12c., 2 ozs. 20c., ¼ lb. 35c. ½ lb. 65c., lb. \$1.25.

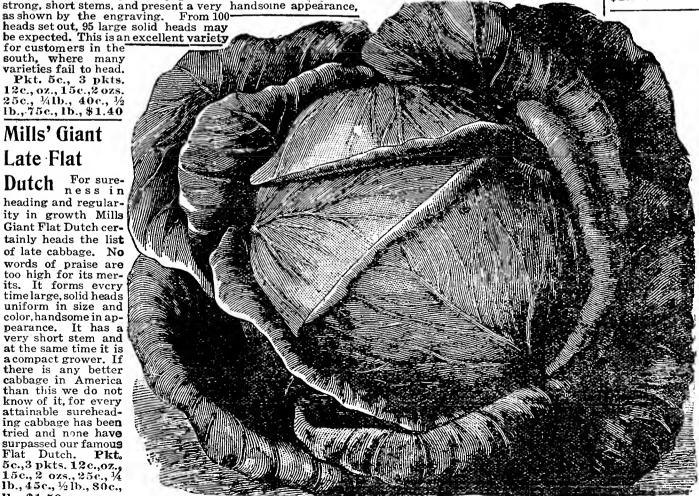

MILLS SHORT STEM DRUMHEAD—This splendid variety of winter Cabbage has given universal satisfaction. But few varieties can excel this famous sort for productiveness; beautiful appearance, excellent keeping qualities and the immense size of the heads. Heads are extra hard and solid; are round and flattened on top. They grow uniform in shape, with strong, short stems, and present a very handsome appearance, as shown by the engraving. From 100 heads set out 95 laws solid heads may

for customers in the south, where many varieties fail to head. Pkt. 5c., 3 pkts.
12c., oz., 15c., 2 ozs.
25c., 41b., 40c., 4/2
1b., 75c., 1b., \$1.40

Mills' Giant Late Flat

Dutch For sure-nessin heading and regularity in growth Mills Giant Flat Dutch certainly heads the list of late cabbage. No words of praise are too high for its merits. It forms every time large, solid heads uniform in size and color, handsome in appearance. It has a pearance. It has a very short stem and at the same time it is a compact grower. If there is any better cabbage in America than this we do not know of it, for every attainable sureheading cabbage has been tried and none have surpassed our famous surpassed our famous Flat Dutch. Pkt. 5c.,3 pkts. 12c.,0z., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb., 80c., Ib., \$1.50.

BOT

Chinese Cabbage

Chinese Cabbage-This is a delicious Cabbage grown very extensively by the Chinese and is regarded as somewhat sacred by them. The illustration gives a good idea of the beautiful appearance but does not show the delicate blanching. The flavor is a blending of cabbage and turnip. We believe it will be a very interesting addition to the family garden. Try it. Pkt., 5c.,3 pkts.,12c.,6 pkts.,20c.

MILLS GIANT LATE FLAT DUTCH CABBAGE Try Our New Early Cabbage-COPENHAGEN MARKET-It's A Wonder. See Page 4 RESISTS DROUGHT WHEN OTHER SORTS FAIL This new Cauliflower originated in

Denmark. It has been grown in nearly all sections of America and proved to be a drought resister. It produces a large, solid, pure white head, nearly as early as MILLS EARLY FAVORITE. It is especfally adapted to dry localities and resisting the effects of droughts. It will do well also in moist or wet seasons and make large handsome heads, but in dry seasons it seems to have an advantage over all others.

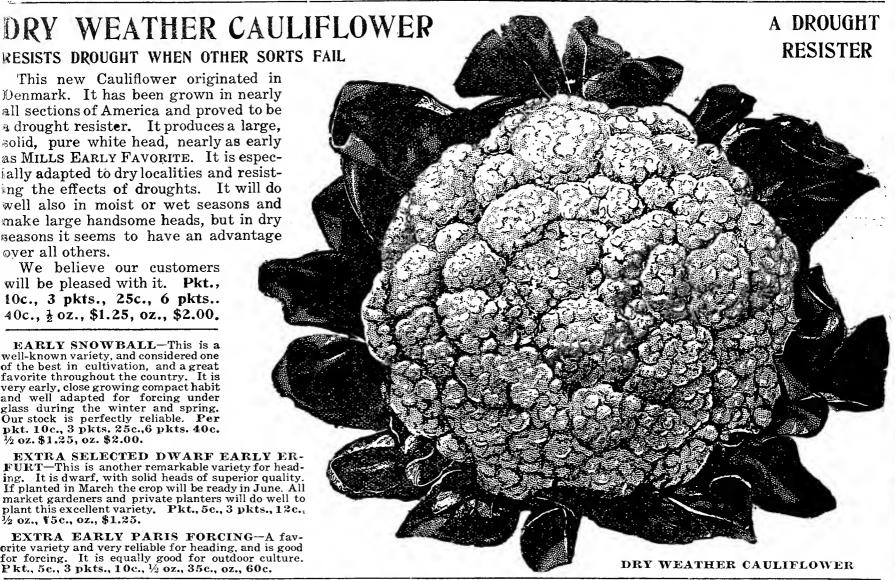

We believe our customers will be pleased with it. Pkt., 10c., 3 pkts., 25c., 6 pkts.. $40c., \frac{1}{2}$ oz., \$1.25, oz., \$2.00.

EARLY SNOWBALL-This is a EARLY SNOWBALL—This is a well-known variety, and considered one of the best in cultivation, and a great favorite throughout the country. It is very early, close growing compact habit and well adapted for forcing under glass during the winter and spring. Our stock is perfectly reliable. Per pkt. 10c., 3 pkts. 25c.,6 pkts. 40c. ½ oz. \$1.25, oz. \$2.00.

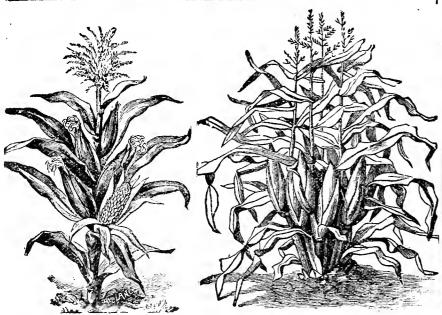

Baby Golden Pop Corn

EXTRA SELECTED DWARF EARLY ER-FURT—This is another remarkable variety for heading. It is dwarf, with solid heads of superior quality. If planted in March the crop will be ready in June. All market gardeners and private planters will do well to plant this excellent variety. Pkt., 5c., 3 pkts., 12c., ½ oz., ¥5c., oz., \$1.25.

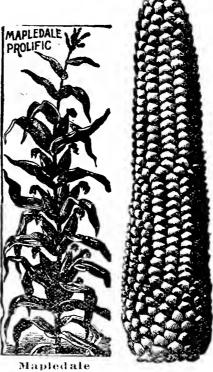

EXTRA EARLY PARIS FORCING—A favorite variety and very reliable for heading, and is good for forcing. It is equally good for outdoor culture. Pkt., 5c., 3 pkts., 10c., ½ oz., 35c., oz., 60c.

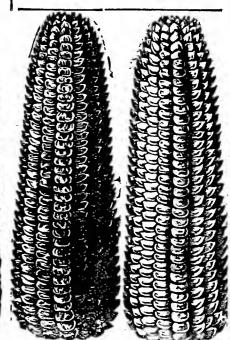

Golden Tom Thumb

Prolific Queen's Golden

WE HAVE A LARGE STOCK OF POP CORN

Red Beauty

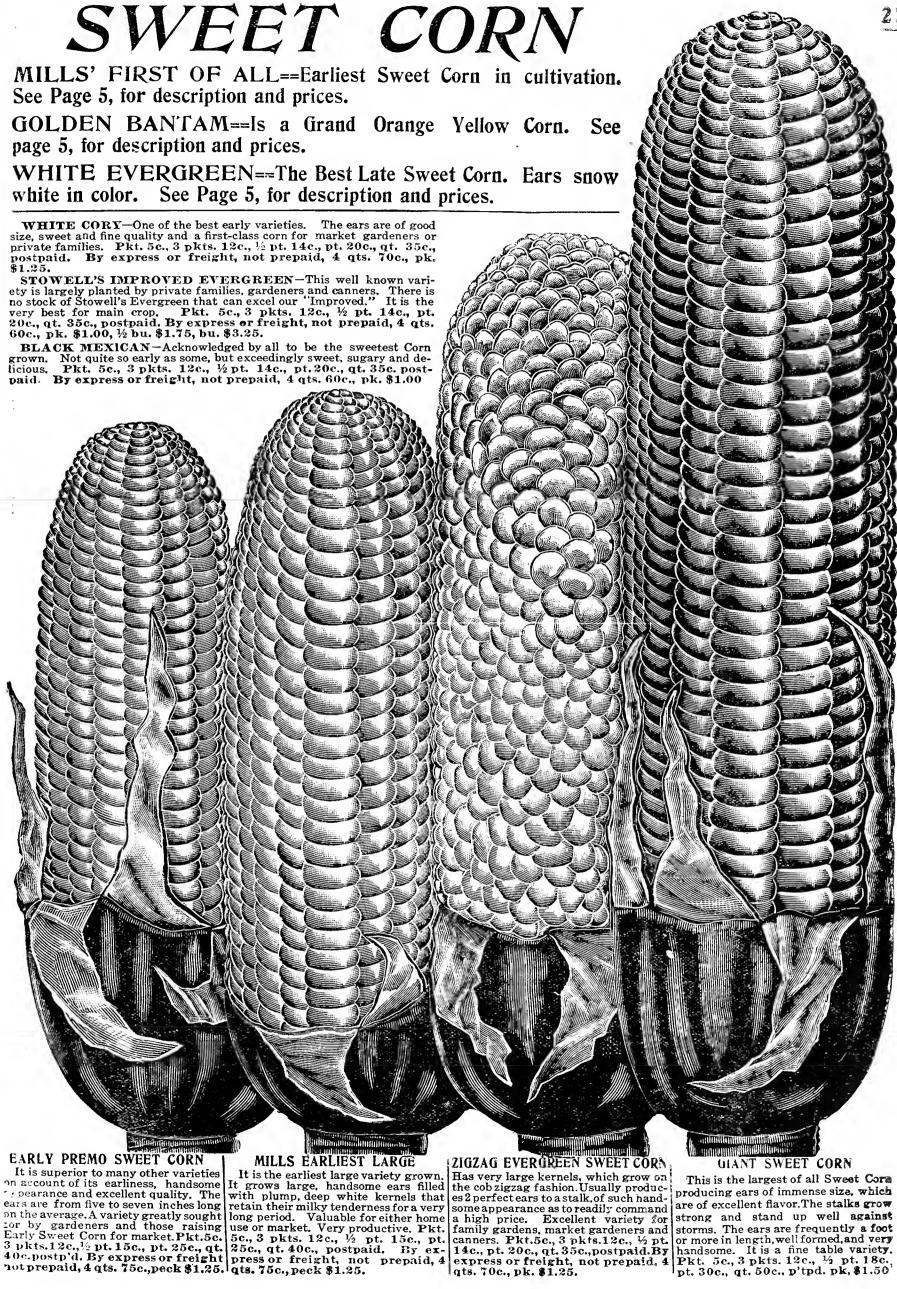

BABY GOLDEN Smallest Pop Corn in existence. It is very prolific, producing from 5 to 10 ears on a single plant. The stalks do not exceed 3 feet in height and the ears are from 13 to 23 inches in length. The kernels are but very little larger than a kernel of rice, of a handsome, lustrous, light golden color, and pop without leaving any hard center. We recommend it most highly and with all its good qualities you will find it the prettiest pop corn you have ever seen, both on the ear and when popped. Pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

GOLDEN TOM THUMB One of the smallest pop corns grown, growing only about 18 inches high, and produces from 2 to 4 perfect little ears Each car is from 2 to 2½ inches long, with kernels of a bright golden yellow, which, when popped, expand to a large size Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c.

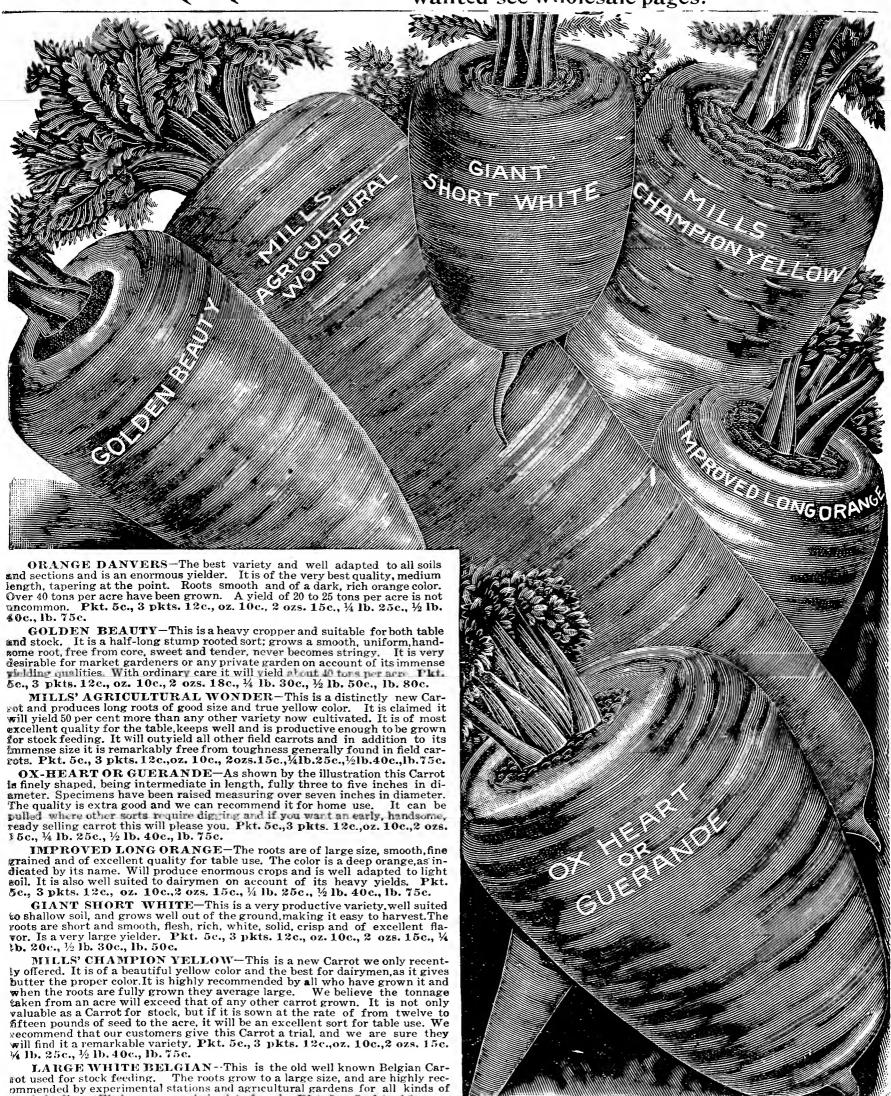

MAPLEDALE PROLIFIC This is a remarkable variety and the greatest yielding sort ever found among Pop Corn. Stalks grow about five feet high and it is claimed that as many as 12 ears have been produced on a single stalk. Its popping qualities are excellent, always pure white and of good flavor. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c.

OUEENS GOLDEN A beautiful golden color. Excellent for popping, and very tender. Pkt., 5c., 3 pkts., 10c., ½ pt., 15c., pt., 25c., qt., 40c., RED BEAUTY It is very productive, of a beautiful red color, and in every respect a first-class pop corn. Very tender and delicious and is sure to give satisfaction. Per pkt., 6c., 3 pkts., 12c., 6 pkts., 20c.

WHITE RICE This is a well-known variety and the leading sort for the market. Our stock is extra selected. Pkt., 5c., 3 pkts., 10c., 6 pkts., 18c., ½ pt., 15c., pt., 25c., qt., 40c., postpaid.

CARROTS = At prices quoted, all Carrot Seeds are sent by mail postpaid. If larger quantities are wanted see wholesale pages. wanted see wholesale pages.

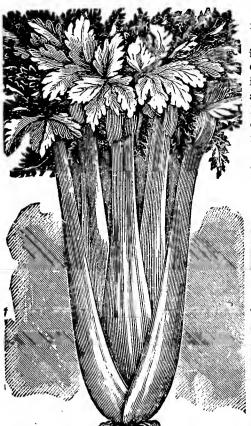

**tock feeding. We have a very choice lot of seed. 1 10c., 2 ozs. 15c., 4 lb. 20c., 4 lb. 30c., lb. 50c. MASTODON—This is a very large and productive white Carrot. A great improvement on the Belgian sort. The flesh is pure white, crisp and solid. very sweet in flavor. Roots of large size, very heavy at the shoulder and frequently measure 15 to 18 inches in length, yielding 20 to 25 tons per acre. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 15c., 4 lb. 20c., ½ lb. 35c., lb. 60c.

Pkt. 5c., 3 pkts. 12c., oz.

Carrot Collection= For those who would like to grow all the different varieties of Carrots we offer seed in one mixture, which includes all shapes, colors and sizes, and is well worth growing. It makes & great collection. Pkt. 5c., 3 pkts. 10c., oz. 8c., 2 ozs. 12c., \(\frac{1}{4}\) lb. 20c., \(\frac{1}{2}\) lb. 30c., lb. 50c., postpaid.

PINK PLUME

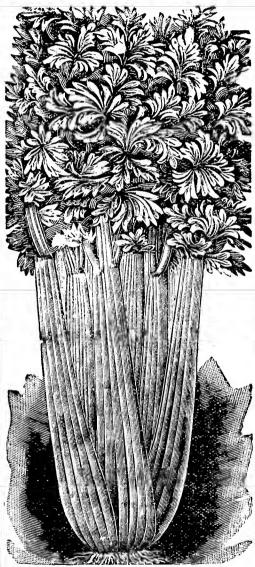

Golden Self-Blanching

NEW ROSE—This Celery has a splendid flavor and it is also very ornamental for the table. It is solid, rich in flavor and keeps remarkably, better than the yellow and the white sorts. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb, 45c., ½ lb. 80c., lb. \$1.50.

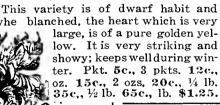

This is a splendid new variety recently introduced and is an adrance in Celeries, as an intermediate between the White and Red Celeries, combining the good qualities of both. Pink Plume is just about the same as the old White Plume; rich flavor, long keeping qualities, for which the Red Celeries are noted. It is a strong heavy grower with no tendency to rust, extra early and a good keeper. The stems are solid and crisp and it is a very handsome Celery. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

LARGE RIBBED RED

Large Ribbed Red

DWARF GOLDEN HEART

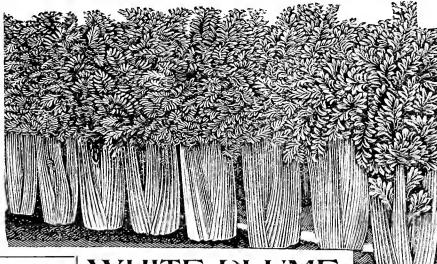

Dwarf Golden Heart

GIANT PASCAL

With the exception of our Gilt Edge Strain Self-Blanching, this is, without doubt, the most remarkable variety ever introduced. The stalks are large and stringless, crisp and brittle, heart a rich bright yellow even after blanching. An excellent variety for shipping; does not rust or rot; grows more satisfactorily in the

South than any other kind. It is a fine keeper; an extra good shipper, retaining its color and appearance as long as any other variety in existence. Pkt. 5c., 3 pkts, 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50, postpaid.

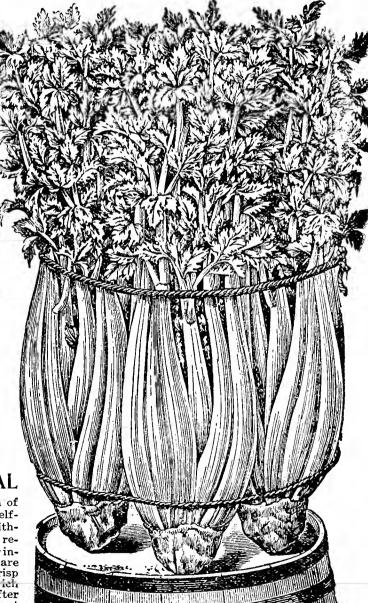

WHITE PLUME

This is a well-known variety and is popular wherever grown. It is the earliest and most easily blanched. The plants grow rapidly and on account of its easy culture every amateur gradener should grow this variety. Seeds

Sown in April, transplanted in July, will be ready for use in October without banking up. Give it a trial and you will be pleased with the result. Our seed of this grand Celery is a very choice selected strain and will produce fine stalks. Pkt. 5c., 3 pkts, 12c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50

Large Ribbed Red

One of the best varieties grown. It has all the good qualities of the Giant Pascal, while the ribs are much thicker and stiffer. It is exceedingly healthy and of most excellent quality, tender and well flavored and is a good variety to keep through the winter. It is very popular on account of its handsome appearance, in connection with its fine keeping quality, and our customers will certainly be pleased with it. Pkt. 5c., 3 pkts. 12c., oz. 15c., 3 ozs, 25c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

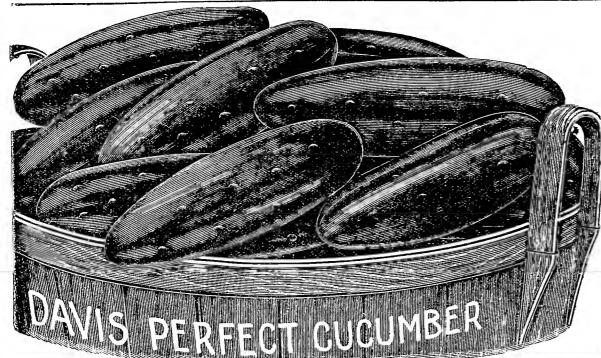

Giant Pascal

CUCUMBERS=MILLS EARLIEST EVERBEARING=Just the one to plant for early use for slicing or pickles. See

page 6 for description and prices.

IMPROVED LONG GREEN= This is The Old Reliable variety and one of the most popular in Cultivation. See page 6 for description and prices.

JAPANESE CLIMBING = This is a very attractive variety from Japan. climb on Trellises. See page 6 for description and prices.

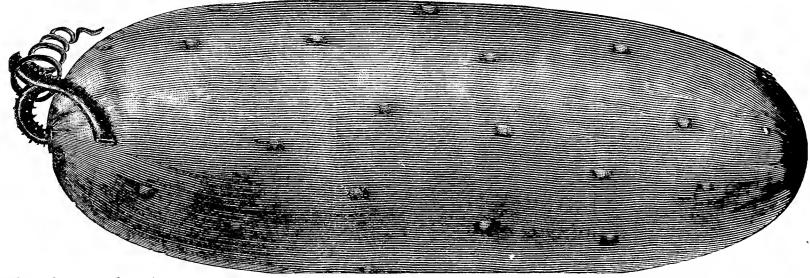

DAVIS' PERFECT CUCUMBER

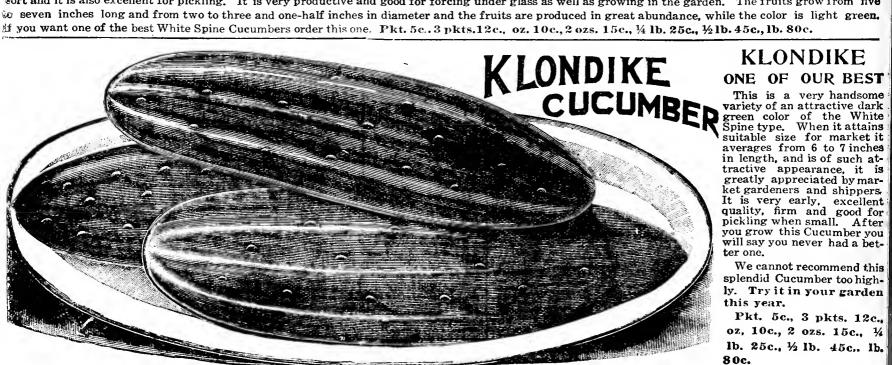

This is the great Cucumber that has been so largely advertised. It is claimed you can raise these Cucumbers in open ground and they will sell in any market at the same price as the high priced hot house forcing cucumbers. It is predicted that it is bound to become the most popular cucumber ever offered, both for foreing under glass and for growing outside. On account of its being of splendid shape, handsome color, splendid eating qualities and being almost seedless one-third of its length from the stem end, and the seeds very small, together with its enormous productiveness, it takes the lead of any thing we have ever known. It does not change its dark rich color when grown out doors but resembles a hot-house cucumber so closely dealers cannot tell the difference.

Mr. Davis has originated several very valuable varieties of vegetables, and we are fully satisfied that this new cucumber, which he calls his "Perfect," is bound to become very popular wherever grown. A few of these Cucumbers growing in any garden will surely give great satisfaction. 5c., 3 Pkts. 12c., oz. 10c., 2 ozs. 18c., 1/4 lb. 25c., ½ lb. 45c., lb. 80c.

EARLIEST SPINE **CUCUMBER** MILLS WHITE

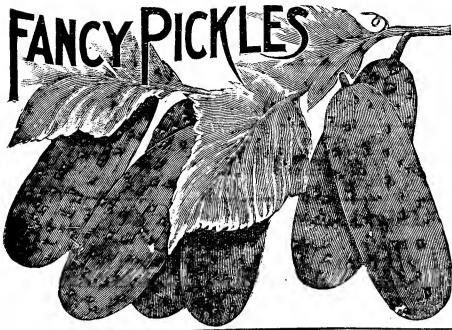

This Cucumber cannot be praised too highly. It is the best and most widely grown of any White Spine Cucumber. It is unequalled as a table and market sort and it is also excellent for pickling. It is very productive and good for forcing under glass as well as growing in the garden. The fruits grow from five seven inches long and from two to three and one-half inches in diameter and the fruits are produced in great abundance, while the color is light green. If you want one of the best White Spine Cucumbers order this one. Pkt. 5c.. 3 pkts. 12c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

in length, and is of such attractive appearance, it is greatly appreciated by market gardeners and shippers. It is very early, excellent quality, firm and good for pickling when small. After you grow this Cucumber you will say you never had a bet. will say you never had a better one.

We cannot recommend this splendid Cucumber too highly. Try it in your garden this year.

Pkt. 5c., 3 pkts. 12c., oz, 10c., 2 ozs. 15c., 1/4 lb. 25c., 1/2 lb. 45c., lb.

FANCY PICKLES

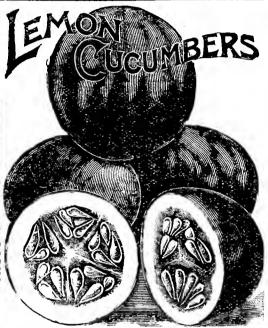

The most perfect strain of pickles ever produced in America. They are perfectly symmetrical in shape and no thick ends. and no small or pointed ends. A marvel of beauty during the bearing months. They are very quick growing and a fine sort for slicing. Pkt. 10c., 3 pkts. 20c., oz. 15c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00.

THORBURN'S NEW EVERBEARING — A splendid early variety; fruits continuously until killed by frost. They are perfect in form and are of a fine green color. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., 4 lb. 25c., ½ lb. 40c., lb. 75c.

ITALIAN CUCUMBER

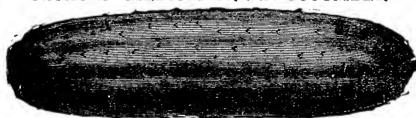

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 ozs. 25c.

THE LEMON CUCUMBER is nearly

NICHOLS' MEDIUM GREEN CUCUMBER

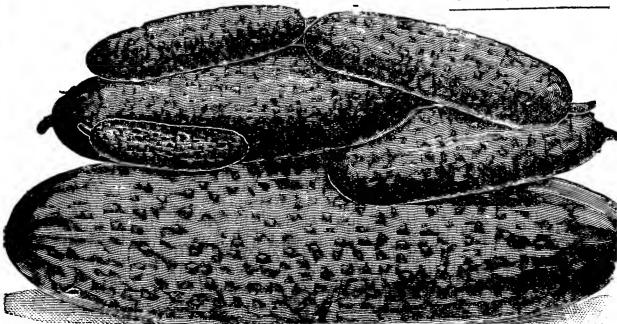

NICHOLS' MEDIUM GREEN CUCUMBER-Unequalled as a first-class pickling sort, and greatly praised as an early market variety. The skin light green in color, very smooth, and of fine quality. Pkt. 5c., pkts, 9c., oz. 10c., 2 ozs. 18c., 4 lb. 25c., ½ lb. 40c., lb, 70c.

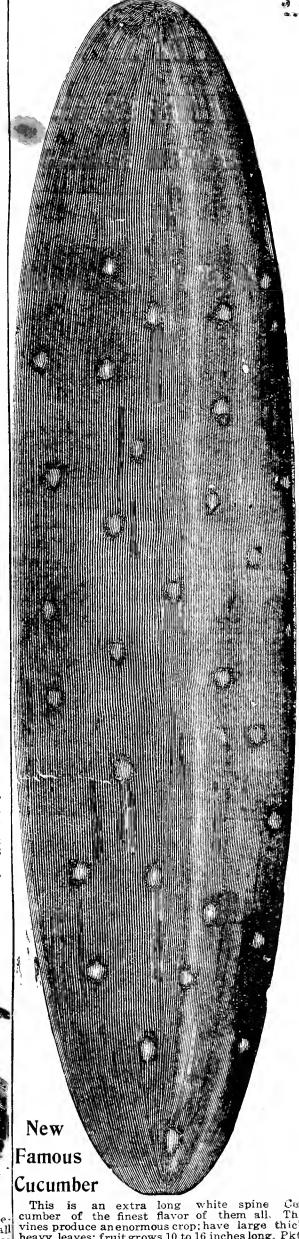

CUMBERLAND PICKLING CUCUMBER

round, the skin is smooth with yellow and green markings, the fruit grows from 2½ to 3 inches fruit grows from 2½ to 3 inches in diameter, flesh is tender and has a flavor surpassing all other cucumbers. It is excellent for pickling, either green or ripe. For table use they should be used just as the fruits are turning yellow. Pkt. 5c., 3 pkts, 12c., 6 pkts, 20c.

GREEN PROLIFIC or BOSTON PICKLING An excellent variety for pickling, and is immensely productive. It bears an abundance of fruit of delicious flavor. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c 1/4 lb. 25c., 1/2 lb. 40c., lb, 70c.

CUMBERLAND PICKLING CUCUMBER—The vines are of strong growth and they fruit very free-by. The young cucumbers are thickly set with small spines and are very attractive for either large or small pickles. The fruits average, when fully grown, from nine to ten inches in length and from two to three inches in diameter—It is a good variety for slicing as well as pickling. Pkt. 5c., 3 pkts, 12c., 6 pkts. 20c., 0z. 10c., 2 ozs. 15c., ½ lb. 25c., ½ lb. 45c., lb. 80c.

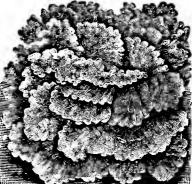

This is an extra long white spine Country of the finest flavor of them all. The vines produce an enormous crop; have large thick heavy leaves; fruit grows 10 to 16 inches long. Pkt 5c., 3 pkts. 10c.. oz. 15c., 2 ozs. 25c., ½ lb. 35c., ½ lb. 50c., lb. 90c.

It is a wonder. Pkt. 5c., 3 pkts. 12c.

Mills Earliest Lettuce=Earliest in the world. A lettuce for forcing or for general crop, can be sists heat, wet and drought to a remarkable degree. Is slow to run to seed.

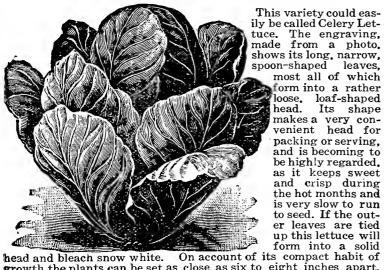

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 15c., 1/4 lb. 25c., 1/2 lb. 40c., lb. 65c.

Early Prize Head Lettice=A good variety that always gives satisfaction, being one of the best head lettuces. Heads form quite early, and every leaf is fit for rather late in the season it retains its good flavor and does not turn bitter. Early Prize Head is used by more people than any other lettuce grown. Pkt. 5c., 3 pkts. 10c., oz. 8c., 2 ozs. 15c., ½ lb. 25c., ½ lb. 40c., lb. 70c.

Mills Earliest Lettuce

The Cos Lettuce

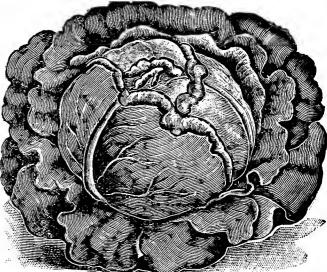

This variety could easily be called Celery Lettuce. The engraving, made from a photo. shows its long, narrow, spoon-shaped leaves, most all of which

most all of which form into a rather loose, loaf-shaped head. Its shape makes a very convenient head for packing or serving, and is becoming to be highly regarded. be highly regarded. as it keeps sweet and crisp during the hot months and

growth the plants can be set as close as six to eight inches apart. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

Big Boston Lettuce

This is, without doubt, one of the best large Cabbage lettuce on the market; very valuable to the Southern gardener for shipping North, as it is the first early sort grown it is the first early sort grown and is becoming more popular each season in all parts of the country. It gives satisfaction in whatever way it may be grown, whether for forcing in the greenhouse in the winter months, in frames for early spring use or in the for early spring use or in the for early spring use or in the open ground for summer and fall use. Its large, compact, tender and crisp head makes it attractive for table use, the leaves being light green, and it always finds a ready. and it always finds a ready market. Our seed of this popular lettuce is carefully grown under favorable con-ditions and is the best to be

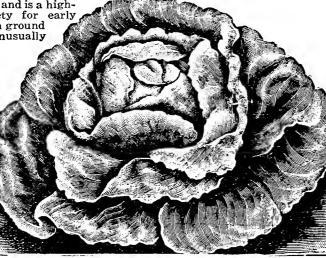

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz, 10c., 2 ozs. 18c., 1/4 lb. 30c., 1/2 lb. 50c

May King Lettuce

This is a new Lettuce and is a highly recommended variety for early spring planting in open ground being hardy and an unusually quick growing sort, Plants measure 6 to 7 ins. in diameter, the outer leaves folded closely, forming quite a solid head. The outer leaves are light green leaves are light green slightly tinged with brown; inner leaves a bright yellow imparting a rich buttery flavor. Many heads will tip the scales at will tip the scal one pound each.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., 14 lb.30c., 1/2 lb. 50c. lb. 80c.

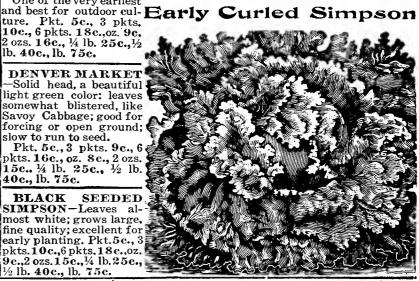

One of the very earliest

DENVER MARKET —Solid head, a beautiful light green color: leaves somewhat blistered, like Savoy Cabbage; good for forcing or open ground; slow to run to seed.

Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

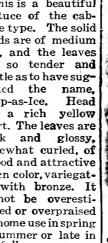

BLACK SEEDED, SIMPSON-Leaves al-most white; grows large, fine quality; excellent for nne quality; excellent for early planting. Pkt.5c., 3 pkts.10c.,6 pkts.18c.,oz. 9c.,2 ozs.15c., 4 lb.25c., 2 lb. 40c., lb. 75c.

Crisp=As=Ice Lettuce

This is a beautiful Lettuce of the cab-bage type. The solid heads are of medium size, and the leaves are so tender and brittle as to have suggested the name, Crisp-as-Ice. Head has a rich yellow heart. The leaves are thick and glossy, somewhat curled, of a good and attractive green color, variegated with bronze. It cannot be overestimated or overpraised for home use in spring or summer or late in the fall.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ½ lb. 30c., ½ lb. 50c., lb. 80c.

Improved Hanson

This is a perfect Lettuce for the table. Heads green outside and white within sweet, crisp and tender, even to the outer leaves. This is becoming a very popular lettuce.

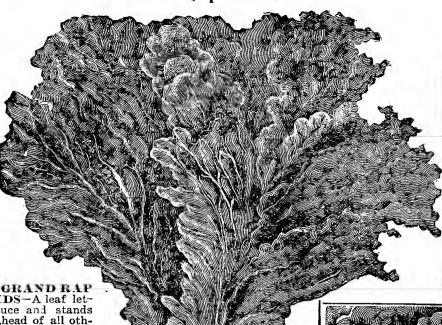

Pkt. 5e., 3 pkts. 10e., 6 pkts. 18e., oz. 9c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 75c.

Crisp-as-Ice Lettuce

ALL SEASONS LETTUCE COLLECTION == This is a wonderful collection, and nothing has ever been offered that can equal it. One sowing produces supply for the season. This collection contains all the best varieties, maturing early, medium and late; some curled and crinkled, others produce heads. Colors range from pure white through delicate shades of Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c., oz. 8c., 2 ozs. 14c., 1-4 lb. 25c., 1-2 lb. 40c., lb. 60c.

Grand Rapids Lettuce

GOLDEN BALL-The heads golden color. Early and slow to run to seed. Pkt. 5c., 3 pkts. 9c., 6 pkts, 16c., oz. 8c., 2 ozs. 1 c., 4 lb. 25c., ½ lb. 40c. lb. 70c.

Golden Ball Lettuce

SILVER BALL—One of the very bestall the year round varieties. Excellent quality and good for early spring, summer, or winter forcing. Pkt. 5c., 3 pkts. 9c., oz. 8c., 2 ozs. 15c., 4 lb. 25c., ½ lb. 40c., lb. 70c.

TOMHANNOCK - Grows leaves grow upright and are handsomely wrinkled.

Pkt. 5c., 3 pkts. 9c., oz. 8c., 2 ozs. 150 14 lb. 25c, 1/2 lb. 40c., lb. 70c.

GRAND KAF IDS—A leaf let-tuce and stands ahead of all oth-ers for winter forcing in the greenhouse. The best in its class for market gar-dependence as it will

deners, as it will keep longer from wilting than any other variety. Its habit admits of very close planting in greenhouses or open ground. We believe it is the best lettuce for outdoor planting. Pkt. 5c., 3 pkts. 10c., cz. 9c., 2 czs. 16c., 4 lb. 30c. 4 lb. 50c., lb. 75c.

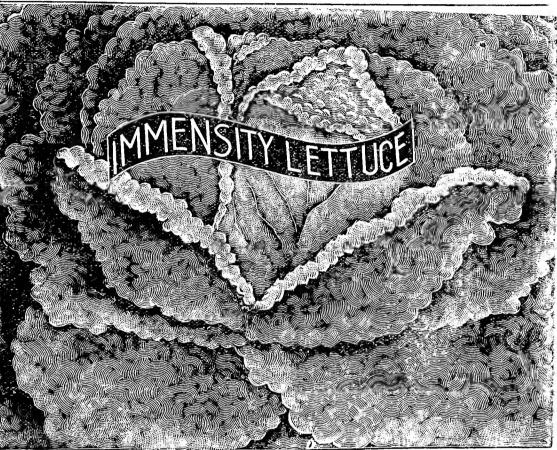

NEW ICE BERG-A very quick growing variety of excellent flavor.

Leaves are curly, of a brigh t green color. \ most de cious let-uce for alad. Pkt ic., 3 pkts 10c.,6pkts 16c.,oz.9c. 2 ozs. 15c., 4 lb. 25c., 1/2 lb. 40c. ID. 70c.

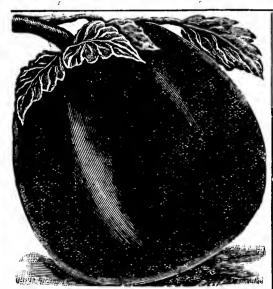

It is claimed that this is the king of all main crop head lettuce. Forms immense heads as solid as a cabbage. Quality excellent, heads being creamy white inside and free from any bitterness. Very slow to run to seed, and a sure header under all conditions, resisting dry, hot weather. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 15c., ½ lb. 25c., ½ lb. 40c., lb. 70c.

Immensity Lettuce=Largest Head Lettuce in the world, often 4 to 5 feet is circumference, with an enormous solid head. Finest quality, tender, sweet and crisp. One of the slowest to run to seed and has good heat resisting qualities making it a good variety for early sowing. Not early, but a reliable sort for a late crop when other kinds are hard to get. A curiosity as well as a valuable sort.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 15c., ¼ lb, 25c., ½ lb. 40c., lb. 70c.

PLANTS

Black Beauty

This is one of the earliest and best of all large fruited Egg Plants. It grows large, and the skin is a rich purple black. Is a real beauty.
Pkt. 5c., 3 pkts. 12c., ½ oz. 20c.oz. 35c.

New Tree

The bush grows tall and stocky, branching freely, holding its fruit up well from the ground.

The fruit is a beautiful dark purple, fine size, extra early, bears for a long season and keeps well. The quality is the best, and it is the best shipper of all Egg plants grown. We secured our seed direct from headquarters and paid a fancy price to get selected seed stock to offer. Everyone interested in Egg Plants will surely want to grow this

splendid novelty.
Pkt. 5c., 3 pkts. 12c., ½ oz. 20c., oz. 35c.

Tomato Egg Plant

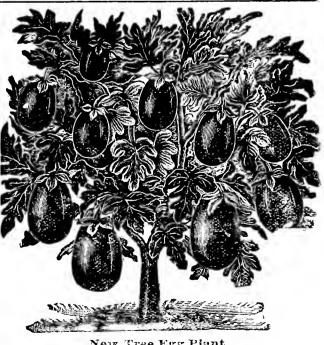

A great curiosity. Vine has every appearance of an Egg Plant, but bears a bright red, solid tomato. It yields as high as 50 to 60 beautiful tomatoes to a single plant. Do not fail to try this magnificent wonder. Pkt. 5c., 3 pkts. 12c.

New York Improved Large Purple

Skin deep purple. Free from thorns. Flesh white quite productive. Considered one of the best. Pkt, 5c., 3 pkts. 10c., ½ oz. 15c., oz. 25c.

Black Pekin

Almost round and of large size. Skin iet black, glossy and smooth. Flesh white, solid and fine grained. Medium early. Pkt, 5c., 3 pkts. 10c., ½ oz. 15c., oz. 25c.

New Tree Egg Plant

HENDERSON'S BUSH. A Novelty. See Page 7. SPICY CANTELOUPE. A Splendid New Sort. See Page 8. NEW WHITE Outle 2 Novelty. See Page 8.

NEW WHITE. Quite a Novelty. See Page 8.

MILLS FAMOUS-Grand Sort of the Orange Flesh Varieties. Once Grown, Always Grown. See Page 8 for Description and Prices.

EARLIEST MUSK MELON MILLS

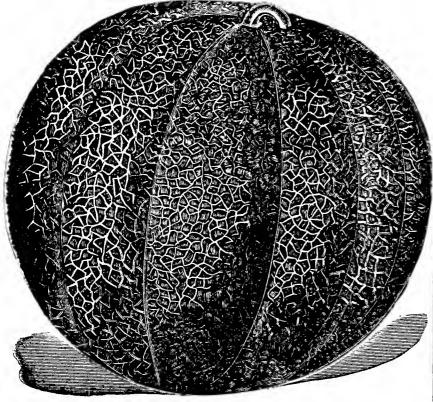

This is the earliest Musk Melon and is sure to create a sensation wherever it is grown. It the shead of the famous Jenny Lind, and, in fact, ahead of all the other early Musk Melons. The shead of uniform size, of fine shape and appearance, delicious quality and sell in any market. They are nearly round, as may be seen by the illustration, of good size, finely netted. Inside is a rich orange color, and we venture to say the flesh is thicker than that of any other variety. The seed cavity is very small. We can recommend this variety for home or market use, and we have fully demonstrated by our trials that it deserves the name, "Mills Earliest." We know that this, the earliest, sweetest, and most delicious musk melon, will please everyone growing it, whether they plant one or two hills or five or ten aeres.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 15c., ½ lb. 25c., ½ lb. 40c., lb. 75c.

JENNY LIND TRUE

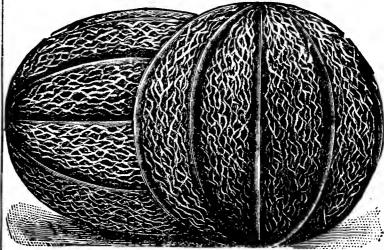

This is a splendid early variety, and one of the best Musk Melons ever wn. Being very early, it is valuable to grow in the North. The vines are dy and bear abundantly. The melons are handsome and of fine flavor. Pkt.5c., 3 pkts. 12c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb.75c

THE HOODOO

OHIO YELLOW GLOBE

Our Onion Seed Trade has increased during the past few ears from a few hundred pounds to over THIRTY THOU-SAND POUNDS annually, which is the best evidence that it gives our customers the best satisfaction.

If you want a large quantity of Onion Seed, see our wholesale price list in back of this catalogue.

Mills Selected Large Red Wethersfield Onion

Best Large Red Onion,

There are many strains of this celebrated Online offered, but we are sure that none can surpass one famous stock of this popular variety. Some strains will not mature until late in October, and this is fusc what onion growers should avoid. We have for years taken particular pains in selecting from bulbs that will produce very large crops of these onions, maturo ing early in the fall, and 2 lb. specimens the first year? from seed are of frequent occurrence. Yields of 800 to 800 bushels of our Wethersfield per acre is not and common. It is a magnificent keeper, the skin being a deep purplish red, flesh pure white, and moderate ly fine grain. They are excellent for shipping and we claim there is no strain that can surpass our to mous stock of this popular variety. Thousands 🕺 our customers have endorsed this as the best thou have ever rown. We consider it in every way a perfect red Onion for home or market purposes. Ow stock of seed is good this year and we expect 🖝 have enough to go around at the following prices Pkt. 5c, 3 pkts. 10c, oz. 12c, 2 ozs. 20c, 1/4 lb, 30e, 1/2 lb. 55c, lb. \$1.00, postpaid.

For express or freight prices or large quantities of seed, see wholesale price list 🕦 back of this catalogue.

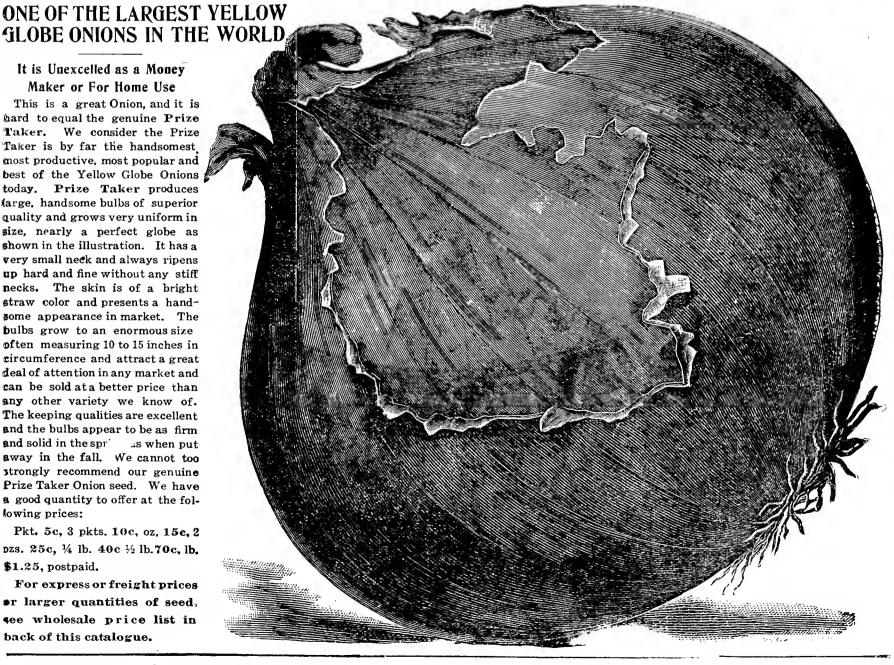

The Great Prize Taker Onion

It is Unexcelled as a Money Maker or For Home Use

This is a great Onion, and it is hard to equal the genuine Prize Taker. We consider the Prize Taker is by far the handsomest. most productive, most popular and best of the Yellow Globe Onions today. Prize Taker produces large, handsome bulbs of superior quality and grows very uniform in size, nearly a perfect globe as shown in the illustration. It has a very small neck and always ripens up hard and fine without any stiff necks. The skin is of a bright straw color and presents a handsome appearance in market. The bulbs grow to an enormous size often measuring 10 to 15 inches in circumference and attract a great deal of attention in any market and can be sold at a better price than any other variety we know of. The keeping qualities are excellent and the bulbs appear to be as firm and solid in the spr __ _s when put away in the fall. We cannot too strongly recommend our genuine Prize Taker Onion seed. We have a good quantity to offer at the following prices:

Pkt. 5c, 3 pkts. 10c, oz, 15c, 2 ozs. 25c, ¼ lb. 40c ½ lb.70c, lb. **\$1.25**, postpaid.

For express or freight prices or larger quantities of seed, see wholesale price list in back of this catalogue.

Genuine Bermuda **Onions**

RED BERMUDA—This is an early fall red Onion and we can recommend it as being large and very solid. It keeps much better than any other foreign variety. Pkt. 5c, 3 pkts, 12c, ½ oz. 15c, oz. 25c.

WHITE BERMUDA—These are immense white Onions. They are excellent for slicing, being of a very mild and sweet flavor and desirable for the home garden. Pkt. 5c, 3 pkts. 12c, ½ oz. 15c. oz. 25c.

ORYSTAL WHITE WAX-This is the best White Bermuda Onion that anyone can wish for because the color, shape and appearance is at once an attraction for the buyer. It readily sells at first sight. Flavor finest in existence. Sow seed in rich soil and the handsome, large white Onions will astonish you. Pkt. 5c, 3 pkts, 12c. ½ oz. 15c, oz. 25c.

10 Extra Early Red

Australian Brown Onion

EXTRA EARLY RED-This is one of the standard American Onions; succeeds in cold mucky ground where other sorts fail; matures before Red Wethersfield and if grown in rich soil will produce bulbs almost as large. Can be made to produce fine Onions 90 days from sowing; mild flavor and keeps well; color deep rich red; grain fine and close; Onion solid and heavy; well adapted for early market; particularly adapted for Northern latitudes, or where seasons and cold. Pkt. 5c, 3 pkts. 10c, 6 pkts. 18c, oz. 15c, 2 ozs. 25c, ½ lb 40c. ½ lb. 70c, lb. \$1.25, White Portugal or Silver Skin

AUSTRALIAN BROWN-A variety which matures early, about three weeks ahead of the Wethersfield, and is largely grown for a market onion. The bulbs are of medium size, run very uniform, wonderfully hard and solid, and have an attractive amber-brown color. The bulbs are very even in size, with a small hard neck, and its keeping qualities are excellent, keeping for a year or more. Pkt. 5c, 3 pkts. 10c, 6 pkts. 18c, oz. 10c, 2 ozs. 16c, 1/4 lb, 30c, 1/2 lb, 55c, lb. \$1.00, postpaid.

WHITE PORTUGAL OR SIL-VER SKIN-A great favorite with market gardeners and truckers. Flavor mild and pleasant, skin silvery white

of handsome appearance. Pkt. 5c, 3 pkts. 10c, oz. 20c, 2 ozs. 30c, ¼ lb. 50c, ½ lb. 80c. lb. \$1.40. postpaid.

YELLOW DUTCH OR STRASBURG-Good size, quite flat, skin yellow, flesh white, excellent for growing sets. Pkt. 5c, 3 pkts, 10c, oz. 10c, 2 ozs. 16c, $\frac{1}{4}$ lb. 30c, $\frac{1}{2}$ lb. 55c, lb. \$1.00, post

MAMMOTH RED POMPEII—Fine quality and has produced Onions weighing from 2½ to 3 lbs, the first year from seed. Skin is thick and reddish brown in color; flesh white, fine grain, mild flavor. Pkt. 5c, 3 pkts. 12c, oz. 10c, 2 ozs. 18c, ¼ lb. 35c, 1/2 lb. 65c, lb. \$1.25.

THE MAMMOTH SILVER KING grows very large, bulbs are of attractive shape, flattened but thick through as shown by the engraving, average diameter 5 to 7 inches, bulbs often weighing 3 to 4 pounds each. Skin is a beautiful silver white; flesh is particularly mild and pleasant in flavor. It can be grown in nearly all sections of the United States the first year from seed. Anyone desiring a handsome large pure white Onion of the finest mild flavor will be more than satisfied with the Mammoth Silver King. It cannot be too highly recommended, either for family use or for sale in market for its size and beauty will prove very striking.

¹⁴ RADISHES=MILLS EARLIEST=Earliest of them All. See Page 12 for description and prices.

FRENCH BREAKFAST==Beautiful Rose Scarlet Variety. See Page 12 for Description and Prices.

MILLS LONG SCARLET SHORT TOP==The Best Long Red Variety We Have Ever Grown. See Page 12.

15 DAY RADISH==Planted in Over One Million Gardens. It's a Wonder. See Back Cover.

ALL SEASONS RADISH MIXTURE==Greatest Collection of Radishes Ever Offered to Produce a Continual supply. See Page 12 for Description and Prices.

New Oak Leaved Radish

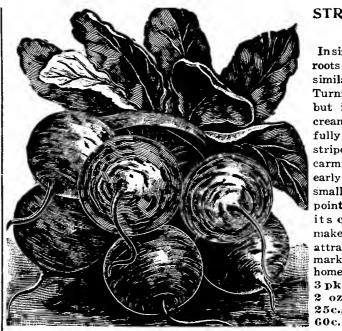

We offered this new radish for the first time 2 years 8 go, It is a turnip-shaped medium size sort, with an extremely handsome rose-salmon color that puts it in a class by itself as far as color is concerned. It is a quick growing kind and cannot be too highly recommended for general cultivation. The flesh is pure white, of good mild flavor and very crisp.

Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 20c.

EARLY ROUND DARK RED—This is a deep dark red in color, very early and one of the best strains of the extra early Scarlet Turnip Radishes in cultivation. It is one of the sweetest and tenderest Radishes in our list. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs., 16c., 1/4 lb. 25c., 1/2 lb. 35c., lb. 60c.

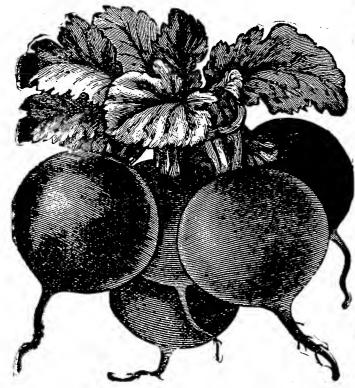

BRIGHT SCARLET NEW LONG CAR-DINAL—Fit for use in about 25 days from sowing, a bright red in color with a white tip; is crisp, tender and very profitable for market gardening. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ 1b. 25c., ½ 1b. 35c., 1b. 60c.

STRIPED TRIUMPH

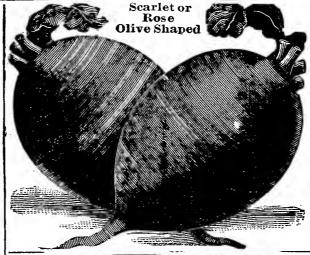

In size and shape the roots of this radish are similar to the Scarlet Turnip White Tipped but in color are a creamy white, beautifully marked with stripes and dashes of carmine. It is 'an early radish with very small tops and the point in its favor is its coloring that makes it unusually attractive, both for market purposes or home use. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c., 1/4 lb. 25c., ½ lb, 40c., lb.

Early Scarlet Globe

EARLY SCARLET GLOBE—A splendid forcing Radfish and is considered one of the earliest Scarlet Globe Radishes in cultivation. It is a beautiful oval in shape, rich scarlet color; flesh is very tender, crisp and mild, and while it is a leading variety for forcing it is equally as good for outdoor culture.

Pk4. 5c, 3 kts. 8c, oz. 9c, 2 ozs. 16c, ¼ lb, 25c, ½ lb. 35c,

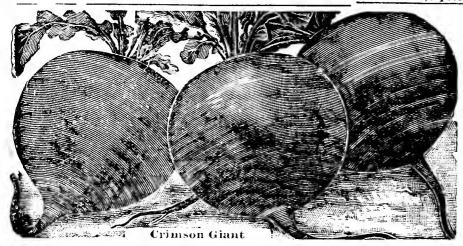

SCARLET OR ROSE OLIVE SHAPED—This is a very quick growing radish of attractive carmine color, some roots rose shade with an olive shape, making an attractive appearance. It is of mild flavor the flesh very crisp. They grow very uniform in size, illustration, drawn from nature, gives its true shape. It is an attractive radish when bunched for sale. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

NEW LEAFLESS—This is quite a novelty and certainly is an excellent early Radish. It was named Leafless from the fact that its shyness in developing the foliage is more noticeable than any other variety. The color of this new Radish is a very bright scarlet. The flesh is white, crisp and tender, and of the best flavor. The illustration gives the shape of the Radishes On account of producing but few leaves, the strength of growth is all thrown into the roots surpassing other varieties in this respect.

Pkt. 5c., 3 pkts. 12c., oz. 10c.; 2 ozs. 16c., ½ lb. 30c., ½ lb. 50c.

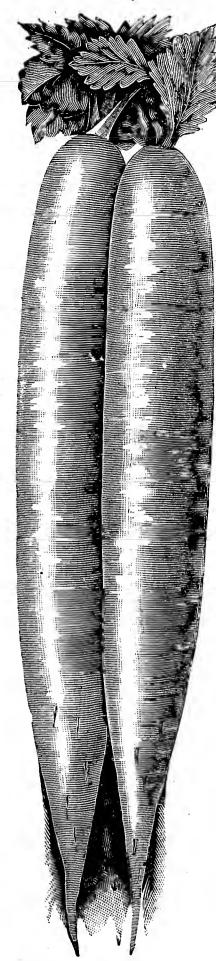

CRIMSON GIANT—This is a new early turnip-shaped Radish, but double the size of other varieties of that type, often measuring 6 to 7 inches in circumference. Notwithstanding its large size it has an excellent flavor mild and crisp and has not the hollow or pithy center, while it is equally suitable for forcing or planting in the open ground as varieties developing to only half its size. It is a rapid growing sort with handsome, crimson colored roots and the flesh pure white Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 15c., 14 lb. 25c., 14 lb. 35c., lb. 60c.

NEW WHITE LADY
FINGER—This is one of
the finest long white Radishes in cultivation; is of
very rapid growth and
remarkably tender, crisp
and brittle. It is a great
favorite with many and
is sure to please all who
grow it. Pkt. 5c., 3
pkts. 8c., oz. 9c., 2 ozs16c., ¼ lb. 25c., ½ lb.
35c., lb. 60c.

hite Lady Finger

Icicle Radish

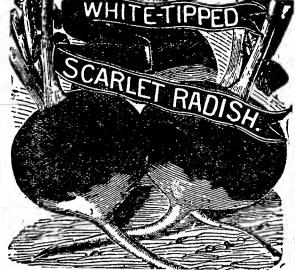

ICICLE-This is a long. extra early variety with color of snowwhite. It is crisp and brittle and of an excellent mild flavor, many claiming that it has a better flavor than the scarlet varieties. It has the same mild flavor at all stages of its growth and is the most poprlar of any of the white sorts. It is a short-top variety, having few leaves; and the roots are very uniform in size. Pkt. 5c., 3 pkts. 12c., oz. 10c.,2 ozs. 18c., 4 lb. 30c., 1/2 lb. 50c., lb. 85c.

Rose China Winter

(Scarlet China)

A bright rose colored winter variety of excellent quality. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ½ lb. 20c., ½ lb. 35c., lb. 65c.

EARLY SCARLET TURNIP, WHITE TIPPED—This Radish is sure to please all who grow it. It presents a beautiful appearance in the market and is very popular. It is valuable for forcing under glass. The skin is very smooth, flavor excellent, tender, crisp and mild.

Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ½ lb. 20c., ½ lb. 30c., lb. 50c.

LONG BLACK SPANISH WINTER RADISH

These are so intensely purple that they appear almosta black. Sow them in July and August and use them in the fall and winter. Very delicious. They stored in the cellarand will keep as well as turnips. Pkt. 5c.,3 pkts. 12c.6pkts. 15c. oz.9c. 1b. 70c.

2 ozs.16c., ½ lb. 25c., Long Black ½ lb. 40c., Spanish Winter Radish

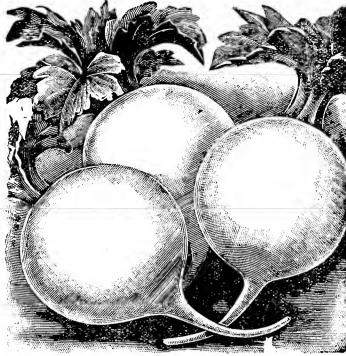

CALIFORNIA MAMMOTH WHITE WINCalifornia Mammoth White
Winter Radish
es in diameter and about 18 inches in length, weigh
ing 8 pounds

CALIFORNIA MAMMOTH WHITE
WINTER—Grows to a larger size
than any other White Winter
Radish. We have grown
specimens measuring 7 inches in diameter and about 18 inches in length, weigh
ing 8 pounds

It is the only American radish

es in diameter and about 18 inches in length, weigh ing 8 pounds. It is the only American radish growing to this immense size, and still retaining a mild pleasant flavor. It is solid all through. We have known of our customers taking such specimens from the ground late in the fall and storing in the cellar as you would turnips, and having a supply of radishes until late in the winter. It is an excellent table variety, giving entire satisfaction on account of having a mild and pleasant flavor at all stages of its growth. Whether 2 or 8 inches in diameter its flavor and fineness of grain are the same. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ½ lb. 25c., ½ lb. 35c., lb. 70c. ing 8 pounds.

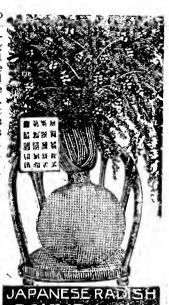

Early White Turnip Radish 45

EARLY WHITE TURNIP RADISH-Is a grand summer variety turnip rooted, with small top and of quick growth, crisp and tender: skin pure white, very mild and pleasant flavor. Pkt. 5c, 3 pkts. 8c, oz. 9c, 2 ozs. 16c, ¼ lb. 20c, ½ lb. 30c, lb. 50c.

Japanese Radish=SAKURAJIMA

This Giant Radish grows to tration was made from a photo-graph of a specimen measuring 43 inches in circumference and 21 inches in length. The skin is pure white, flesh firm and solid, mild as an apple, and superior to the most delicate spring radishes. Thrives in any soil or location. It is as good to eat when in bloom as in younger days, and the taste is more delicate than our American radishes. It is always crisp and tender and at the same time is one tender and at the same time is one of the greatest curiosities ever grown in the garden. Think of it; this enormous radish, on account of its mild and excellent flavor, can be sliced and eaten like an apple. If you intend to grow any new varieties of vegetables this year in your garden, do not fail to plant this radish. You will realize that it is an enormous variety when you see the size of the iety when you see the size of the seed. We are sure this radish will be a perfect wonder to all your neighbors. Pkt. 5c., 3 pkts. 12c.

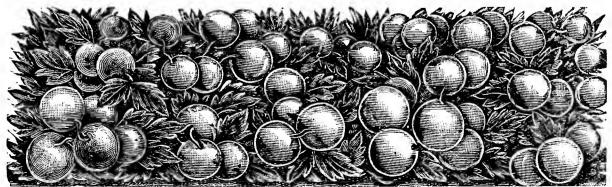

Brussels Sprouts

PERFECTION—Grows a stem 2 feet high and on this produces sprouts 2 inches in diameter, resembling miniature cabbage. Very tender and of good flavor. This is the best variety known, and is very popular.

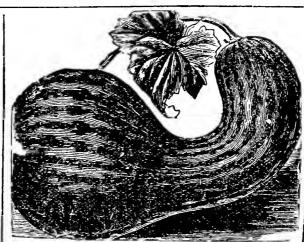

Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c. 1/2 lb. 40c., 1/2 lb. 70c., lb \$1.35.

Be sure to read pages 97 and 98 and our offer for the choice Truck and Fruit Farm Lands.

VEGETABLE ORANCE

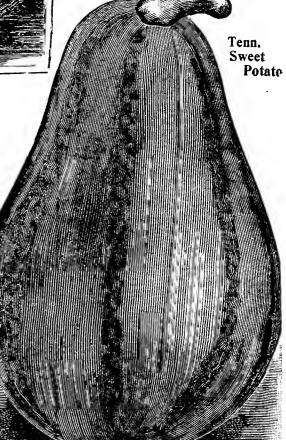

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than a Musk MelonVine, but they require about the same cultivation, It is a wonderful yielder, producing fruit about the size of an Orange of a bright yellow color, somewhat rasseted. In the west where fruit is scarce, this Orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid and can be used in many ways. Pkt. 5c., 3 pkts.12c., oz, 20c., 2 ozs, 35c. See Page 11 for description and prices.

JAPANESE PIE

This is a Japanese variety, valuable for cooking. Flesh is very thick, of rich salmon color; fine grain dry and sweet. It is of medium size, seed cavity small, very productive and a good keeper.

Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½lb. 60c., lb.

WINTER LUXURY-Golden russet in color and one of the best for pies. A great keeper; fine grain; rich and sweet.

Pkt. 5c., 3 pkts. 9c., oz, 10c., 2 ozs. 16c., ¼ lb. 20c., ½ lb. 35c., lb. 65c.

Common Field

This is the ordinary Pumpkin used to plant in corn fields for feeding stock. It is very productive, Pkt. 5c., oz. 9c., 2 ozs. 15c. 1/2 lb. 20., 1/2 lb. 30c., lb. 50c. postpaid

By express, not prepaid, 5 lbs \$1.25 10 lbs. \$2.25.

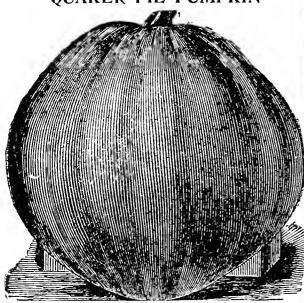

This is a medium size variety, pear-shaped slightly ribbed, color creamy white; some times slightly striped with green. Flesh is light colored, fine grain, and when cooked resembles a sweet potato in appearance and taste.

Pkt. 5e., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 20c., ½ lb. 35c., lb. 65c.

MILLS 100-WT. PUMPKIN-This is a giant Fumpkin, growing to a large size, somewhat resembling Mills Giant. The photo shows what one of our customers has done growing it, Pkt. 5c., 3 pkts.10c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c. lb. 90c,

OUAKER PIE PUMPKIN

QUAKER PIE-This is a handsome Pie Pumpkin creamy white on the inside and out; flesh is sweet and rich. Pkt. 5c., 3 pkts. 10c., oz. 9c 2 ozs. 16c $\frac{1}{4}$ lb. 30c., $\frac{1}{2}$ lb. 50c., lb. 75c.

Our Surprise Pumpkin Mixture

OUR SURPRISE PUMPKIN MIXTURE IS A WONDER—You can grow a great lot of Pumpkins, including earliest, medium and late varieties with all the odd shaped and mammoth sorts, if you plant seed of this Mixture. We have taken great pains in putting in many varieties that are new, but not listed in our book, making it the grandest collection of Pumpkins ever offered. This seed will produce Pumpkins of every imaginable shape and color and we know you will bepleased with it. See photograph. Price, pkt., 5c., 3 pkts. 12c., oz. 8c., 2 ozs. 15c., ¼ lb. 22c., ½ lb. 35c., lb. 60c.

True Hubbard

This is the well known variety planted by more people than any other sort and has become the American favorite. There is always a ready market in the large cities for this favorite sort. It outsells all other varieties. We nave taken particular care in selecting our strain and we believe Our Hubbard is the choicest type of Hubbard Squash grown. The flesh is a rich yellow, is very fine grained, solid, sweet and dry. This strain is nearly always true in color, being a dark green. We offer two other strains known as Red Hubbard and Mammoth Warted Hubbard, both of which are of excellent quality. We can highly recommend our True Hubbard seed to all, and have a choice supply to offer at the following prices.

prices.
Pkt. 5c, 3 pkts. 12c, oz. 10c, 2
ozs. 18c, 4 lb.30c, 2 lb. 55c, lb.
\$1.00.

Mammoth Warted Hubbard

A special strain of the Hubbard Squash, noted for its enormous size. It sells well in any market, no matter what competition. It is equal in every respect to the True Hubbard and we can highly recommend it to all those who are fond of extra large squashes. Pkt. 5c, 3 pkts. 12c, oz. 10c, 2 ozs. 18c, ½ lb. 30c, ½ lb. 55c, lb. \$1.00.

Golden Hubbard

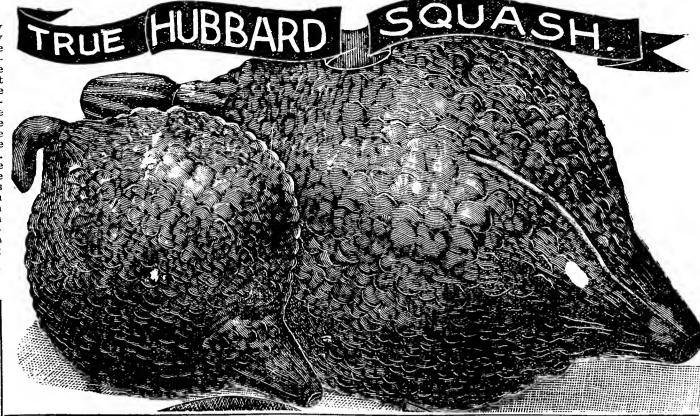

Another strain of the well known True Hubbard, which produces Squashes of a deep orange yellow color, exceedingly showy and attractive, while the quality is equal to the True Hubbard in every respect. Pkt. 5c, 3 pkts. 12c, oz. 10c, 2 ozs. 18c, 4 lb. 30c, ½ lb. 55c, lb. \$1.00.

Mammoth Whale

A new squash from France, often growing over three feet in length, of a dark slate color. Specimens weighing over 100 lbs. have been grown. Flesh is solid, a beautiful orange color, of excellent quality and a remarkable keeper, Very shy seeder.

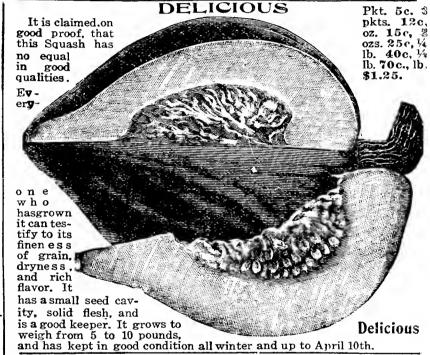

Pkt. 5c, 3 pkts. 12c.

MILLS GIANT SQUASH
The Jumbo of the Squash Family

THE FAXON—A long keeping variety and an excellent winter Squash. Fruits are oval in shape, being larger on the stem end. The outside color varies from dark green to orange; is very prolific in habit and the quality is dry and rich. The flesh is thick, rich and sweet, of a deep orange color and a very fine grain. It is a good keeper. Pkt. 5c, 3 pkts. 10c, oz. 9c, 2 ozs. 15c, ½ lb. 25c, ½ lb. 40c, lb. 65c.

COCOZELLE BUSH

An early Squash. If picked as soon as matured, it will continue to bear until killed by frost. It is exceedingly hardy, persistently living in dry soil without water. Its habit of growth is the same as the ordinary Summer Squash, requires the same kind of soil and tillage, and begins to

to bear early. It is used in the green state and is better than Egg Plant when nicely fri d in butter and well seasoned. Pkt. 5c,3 pkts. 10c, oz. 8c, 2 ozs. 15c, ¼ lb. 25c, ½ lb. 40c, lb. 70c.

Largest of all Squashes. It is a perfect wonder. This Giant Squash has become a greatcuriosity as well as very valuable wherever grown. The color is a bright yellow, skin very smooth, flesh quite thick, quality good, is very prolific and excellent to grow for exhibition at fairs, specimens often weighing over 250 pounds each. It is a good winter keeper and there is nothing that can come anywhere near equaling it in size, except Mills Giant Pumpkin. Pkt. 5c, 3 pkts. 12c, oz. 19c, 2 ozs. 18c, ¼ lb. 35c.

YELLOW BUSH
SQUASH
A standard early summer variety, much larger than any of the bush sorts.frequently growing two feet in diameter. The habit of growth is upright regular bush form; fruit matures early, very flat, nicely scalloped; color a dark rich golden yellow, flesh yellow and fine flavored. Pkt. 5c, 3 pkts. 9c, oz. 8c, ¼ lb. 25c, ½ lb. 40c, lb. 70c.

WHITE BUSH--Just tike Yellow Bush, but white. Same price.

ITALIAN

This Squash is similar to the Cocozelle, except that it only grows to half the size and never exceeds 3 inches in length. On account of its size and attractive appearance it sells well on the market.

Pkt. 5c, 3 pkts. 10c, oz. 12c, 2 ozs. 20c.

Golden Summer Crookneck Squash

This Summer Squash is still the most desirable early summer variety. The outer skin is very rough and of a light orange yellow. Pkt. 5c, 3 pkts. 10c, oz. 9c, ¼ lb. 25c, ½ lb. 40c, lb. 70c.

SQUASH MIXTURE—All the early and late sorts are included. Pkt. 5c. 3 pkts. 10c, oz. 8c, ¼ lb. 20c, ½ lb, 30c, lb. 50c.

SPARKS'EARLIANA = Another splendid early Tomato. See Page 14 for description and prices. DWARF TREE=Needs no support=Grows erect, producing quantities of fruit. See Page 14. DWARF PONDEROSA=Introduced last year. A handsome sort. See Page 13.

NEW RESPLENDENT==Produces Fruits of Various Colors. See Page 13.

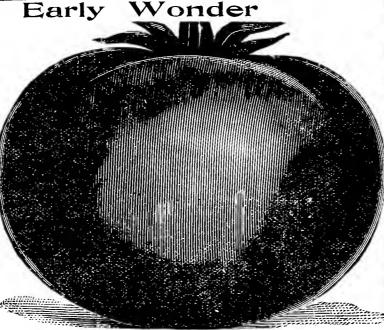

PRINCE BORGHESE=-An Unique Novelty. See Page 13.

SUMATRA FIG- Wonderful Fig Tomato. A very interesting variety. See Page 14. TOMATO GRAPE-Climbs like Grape Vines. Fruits in Enormous Clusters. See Page 14. GIANT CLIMBING==Most wonderful Tomato ever known. Climbs trellises 12 to 20 feet. Fruits very large and smooth, handsome red color, few seeds. Pkt. 6c., 3 pkts. 15c.

Mills

This is the great Tomato we inbroduced, and we have received nothing but praise for it from every section where it has been grown. It has made a wonderful record everywhere. It is very handsome in shape. smooth, thick from stem to blossom end, very solid and heavy. Free from cracks or ridges, and the meat is solid, with only a few seeds. A beautiful dark red in color, producing its fruit in large clusters. It is a perfect wonder for earliness, producing large, handsome red fruit ahead of any other variety we have grown, except Quick Crop (See front cover) The vines grow very strong and hardy, making it desirable for early planting.

Pkt. 5c., 3 pkts. 12c., ½ oz. **20c.**, oz. 35c., 2 ozs. 60c., ¼ lb. \$1.00, ½ lb. \$1.80, lb. \$3.50, postpaid.

Improved Extra Early Tree

Improved Extra Early Tree

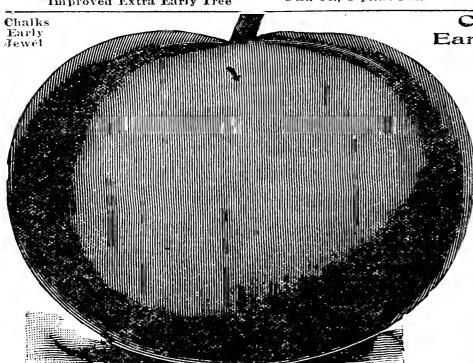

IMPROVED EXTRA EARLY TREE-A very early variety, grows erect, has a dark green foliage and the plant is quite ornamental. Has been largely advertised as an Early Tree Tomato, and preferred by many, Pkt. 5c., 3 pkts. 10c., ½ oz. 20c., oz. 35c.

The Peach Tomato

This most delicious and handsome tomato is one of the prettiest in cultivation. The fruits are of uniform size and resemble a peach in shape, size and color, which is a deep rose, beautifully blended and covered with a delicate bleom or furze like a peach. It is excellent for eating from the hand, the flesh being of a rich and most delicious flavor, while the skin is very thin and can be peeled off like that of a peach. The whole fruit is tender and free from core, even around the stem.

It is such a handsome tomato that no illustration will do it justice. We are sure a few plants growing in any garden will be a real surprise and delight. If you want to surprise your neighbors, have a few Peach Tomatoes growing in your garden this year.

Pkt. 5c., 3 pkts. 12c.

Chalk's Early Jewel

Matures about a week after Earliana.Fruits are larger and heavier, and it is claimed to be the most valuable early all-purpose early tomato. Bears fruit

abundantly.

Pkt. 5c.3 pkts.
10c., ½ oz. 15c.,
oz.25c.¼ lb.80c.

JUNE PINK

Deep pink or pur-le. Young plants develop large cluster of blossoms very soon after being planted in the garden.Fruit mea-sures 3 to 5 in. in diameter, and is borne in clusters. Mild.sweet flavor.

Pkt.5c.,3 pkts. 10c.,½ oz. 15c., oz. 25c.¼ lb.45c. 85c., lb.

Mills Early July Tomato

This is a splendid early variety we have made quite a specialty of for several years. Its great value lies not only in the time of ripening its first fruits, but that such a quantity of fruit can be gathered from a that such a quantity of fruit can be gathered from a single plant while many other early varieties ripen only a few fruits. They are perfectly smooth, large size and very handsome, the color being a bright red. They grow in large clusters, which ripen from July until killed by frost, and command the highest market price. This variety deserves a place in every garden, and we can highly recommend it. Pkt. 5c., 3 pkts, 12c., ½ oz. 16c., oz. 30c., 2 ozs. 50c., ¼ lb. 85c., ½ lb. \$1.60, lb. \$3.00.

Golden Queen

A first-class, large, smooth, pure yellow Tomato. the best of the yellow class.

Pkt. 5c. 3 pkts 10c. ½ oz. 15c., oz. 25c.

Ponderosa

This variety is claimed by some to be the grandest Tomato ever grown. A large handsome variety. Often attains a circumference measurement of 18 ins. and frequently weighs two pounds each. Perfect in form, and almost seedless; ripens thoroughfect in form, and almost seedless; ripens thoroughly and is quite free from wrinkles, very solid and meaty. A handsome crimson in color and free from rot. It is a very healthy grower, free from blight and a continuous bearer all season. We can highly recommend this large variety, which is well known everywhere. On account of its producing very little seed, it makes the seed high in price, nothing but the large and best fruits are selected for seed purposes. Pkt. 50, 3 pkts. 12c. 16 oz. 25c., oz. 40c. Pkt. 5c., 3 pkts. 12c., ½ oz. 25c., oz.40c.

This variety has many good qualities as an early or late sort and embraces every desirable quality that goes to make a good Tomato. It is very early, perfectly smooth and ripens evenly to the stem. It is of large size and between the Champion and Beauty in color and is one of the most productive Tomatoes, Pkt. 5c., 3 pkts. 9c., ½ oz. 12c., oz. 20c., 2 ozs. 35c., ¼ lb. 65c., ½ lb. \$1.20, lb. \$2.25. lb. \$2.25.

DWARF CHAMPION TOMATO

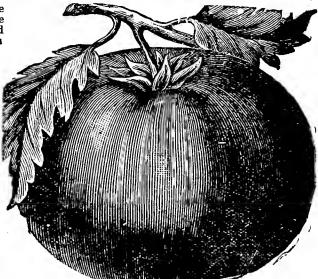

Deep purplish red, growing upright and strong, most popular dwarf variety. Pkt. 5c., 3 pkts.9c., ½ oz. 16c., oz. 25c., 2 ozs. 40c.

LIVINGSTON'S BEAUTY TOMATO

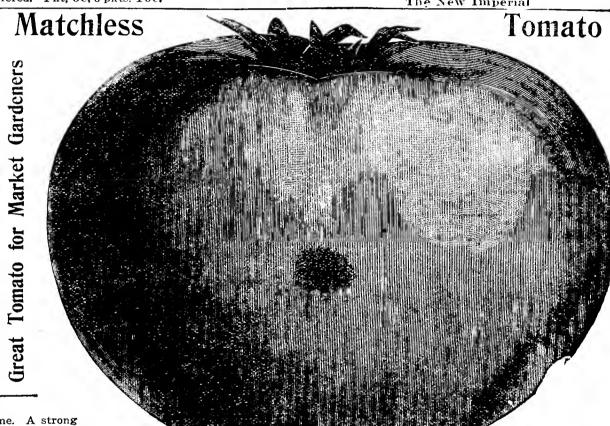

Ripens early and is a hard sort to surpass. Color is a rich, glossy crimson, and it grows in clusters. A standard variety. Pkt. 5c., 3 pkts. 9c., ½ oz. 12c. oz. 20c., 2 ozs. 30c., ¼ 1b. 50c.

Great Tomato Collection

A packet of our Mixed Tomato seeds will prove a great curiosity. It contains all the varieties we offer and many others, All the carly, medium and late kinds of the different colors, shapes and sizes will be produced. One of the most interesting collections ever offered. Pkt, 5c, 3 pkts. 10c.

The New Imperial

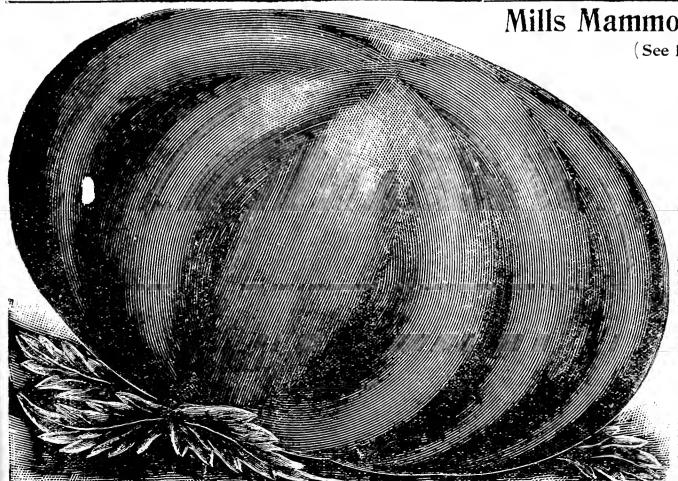

rown to be appreciated. Pkt. 5c., 3 pkts.12c.

MATCHLESS TOMATO

Skin very tough and will keep for a long time. A strong grower, productive, large size, no better large red Tomato grown, of its class. Excellent for market gardeners.

Pkt. 5c., 3 pkts. 9c., ½ oz.12c., oz.22c., 2 ozs.40c., ¼ lb.70c., ½ lb., \$1.30, lb. \$2.50.

Mills Mammoth Prize Tomato

(See Front Cover)

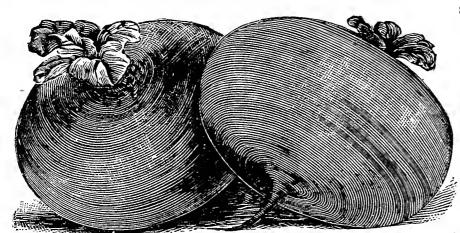

One of the largest Tomatoes grown, We introduced it several years ago and it has given satisfaction everywhere, It possesses every good quality to be found in a Tomato, Vines are strong and vigorous and when properly trained will easily attain a height of 15 feet and carry an enormous weight of fruit. Its massive fruits are almost perfect in form, as shown, and are so free from ridges as to seem nearly as smooth as glass, and as to size, weight and solidity, no other mammoth Tomato can approach it. We have seen specimens of this Tomato that weighed 314 pounds, and specimens weighing 2 and 3 pounds each are a common occurrence. skin is exceedingly firm; the fruit is almost seedless. This makes the seed cost much more to grow than that of any other variety. If started early, the fruit will ripen from July until killed by frost. No garden is complete without this mammoth Tomato,

CAUTION—There are the short growing bush Tomatoes called Tree Tomatoes and the tall growing called Tree Tomatoes, but if you want the true MAMMOTH PRIZE order your seed of us and you will not be disappointed. We have the genuine stock and offer it at the following prices;

Pkt. 6c, 3 pkts. 15c, ½ oz. 30c, oz. 50c,

Turnips and Ruta Bagas = We offer the best of all Garden Turnips and Ruta Bagas

NEW JAPANESE TURNIP

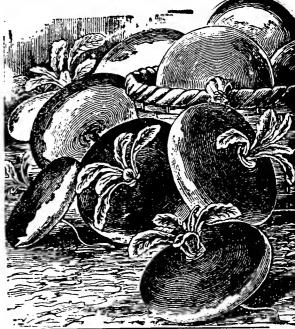

PURPLE TOP PURPLE TOP STRAPLEAF TURNIP STRAP LEAF-The bulb is very flat, of medium size and quite smooth, with a bright purple top,; very fine grained. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16., ¼ lb. 22c.. 12 lb. 30., lb. 55c.

NEW JAPANESE TURNIP-A Large, Tender and Sweet Turnip-This is a new turnip from Japan. turnip from Japan. Grows large, color white and we believe it will be

and we believe it will be of great merit in this country. The seed we offer comes direct from Japan and was imported expressly for our trade. This turnip grows to a good size, is solid and meaty, a heavy cropper and a good winter keeper. The illustration gives a good idea of the shape of the turnip, color being a pure white both outside and inside except at the top under the leaves, where it is tinted a little darker color. We can recommend this variety.

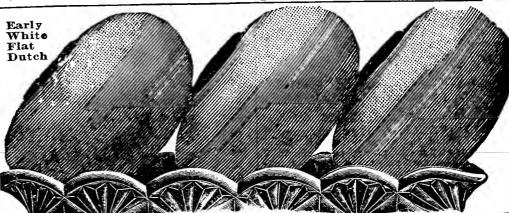

Pkt. 6c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

Pkt. 6c., 3 pkts. 12c.,oz. 15c., 2 ozs. 25c.

EARLY WHITE FLAT DUTCH—This is another early variety which grows to a me-dium size very quickly. It has a clear white skin and is always choice for table use, and is one of the very best vaone of the very best varieties for spring sowing. Our Early White Flat Dutch seed this season is the finest we have produced, being of strong vitality. Give it a trial.

Pkt. 5c, 3 pkts. 8c, oz. 9c, 2 ozs. 16c, ¼ lb. 20c,½ lb. 30c, lb. 55c.

CORN

Brazilian or Stooling Flour Corn

MORTGAGE LIFTER YELLOW DENT

We introduced this new and distinct Yellow Dent Field Corn several years ago and it has given our eral years ago and it has given our customers great satisfaction wherever grown. It grows from 7 to 11 feet high, strong, rank and quick, and stands storms remarkably. The ears are of a very large size and will outyield any other Corn grown. We have records of fields producing 107 bushels and 118 bushels of Corn per acre. The largest grower of Seed Corn in America says it will mature in from 85 to 95 days and has 14 to 24 rows on a cobethe longest and largest of any Early Corn in cultivation. It husks and shells easily and brings the highest market price, as it will sell for seed on sight. It will cure out in the shock where other varieties will mold where other varieties will mold and spoil.

and spoil.

We have sold thousands of bushels of this sort for seed and can say our customers are much pleased with it and we believe it is a hard variety to surpass. We have a very fine stock of extra choice seed with which we can supply our customers this year.

this year.

BRAZILIAN or STOOL= ING FLOUR CORN

This Corn yields four times more corn to the acre than any common corn and a great deal more in shelled corn. It stools like wheat, each kernel producing from 4 to 8 stalks

with from 3 to 4 ears on each stalk, about 5 to 6 inches in circumference and from 9 to 12 inches in length of pure white kernels. It is the best variety for enwhite kernels. It is the best variety for ensilar. It contains a larger percentage of starch than any other corn and when ground and bolted by the same process as wheat gives a better bread and biscuit flour than can be made from wheat. It is also used largely as roasting ears. Only two kernels should be planted to the hill, and afterward thinned to one, and cultivated like other corn. Pkt. 5c., 3 pkts. 12c., ½ pt. 25c., pt. 40c., qt. 60c., postpaid. By ex. or frgt., not prepd, 4 qts. \$1.00, pk. \$1.60.

IOWA GOLD MINE

IOWA UOLD MINE
Is claimed by some growers to be the most popular Yellow Dent corn in the world. Is early, ripening a few days later than Pride of the North, ears good size, symmetrical; color bright yellow; grain very deep; cob dries out quickly; 70 lbs. of ear Corn shell 62 to 63 lbs; matures perfectly, as far North as S. Michigan. Pkt, 5c., 3 pkts. 10c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 50c., pk. 80c., bu. \$1.50, bu. \$2.50, 2 bu. sack \$4.50.

PRIDE OF THE NORTH

This is very desirable for an Early Dent Corn, suitable for main crops as far north as Michigan, Minnesota and Wisconsin. Color deep yellow; grains very deep; small cobs; grain narrow; generally about 18 rows; 2 ears to the stalk and makes a good yield. It is very heady and stands cold weather and noor land. to the staik and makes a good yield. It is very hardy and stands cold weather and poor land about as well as Flint Corn. Pkt.5c.,3pkts. 10c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 50c., pk. 70c., ½ bu. \$1.25, bu. \$2.25, 2 bu. sack \$4.00.

EGYPTIAN WHEAT CORN

Cultivated extensively in India. Recently brought to this country. Yields very valuable crops.Of stooling habit, produces 3 to 6 stalks from 1 grain. Large heads of round, plump white seed, like Broom Corn. Excellent feed for cattle horses and chickens, makes good pop corn and, when ground, excellent pan-cake flour. More of a grain than forage corn as it has double the seed of Kaffir Corn, and

This is a splendid Extra Early Yellow Flint Corn and has proven to be all that is claimed for it. The ears are large, being the longest of any variety of lint Corn we have ever grown. Our seed stock of this sort has been kept very pure and improved every year, so that we claim to have the handsomest Yellow Flint Corn ever offered. Stalks grow to a good height, and often bear two to four large ears under good cultivation. Some of our customers claim to ave grown as high as 240 bushels from one peck of seed, which fully matured in eighty-five days from planting.

Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 50c., pk. 80c., ½ bu. \$1.40, bu. \$2.50. ow Flint Corn ever offered.

We will also furnish One 100 Egg Early Bird Incubator and one 100 Chick Brooder, the two machines, and \$1.00 worth of Seeds in packets, for only \$10.00. Give one of these outfits a trial. We guarantee them and know they will please you.

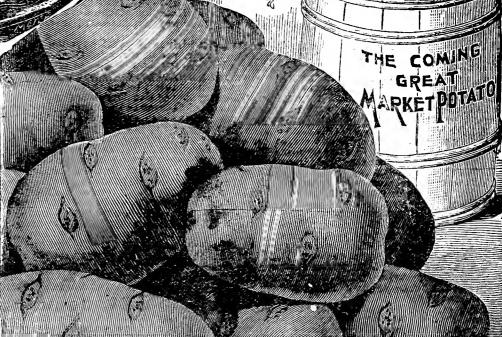

Early Fortune Potato

This is a wonderful variety and has made a great record wherever grown. We introduced it several years ago, and all who have planted it say that it is one of the best early potatoes of the rose type they have ever grown. It is a very strong grower, producing type they have ever grown. It is a very strong grower, producing tubers uniform in size, smooth, clean, and free from prongs, which grow compactly in the hill. The eyes are shallow, almost flush with the skin, and the cooking qualities are excellent, even when first dug. It is also a remarkable keeper. We believe it will produce more potatoes to the acre than any other early potato of its class we know of, and if you have never grown Early Fortune, you should do so this year.

PRICES—Good strong eyes, 25 for 30c., 50 for 55c., 100 for \$1.00, postpaid. Whole tubers, pound 30c., 3 pounds 60c., postpaid. By express or freight, not prepaid, pk. 65c., ½ bu. \$1.25, bu. \$2.25.

Drought Proof Potato

We introduced this Potato and after carefully testing and receiving many recommendations from those who grew it, we know

Drought Proof Potato

that it is the coming great market potato. It is a very handsome variety, both in shape and appearance, and the engraving gives an excellent idea of it. It grows to a good size and there is a less per cent of small Potatoes in a crop than any Potato we have ever grown. The Tubers grow compactly in the hill; eyes are shallow, skin white; is fine grained; cooks dry and mealy, and cannot be excelled for quality. This is the case when first dug and they retain their excellent cooking qualities and keep sound and perfect until the new crop comes, being superior to other late Potatoes for long keeping qualities. It has proved drought and blight proof and is an enormous yielder, and we want every person who grows Potatoes, whether a few hills in the garden for fami'y use or acres for market, to try this Potato this year. A cheap way to get a good start is to order a quantity of Potato Eyes, and we make this branch a specialty, and supply thousands of our customers Potato Eyes every year.

Early Fortune Potato

Prices-Good Strong Eyes, carefully packed to go any where in the United States, 25 for 30c., 50 for 55c., 100 for \$1.00, 250 for \$2.25, postpaid.

Selected Whole Tubers, 1b. 30c., 3 lbs. 60c., postpaid. By express or freight, not prepaid, pk. 60c., ½ bu. \$1.00, bu. \$2.00, barrel sack, 165 pounds, \$5.00.

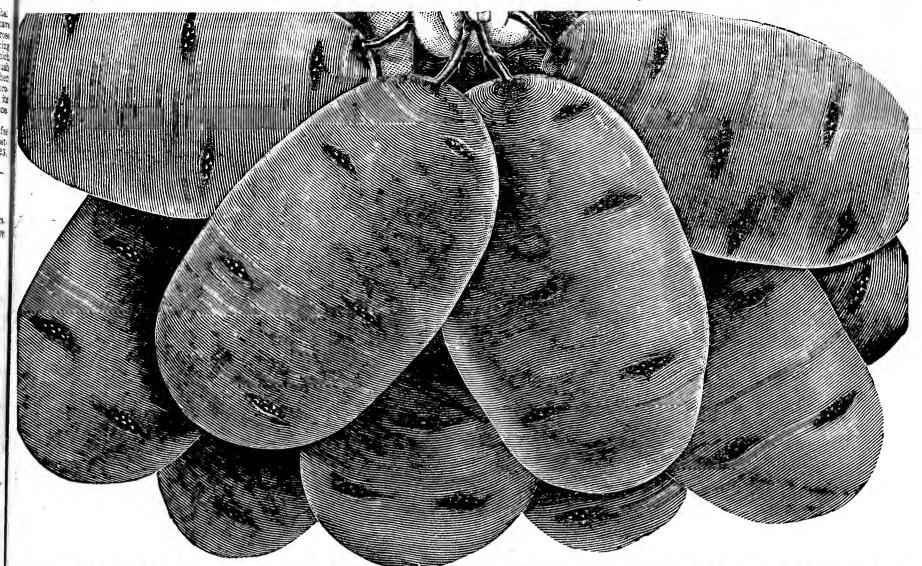

POTA

All the Season Potato is one of the most valuable varieties we have ever of fered. Planted early in the spring they produce fine large smooth potatoes that in quality and productiveness far surpass the best early sorts on the market, This great potato can be grown for an early, medium or late crop. This feature alone is of vast importance as most all early or medium varieties are not so productive as the late sorts. However, this is not the case with All the Season as they always produce from 6 to 8 large smooth perfect shaped tubers to the hill. This Potato is a strong vigorous grower, resists blight and drouth remarkably and its growth is not retarded by potato bugs like other varieties on account of the great mass of strong healthy vines it produces. As will be seen by the illustration it is a most perfect and desirable shaped potato. The skin is smooth and white, the eyes are This great potato can be grown for an seen by the illustration it is a most perfect and desirable shaped potato. The skin is smooth and white, the eyes are shallow and it is a splendid keeper and cannot be equaled for superior cooking and eating qualities. It is by far the most valuable and greatest all-purpose potato we have ever introduced, and is makes no difference whether you want to raise a few hills in your garden or a large field for market, you will find this is the potato you will want to grow. We earnestly urge every customer to give earnestly urge every customer to give this great potato a trial this year. Even if you order only a few eyes to plant in your garden, it will give you a start in this Great Potato.

Prices -- 25 Eyes 30c., 50 for 550 100 for \$1.00, postpd. Whole tub ers.pound 30c., 3 lbs, 60c., post paid. By ex.orfrt. not prepaid pk., 65c., ½ bu. \$1.25, bu. \$2.25

It is nothing uncommon for 25 eyes to produce 100 pounds of large fine potatoes, and we claim there is no way that our customers can get a start in our potatoes so cheap as starting with Potato Eyes, which we supply carefully cut and packed, by Mail or Express, postage or express paid. Try some of them this year. packed, by Mail or Express, postage or express paid.

OUR NEW EARLY POTATO=No. 9. Try It This Year.

We offer this spring a new Potato, which we call No. 9, and believe it will make a wonderful record everywhere. It is very early, the vines grow strong and produce tubers uniform in size, smooth, clean and free from prongs. The eyes are shallow, almost flush with skin and the cooking qualities are always the very best. The skin is a handsome creamy white and is sure to attract attention anywhere. We prize this new potato very highly and know it will give great satisfaction everywhere grown and we want our customers to try it this year. Our stock is limited and we can only offer the eyes carefully cut and packed to go to any part of the U.S. Price of good eyes carefully packed, 12 for 25e, 25 for 50e, 60 for \$1.00, by mail postpaid.

Mortgage Lifter

CHOICE SEED OATS SWEDISH SELECT

Regenerated Stock

Swedish Select Oats are coming to the front very fast. They have gained a splendid reputation wherever grown, and have made some wonderful yields. It is not unusual to see fields growing upwards of 100 bushels per acre, with grain weighing as much as 45 lbs. per measured bushel. They are certainly taking the lead at the present time, and we believe they tinue to do so. The head is large and the straw is heavily walled; hence it does not lodge readily and adheres firmly to the branches. The hull is very thin, making it an excellent feeding oat. We offer some very choice seed stock and recommend that our customers try a field of Swedish Select Oats this year. We offer choice recleaned stock as follows:

Pk. 50c., 1/2 bu. 70c., bu. \$1.15, 2 bu. or more at \$1.00 per bu. f. o. b. Rose Hill, N. Y.

MORTGAGE LIFTER

These oats have gained a splendid reputation in every section where they have been grown. They are exceptionally famous for hardiness, productiveness, weight and quality, and are vigorous growers. The straw is stiff, holding the heavy heads, which average nearly a foot in length, better than any other variety we have ever seen. These cats are exceptionally free from rust and ripen very early. The straw is very long and ripens evenly all through the field. The hull is thin, while the grain is white, plump and heavy, averaging nearly 40 pounds per measured bushel. We have an extra nice lot of recleaned seed to offer, which will give our customers the greatest possible satisfaction on account of its hardiness, enormous yielding qualities, and heavy, plump white grain. Sow a field of Mortgage Lifter Oats this season and you will be in position to supply your neighbors with seed oats next year at a good price.

Pk. 40c., ½ bu. 60c., bu. \$1.00, 2 bus. \$1.90. 10 bus. or more at 90c. per bu., 32 lbs. to bu. f. o. b. Rose Hill, N. Y.

SEED OATS==OUR SELECTION

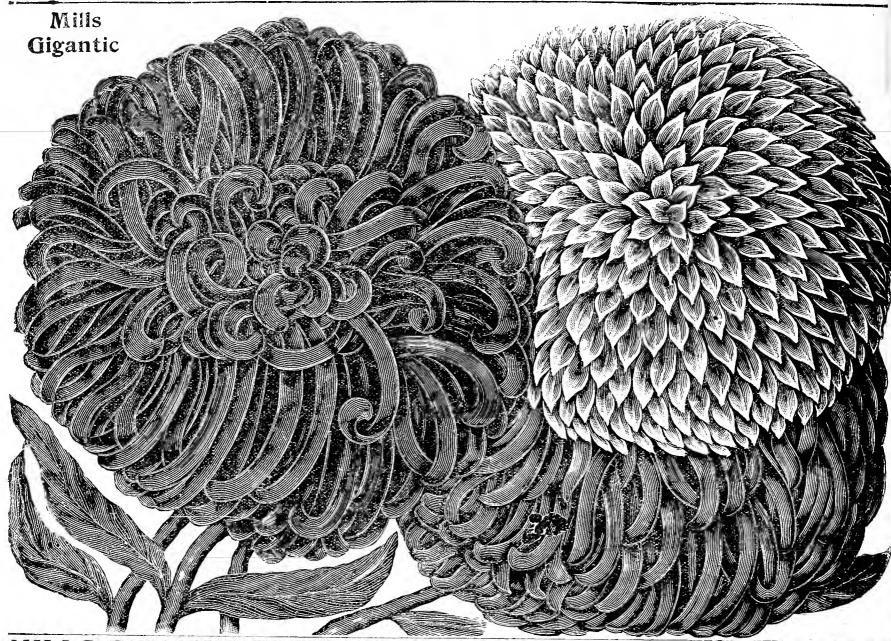

We always have inquiries from our customers for Seed Oats, any good variety of our selection that can be supplied at Special Prices.

We have on hand this year crops of several varieties not listed on account of having only a few hundred bushels of each. We offer these Oats, all thoroughly cleaned, as long as they last, at 80c. per bushel of 32 lbs., f. o. b. Rose Hill, N. Y. (No order for less than one sack of 2½ bushels will be accepted).

JAPANESE

CHRYSANTHEMUMS

EASILY RAISED FROM SEED

We have succeeded in securing a wonderful collection of Japanese Chrysanthemum seed and there is hardly any flower produced from seed that can take the place of this. Think of seed producing all the curious and odd shaped flowers as shown in the illustration. Our mixture is composed of all the best Japanese and Chinese varieties. which are imported from Japan. Among the curious shapes and beautiful colors will be found the Ostrich Plume sort, twisted and curled, and nearly all shades you can imagine. In addition to the Japanese variety, we include the Annual Chrysanthemums which produce large flowers of crimson, gold and white colors. No matter how many plants you raise there will hardly be any two alike. The entire mixture of seed soon begins to bloom and by winter the plants are large enough to produce a gorgeous display of flowers. Fine Mixed, all varieties, shapes and colors, Pkt. 8c., 3 pkts, 20c,

ANNUAL VARIETIES MIXED-These bloom freely the first year from seed and produce a variety of colors. Seeds can be sown in garden in the spring. Pkt. 5c., 3 pkts 12c,

Japanese Chrysanthemums

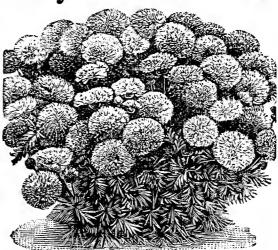

DOUBLE LARGE FLOWERING

This grand mixture will flower the first season from seed and the collection we are offering will produce a great dis-play of flowers. We have included we have included all the best varieties to be had, which are easily grown from seed. But few people know that Dahlias can be raised from seed and will bloom the first year.Seeds germinate as easily as Zinnias. Mixed Colors pkt. 5c., 3 pkts. 12c.

this excellent plant as it is good for summer, fallor winter blooming. Cut blooms last well. opening freely inwater. pkt. 6c., 3 pkts. 15c. 5c., 3 pkts, 10c

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground.

All colors, mixed, pkt. 5c., 3 pkts. 10c.

DOUBLE DWARFROCK All colors, mixed, ET-Fine mixed colors, pkt.

WEATHER PLANT

This is a beautiful flowering vine with fern-like foliage and clusters of flowers. It is claimed that the leaves by changing their positions fore tell the weather two days in advance. If the leaves stand up ward from the twice at an angle of 45 de grees the sky will be cloudless and the weather beautiful. W they should stand one straight then change. able weather is indicated, or if the leaves droop down the indications are rain. and when the leaves are hanging straigh & down it indicates it will be very wet, Everybody should have this plant growing about their home.

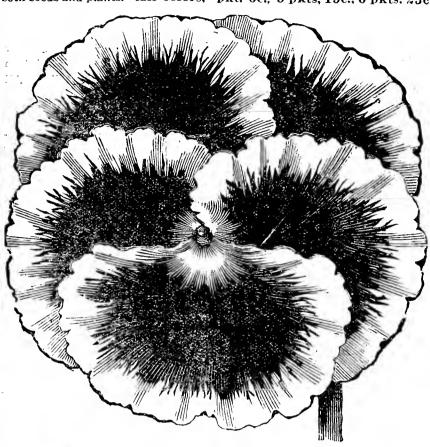

Pkt. 50., 3 pkts. 12c.

GIANT RUFFLED MASTERPIECE—A new type in Pansies producing Giant flowers of the most distinct and striking character. The petals have a rich velvety substance and being ruffled gives them the effect of a double flower. Colors range through all shades known in Pansies. On account of the richness and beauty of colors, and distinct character of petals, we consider them a real curiosity. All colors mixed, pkt. 6c., 3 pkts. 15c.

Mills Giant Pansies

We believe this to be the best collection of Giant Pansies ever offered. The illustration gives a good idea of size of flowers and the rich and varied coloring. All who grow these Giant Pansies will have flowers that will surprise their neighbors. They must be grown to be appreciated. We offer both seeds and plants. All colors, pkt. 6c., 3 pkts, 15c., 6 pkts. 25c.

Mills Giant

VIOLET SCENTED PANSIES—This is a new type of Pansies and a cross between the Pansy and the Violet. Flowers more like Pansies but fragrant like Violets. The colors embrace canary, azure biue, wnite, buff and many o'hers mixed. Pkt. 5c., 3 pkts. 12c.

IMPERIAL GERMAN-For a variety of colors and large sized flowers this is a good one. They embrace all the solid colors, as well as the spotted and marked va-rieties, and the variations and combinations cannot be fully described. This splendid mixture embraces seeds over fifty colors and markings. Pkt. 5c., 3 pkts.

SNOW QUEEN — Flowers of pure delicate sating white. Pkt. 5c., 3 pkts. 12c.

GOLD MARGINED—Very pretty. Pkt. 5c., 3

pkts, 12c.

MAHOGANY COLORED—Pkt. 5c., 3 pkts. 12c. ROSY MORN—Red, with white edges. Pkt. 5c., 3 pkts. 12c.

3 pkts. 12c.

EMPEROR WILLIAM—Flowers of ultramarine blue, with purple eyes. Pkt. 5c., 3 pkts. 12c.

FIRE KING—Lower petals have blotches of deep brown red, margined yellow; upper petals are a bright reddish brown. Pkt. 5c., 3 pkts. 12c.

PEACOCK—Resembles peacock feathers; very attractive and beautiful. Pkt. 5c., 3 pkts. 12c.

METEOR—Bright canary yellow, with mahogany and reddish brown. Pkt. 5c., 3 pkts. 12c.

KING OF THE BLACKS—Intensely dark and rich. Pkt. 5c., 3 pkts. 12c.

PURE YELLOW—Very large golden flowers. Pkt. 5c., 3 pkts. 12c.

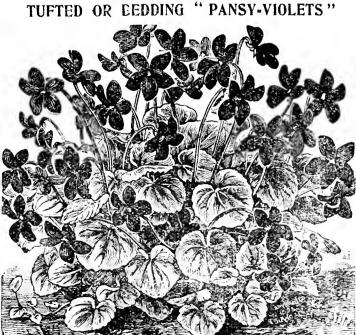

STRIPED and MOTTLED—Pkt. 5c., 3 pkts. 12c.

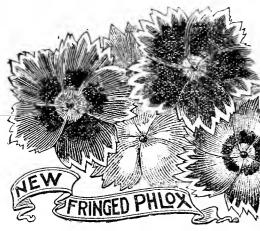

Here is a very interesting curiosity of the Physilis family. It is claimed that flies will not stay in a room where it is grown if they can escape. It is hard to understand this as the flower does not seem to have any odor. It is a great plant to bloom when grown in pots summer or winter, and it is a most remarkable free flowering plant, blooming in a short time from seed. On account of the blossoms being large, cup-shaped and of a delicate light blue color, with a white center, we are sure it will be highly prized by all who grow it. It can be easily grown from seed.

Pkt. 5c., 3 pkts 12c.

These are very popular for bedding. They produce beautiful Pansy-like blossoms 2 to 2¹2 in. across. of the most brilliant colors, lemon, crimson, orarge, maroon, purple, lav-ender, silver ender, silver gray, rose, blue, white, black and many other shades. Flowers are borne on long stems Seeds sown in Colors,

64 PHLOX Gorgeous Phlox

FRINGED-This is the finest starred and fringed variety, having a bright eve in the center. The fringed flowers are distinctly bordered with white. We offer a Choice Mixture of Colors. Pkt. 5c., 3 pkts., 10c.

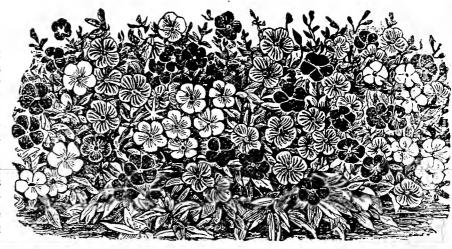

LARGE BLOOD RED- This is the darkest color of them all, being of the deepest blood red color, rich and beautiful. Pkt. 5c., 3 pkts., 10c.

PURE WHITE-This is the very best pure white variety and will produce an abundance of white flowers throughout the summer. Pkt., 5c., 3 pkts., 10c.

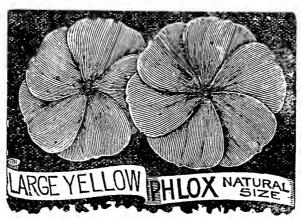

HARDY PHLOX, NEW LARGE FLOWERING HYBRIDS—For permanent beds in the garden or lawn nothing is more attractive. The plants bear immense panicles of large bright colored flowers of many beautiful shades and colors. The plants are perfectly hardy, grow two or three feet high, bloom freely during the summer. New Large Flowering, Mixed, pkt. 5c., 3 pkts. 12c.

A bed of these Annual Phlox will surpass almost anything else in dazzling brilliancy. Plants grow about 18 inches high, produce large trusses of immense flowers of various colors, such as deep rose, soft pink, marcon purple, lavender, dazzling scarlet pure white and many other shades. Gorgeous Mixture cannot be equalled. All colors mixed.

Pkt. 5c., 3 pkts, 12c.

A Bed of Mills Gorgeous Phlox

NEW LARGE YELLOW-No variety is more admired than this on account of producing large flowers of a rich straw color. Pkt., 5c., 3 pkts., 10c.

NEW PHLOX, BUNCH OF ROSES-A splending dwarf strain, plants being completely covered with bright flowers. Florets large and vividly lose colored with a darker spot of rose close to the base while the center of the flower is pure white. (n account of the large, clustered heads, its name "Bunch of Roses" was selected. It's a great bloomer and we advise our customers to try it. Pkt.5c..3 pkts. 120

GREAT DECORATIVE PLANT The Fountain Plant or "Amaranthus Salicifolius," is a very beautiful annual, peculiar in form and color. Finest of all decorative The of all decorative plants, bearing long, wavy racemes of curious, drooping branches shaded with orange, bronze and crimson. They make beautiful drooping plants. Succeed any where. Seeds grow readily. Pkt Fountain Plant grow readily. Pkt 5c., 3 pkts. 12c.

Light Plant Electric

A wonderful curiosity, which produces a sturdy, bushy plant, growing to the height of about 4 feet and covered with large spikes of flowers 6 to 8 inches long. These flowers are produced in lovely shades, pure white at base and ranging from rose to bright red to top of flower. It makes a showy and ornamental plant, and when grown in clumps makes a beautiful sight. It can be readily grown from seed. Pkt. 5c., 3 pkts. 12c.

Mignonette.

DOUBLE FLOWERING RED GIANT-This is one of the largest and best Mignonettes for garden culture. It is a strong stocky grower, handsome foliage and very healthy. The spikes of flowers are mammoth, measuring 51/2 to 8 inches long by nearly three in diameter, and are completely filled with giant florets, measuring about $\frac{1}{2}$ inch across and packed very full with anthers nearly three times as many as other Mignonettes contain, which entitles it to be called a double Mignor: ette. The fragrance is rich and powerful and for cutting there is no better variety, as it will remain fresh for several days when placed in water. Pkt. 4c., 3 pkts., 10c.

DEFIANCE—This is one of the leading varieties and largely grown as a florist's flower. It grows very strong, both the plant and the individual flower, while the size and strength of the leaf have not been equalled. The spikes of the flowers grow several inches long and the single florets more than ½ inch in diameter, having a delightful fragrance. Pkt., 5c., 3 pkts. 10c. diameter, having a delightful fragrance. Pkt., 5c., 3 pkts. 10c.

GOLDEN QUEEN-Produces

vellow blossoms and is of a very dense dwarf growth. Pkt. 5c. 3 pkts. 10c.

COMMON SWEET-The old well-known small flowered variety very sweet. Pkt., 5c.,3 pkts. 10c

FINE MIXED—This comprises all known varieties. It is a very choice selection. Pkt. 5c., 3 pkts.

Defiance Mignonette

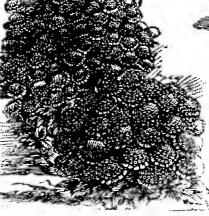

FEVERFEW

DOUBLE WHITE - Flowers enormous in size, snow white and double as roses. Pkt. 5c., 3 pkts. 12c.

CUPHEA = Cuphea is a very fine genus of plants, romarkable for their beauty, freely blossoming and of ornamo

appearcon ser-

HYDRANGEA

PRODUCES IMMENSE FLOWERS

One of the finest hardy shrubs ever introduced, and in size and magnificence of bloom not excelled by any shrub in cultivation. The bush in

time attains a large size, growing in beauty year by year. It is in full glory of bloom from Aug. until the middle or last of Oct., when every branch is crowned with an immense panicle of fleecy pure white flowers, changing later to a pinkish hue, sometimes a foot long and nearly as broad at the base, presenting an aspect of majestic grandeur that absolutely defies description. Entirely hardy, very free growing, a profuse bloomer and thrives in all soils. It should have a permanent place in every garden, not only because it is such a glorious shrub, but for its flowers appropriate the street of the street pearing at a time when few others are to be found. A bed of one hundred makes a most striking appearance. It can be grown from seed, and we have secured a choice lot for our customers this year. Start some of these plants this spring. You will be surprised at the result. Pkt. 6c., 3 pkts. 15c.

Here is quite a curiosity and we believe will be very useful for lawn and house decorations on account of its rapid and vigorous growth. The recurving leaves, which are narrow and grow very graceful are over-topped by elegant feathery plumed about a foot long. The heads are borne from July until frost and the whole plant seems to be veiled in a purple cloud. It certainly is the most beautiful and ornamental house plant of easy culture which can be readily grown from seed. Pkt. 6c., 3 pkts. 15c Here is quite a curiosity and we believe

SWEET PEAS = MILLS GIANT FLOWERING = Gorgeous Mixture. Greatest
Mixture of Colors ever offered.

If there is only one flower you select from our Seed Catalogue let it be this selection
of Sweet Peas. It includes all the best of the Spencers. They begin to bloom early and
sontinue to bloom for months.

SOLANUM — A beautiful miniature evergreen tree, that bears perpetually in great numbers ripe and green fruit(not edible) and it blossoms freely the whole year. Their scarlet fruits make them yery desirable them very desirable for both house and lawns (in summer).

Pkt. 5c., 3 pkts.

LOBELIA—An excellent pot plant for window culture as it blooms in four The colors

exceedingly clear, making charming plants.

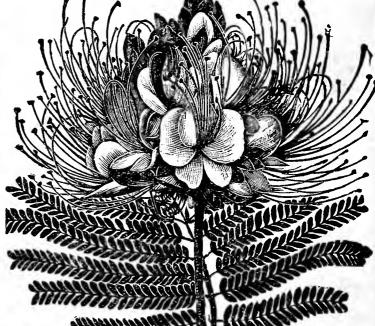

Dark Blue, Best for bedding. Pkt 5c., 3 pkts. 12c.

Mixed Colors. All the very best. Pkt. 5c., 3 pkts. 12c.

LARGE FLOWERING GLOBE PYRAMIDAL-This kind produces immense spikes of perfectly double flowers; individual blooms measuring from 2 to $2\frac{1}{2}$ inches in diameter. Colors are crimson, white, rose, blue, lilac, brown, flesh color, apple blossom and yellow. They are greatly prized for cut flowers on account of their fragrance and many colors. All colors mixed. Pkt. 5c., 3 pkts. 12c.

DWARF GERMAN-Fine, mixed. All colors, Pkt. 5c., 3 pkts. 12c.

BIRD OF PARADISE [Poinciana Gillesi]

Bird of Paradise

The foliage of this new plant reminds one of a very delicate Acacia, The flower is a golden yellow, measuring nearly $2\frac{1}{2}$ inches across, of beautiful shape as shown in the illustration. They are produced in very large trusses, and the most beautiful part of the flowers are the very large pistils which spread out in a fan-like form, of bright crimson color. It blooms in great profusion the first year, if sown early in the spring. Can be grown inside in winter and outside in summer. Will produce plants 3 to 5 feet tall. Pkt. 6c., 3 pkts. 15c.

Ten Weeks Stocks

Perfect Gem Calla This is a very handsome Calla Lily, and can be grown from seed. It was originally imported from Germany and found to be a distinct variety of the Calla family. It grows from 16 to 20 inches high, making a very handsome pot plant and is a continuous bloomer, producing an abundance of pure white flowers of large size, standing well above the massive foliage. It produces bulbs never larger than one inch in diameter, and is a very rapid grower. Sow a few seeds, plants are easily started and they make graceful ornaments in any home. Packet 5c., 3 packets 12c.

carmine, crimson, deep blue, pale blue, royal purple, maroon, indigo, bronze, slate, brown and cherry, while many have throats spotted, mar bled, striped, flaked and splashed. The most attractive Morning Glory All Colors, Single and Double, pkt. 5c., 3 pkts. 12c.

JAPANESE KUDZU VINE

(Jack and the Bean Stalk Vine)
This comes from Japan, the land so productive of curious and ornamental flowers. With ordinary treatment it will grow seventy feet in one season, filling the air with the fragrance of its large clusters of wistaria like blossoms. It requires very little care and in three months this wonderful vine progresses as much as most vines do in five years. It is perfectly hardy, lasts for years. Foliage is large, shaped like the leaf of a bean. Flowers are a pleasing shade of purple. Pkt. 6c., 3 pkts, 15c.

ROYAL BEAUTY—This is a grand new variety being recently introduced and has given great satisfaction wherever grown. The flowers are large and double, while the colors are very brilliant, of red, orange, white, maroon, yellow, and various other shades, impossible to describe. A bed of these double portulacas makes a magnificent sight. All Colors Mixed, pkt. 5c., 3 pkts. 10c.

SINGLE—These cover the plants completely over with large, bright beautiful flowers of all shades. Be sure to plant a packet this season. All Colors, pkt. 5c., 3 pkts. 10c.

CYPRESS VINE

This is a beautiful and artistic vine. The trembling foliage and star shaped flower give the plant a charming effect. Mixed Colors, pkt. 5c., 3 pkts. 10c.

JAPANESE HOP VINE

This is a handsome vine, growing from twenty to thirty feet in a season. The leaves are striped and variegated, making a charming effect. It is a rapid summer climber and one of the best plants for covering verandas, trellises, etc. Heat, drought and insects do not trouble it. Pkt. 5c., 3 pkts. 10c.

Japanese Giant Flowering Dolichos (HYACINTH BEAN)

This annual climber grows about ten feet high, branching out well from the bottom, producing an abundance of sweet pea like blossoms, borne in long wistaria like clusters, nearly a foot in length. The foliage is very dense and is insect proof. Mixed Colors, pkt. 6c., 3 pkts. 15c.

Allegheny Vine

This is one of the best hardy climbing plants, being a native of the Allerheny Mountains, very attractive and picturesque, Flowers, rose, pink and white. Try it this season. Pkt. 5c., 3 pkts. 12c.

COBEA==(Scandens)

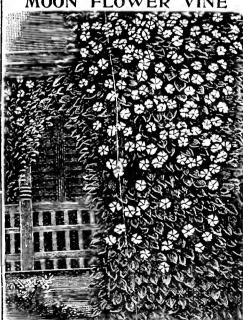

A rapid growing climber, attaining a height of fifteen to thirty feet, produces rich purple flowers Pkt. 5c., 3 pkts. 12c.

Wild Flower Garden Mixture

We have made up a great mixture of flower seeds, including nearly all flowers that will grow and flower from seed the first year. This selection embraces several hundred varieties of easy growing and pretty flowers suitable for a wild flower garden. They are excellent to sow in any corner of the garden or along fences or any unsightly places where they will grow and bloom freely. Without doubt this collection contains more varieties of beautiful flowers than any other on the market.

Pkt. 5c., 3 pkts. 12c., oz. 25c.

MOON FLOWER

This vine has become very popular, and n account of its being a rapid grower, it has taken the lead among the annual climbing vines and no one who has a trellis or arbor. veranda, or old tree to cover should fail to veranda, or old tree to cover should fail to plant the Moon Flower. The most rapid growing of all climbing vines and if given a sunny situation and plenty of water, it will attain a height of from forty to sixty feet and be covered with thousands of immense fragrant flowers, opening in the evening and remaining open until nearly noon the following day. The flowers are from five to seven inches in diameter, Pkt. 6c., 3 pkts. 15c.

72 JEPARTMEN

WE offer a good selection of plants this year of such varieties as will be sure to give good satisfaction. Look our list over carefully and include some of them in your order. (See back of order blank for special space to order.) All Plants offered are strong, well rooted, and grown especially for sending by mail, postpaid. We do not handle larger plants of any kind.

We offer nothing but the very best selected varieties that have been thoroughly tested. Our Roses are grown on their own roots, and are therefore far superior to those budded or grafted on wild stock. Our assortment this season includes the very best of the old favorites and the newest introductions. We do not offer all the Novelties; only those that we have found to have especial merit and suitable for outdoor culture.

When We Mail Plants A great many of our customers order both Seeds and Plants early in the winter. Seeds are sent at once and, if requested, we will send the Plants later—any time up to June 1st. We begin to fill Plant C lers in February, and unless you name the date you want us to mail the Plants we will consider you are ready for them and will forward at once in a separate package. Seeds and Plants are never sent together in the same package. We cannot fill plant orders after June 1st.

will have our best attention and we guarantee to pack so they will arrive safely at any post office in the United States. Any complaints must be made within one week after Plants arrive. Orders filled in severe cold weather, or foreign shipments are at pur-Plant Orders chasers' risk.

CHRYSANTHEMUMS

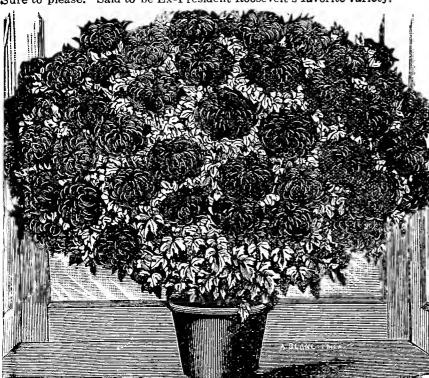

INTENSITY—The flowers are of massive size; reflexed, with broad stiff petals; color deep, rich, velvety-crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems.

MAJOR BONAFFON—Color soft, clear, yellow, very full globular-shaped flowers 6 to 7 inches across, crowded with fine incurved petals. In perfect form and finish, like Ivory at its best. Habit dwarf; keeping qualities excellent. Foliage well up to the flower, stiff stem.

OCTOBER FROST—A pure white with broad, slightly incurved petals. Even when the flower is fully open, it does not show a center. Strong grower, with heavy foliage and one of the earliest to flower.

WHITE BONAFFON—One of the most useful of the white varieties. Color pure snow white. The flower forms a perfect ball when in full bloom. It is a dwarf grower, with heavy foliage.

BLACK HAWK—The largest and most beautiful dark crimson-scarlet yet introduced. Looks like crimson velvet; the very shade so much desired in Chrysanthemums. Flowers are of immense size on fine stiff stems. Sure to please. Said to be Ex-President Roosevelt's favorite variety. in Chrysanthemums. Flowers are of immense size on fine stiff s Sure to please. Said to be Ex-President Roosevelt's favorite variety.

Black Hawk Chrysanthemum

Glory of the Pacific Chrysauthemum

Glory of the Pacific Chrysauthemum
GLORY OF THE PACIFIC—This fine variety will rank as the very best of early pink sorts. It is of magnificent depth, with broad petals which finally relax, showing the clear pink color to excellent advantage. The plant is of dwarf, compact growth and comes into bloom very early in the fall. The flowers are of great size and a clear pink color.

GOLDEN GLOW—A bright yellow of velvety finish, fine stem and foliage. Flowers five and one-half inches in diameter and fine form. The very best of early yellows.

DR. ENGUEHARD—Increase in the stem of the property of the property in the stem of the property of the property in the party of the property of

of early yellows.

DR. ENGUEHARD—Japanese incurved. One of the best introductions of recent years; has been awarded highest honors wherever exhibited. Color a true pink, without the least trace of purple. Stem and foliage perfect Equally valuable for exhibition or commercial purposes. Perfectly double.

Price of the above Chrysanthemums, 15c. each; 3 for 40c., 6 for 75c.

SPECIAL OFFER-All 8 Varieties \$1.00 postpaid.

ALPHONSE RICARD-Large, semi-double flowers,

ALPHONSE RICARD—Large, semi-double flowers, often measuring 2 inches in diameter, borne in enormous trusses, on long stalks, and so freely produced as to nearly conceal the foliage; almost every joint produces a flower stem; blooms all season. Scarlet.

BERTHA De PRESSILY—Absolutely the only double pure delicate pink Gcranium that does not fade in the summer. One of the most free and continuous bloomers, the flowers of a well grown plant completely covering the foliage.

BERTHA POITEVINE—Post salver colored Completely and the summer.

the foliage.

BEAUTE POITEVINE—Best salmon-colored Geranium for bedding purposes; most profuse bloomer of all the geraniums. Largest size trusses, borne on long foot stalks; florets very large, double and of a beautiful brilliant salmon. Always in great demand during spring; brings a higher price than any of the others.

COUNTESS OF HARCOURT—Pure snow white. A grand bedder. Florets large, double and beautifully formed. Extremely free in bloom.

S. A. NUTT—The best crimson bedding Geranium. This, the finest of dark crimson Geraniums, has now taken the lead as a bedding variety, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming qualities and sun-proof constitution combined give it the prominence as a bedder. As a pot plant it cannot be exprominence as a bedder. As a pot plant it cannot be excelled,
MRS. E. G. HILL—For those unacquainted with the

Enchantress

BEACON—A splendid new red that blooms throughout a long season. Flowers are gracefully formed, and will average from 2% to 3 inches in diameter. Color scarlet with a brightening dash of orange.

HARLOWARDEN-The largest and best of its color; a bright dazzling crimson Flowers often measure 3 inches in diameter, and are well supported on long, stiff stems.

A wonderfully free bloomer, and always full of buds.

JAMES WHITCOMB RILEY—This is the only pure yellow Carnation that is grown today. It is a variety easy to grow and of healthy constitution; flowers average inches or more in diameter; have a very pleasing clove fragrance; borne on long, stiff atems. Even the professional growers, who are more or less partial to other commercial varieties, admit the great beauty of this distinctive novelty.

ENCHANTRESS-This is truly a queen among Carnations on account of its large size, magnificent color, fine strong stem, and early, free and continuous blooming habit. The color is a beautiful shade of light silvery pink, deepening toward the center. The flowers are enormous—three and a half to four inches in diameter. It does not burst the calyx atany season. It is an ideal grower, very healthy and of vigorous constitution.

VICTORY—Said to be the finest color of any Scarlet Carnation; ficwers retain their color and brightness to the last and are borne on fine, long stems.

WHITE ENCHANTRESS—The purest white sport from the variety "Enchantgess." It is absolutely pure white in color It is absolutely pure white in color.

WHITE PERFECTION—Pure white blooms, 3 inches and over in diameter, beautifully fringed and delightfully fragrant. Free bloomer.

MRS. C. W. WARD-A beautiful shade of deep pink, flowers 4 inches and over in mameter, with 2-ft. stem. An early and continuous bloomer.

Price of Carnations, 15c. each, 3 for 40c., 6 for 75c., postpaid. SPECIAL OFFER--All 8 Varieties \$1.00 Express

Rex Begonia

Rex Begonias

This is a type of large leaved Begonias, and is the most ornamental of the species, They are grown exclusively for the rich and varied markof the rich and varied mark-ings and remarkable beauty of their foliage, some of which are truly marvelous. In no other class of plants are the rich metallic shades of varrich metallic shades of various colors found so satisfactorily blended as in the Rex Begonia while the form and size of the leaves are of the greatest variety. Some varieties show bright green, pure silver, bronze and velvety green, while others have a distinct band or zone of bright, rosy plum color, and others a zone of light, dull red.

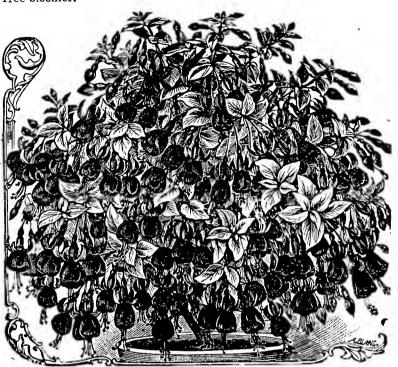

Our stock of Rex consists

Our stock of Rex consists of a number of the most autiful varieties in cu'tivaor, including some of the choicest new sorts. When we receive an order for two or receive more Rex, we always send the most distinct varieties

BLACK PRINCE-This is without question the very finest single Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture.

LITTLE BEAUTY-A perfect gem; marvelously free-flowering single flowers 11/2 inches long; bright red tube and sepals; corolla rich purple.

MRS. E. G. HILL-One of the most perfect double Fuchsias yet introduced. Tube and sepals bright reddish crimson, contrasting with the large, pure white corollas to a great advantage. A very

PHENOMENAL—The largest double Fuchsia we have yet seen The tube and sepals are bright coral-red, beautifully formed. The corolla, nearly two and one-half inches across, is of the very richest violet shades. The habit is remarkably free, and it blooms more freely than any other large variety.

SPECIOSA-A genuine ever-bloomer. Elegantly shaped and of good substance. Orange scarlet corolla and white sepals; calyx rose-carmine. One of the best in cultivation.

Price of any Fuchsia, 15c. each; 4 for 50c., postpaid.

DELICATISSIMA-The plant is a neat, handsome grower producing a great abundance of leafy vines, which cover the ground with their pretty foliage, and bear such an immense profusion of lovely, clear pink flowers, that the whole bed seems sheet of rosy bloom from early summer till late fall. The flowers are borne in elegant clusters, and hundreds and thousands of them are in bloom all the time.

ALBA PERFECTA—Pure snow-white, compact habit.

COMTESSE de BIENCOURT-Flowers bright rose and yellor MICHAEL SCHMIDT-Flowers fresh and sparkling, of brown liant yellow passing into purple vermillion.

Price, 20c. each 3 for 50c. Price of any of the above Lantana plants, 15c. each; 3 for 40c

LEMON

American Wonder or Ponderosa

Quite a novelty of the citrus family, originated at Hagerstown, Md., from the seed of an ordinary lemon. The original plant when quite small bore fruit of extremely large size, much to the amazement of its originator. Cuttings from this plant produce a large stock. Horticuturant apparts propulated it a cross between produce a large stock. Horticultural experts pronounce it a cross between the ordinary lemon and the graperuit or Pomelo, the hybridization being formed by a bee. This, in brief, is the history of the lemon. It inherited the large size of the Pomelo, and the acidity of the lemon. The plant is of rapid growth, with large dark green foliage, and often bears fruit weighing 3 to 5 pounds. Flowers are pure waxy-white and resemble orange blossoms, only larger and more compact and exceedingly sweet ble orange blossoms, only larger and more compact and exceedingly sweet scented. An elegant plant for porch or lawn decoration. Very ornamental on account of its large, shiny, foliage and its wonderful immense fruit, which is produced very freely. It is of easy culture, flowering and fruiting in any good ordinary soil. The fruit is edible and may be used for all culinary purposes; nografting or budding necessary. 18c. each; 2for 35c.

PALM, "Kentia Belmoreana" The Kentia Palm, besides being one of the most graceful and ornamental of all palms for the house or conservatory, is also one of the hardiest and easiest to grow and will continue to increase in size and beauty for years. Price, 25c. each; 2 for 45c., postpaid.

VIOLETS == CALIFORNIA—This is the largest and most productive Violet in cultivation. For richness, purity of color and fragrance of flower it is unequaled. It is a single flower,

House Culture and it has that sweet simplicity peculiar to the Violet. The color is pure, rich violet-blue, that does not fade. Extremely free flowering, a single plant producing hundreds of flowers throughout the season.

DOUBLE BLUE VIOLET—Lady Hume Campbell—Certainly the most valuable double Violet in cultivation. Of strong, healthy growth and a remarkably free bloomer. Color, dark purple. So persistent is its blooming that young plants in 2 inch pots last spring were literally covered with no trouble, and plants in the color of the producing splendid effects, the plants being covered with a solid mass of their large showyheads of bright pink bloom which remain be autiful for months; They can be wintered in any cool cellar with no trouble, and plants in the color of the plants in the plants in the plants being covered with a solid mass of their plants being covered with a solid mass of their with

HARDY HYDRANGEAS

Everblooming Snowball Hydrangea

Everblooming Snowball is something out of the ordinary; perfectly hardy, having stood a temperature of 20 degrees below zero without injury. The flower is much like the greenhouse Hydrangeas and pure white. The panicles are of immense size and the everblooming habit is remarkable being in bloom from June until September. Price, 18c. each, 3 for 50c. postpaid. for 50c, postpaid.

Paniculata Grandiflora, one of the finest hardy shrubs ever introduced. Bush attains a large size and is in full bloom from August until October. Blossoms pure white, changing later to a pinkish hue. A few planst are a great sight. Price, 10 each, 3 for 27c.

A grand Pot Plant of great beauty and a splendid novelty. It is a dwarf orange that grows, blooms and fruits freely in pots, even when only a foos or two high. The fruit is about one-half the size of an ordinary orange, and is very sweet and luscious. The bloom() are produced in the greatest abundance, are delicate and beautiful in colance, are delicate and beautiful in color, and rich in delicious perfume. In blooms most freely during the winter, although it is very likely to bloom and all times of the year. With one or two plants you can raise an abundance of fragrant blossoms and we know you will be more than pleased with it. Troone or two of these plants this year.

18c. each, 2 for 30c., postpaid

They are perfectly hardy, succeeding in any garden soil, and producing magnificent spikes of showy and lasting flowers year after year with comparatively little care. Height, 1 to 2 feet. We offer a good selection of colors in a mixture, such as Bright Red, White with Crimson Eye, Deep Crimson, Orange Salmon with Purplish Crimon Center, etc. Price dormant roots, 15c each, 6 for 80c. 12 for \$1.50 postpd

CLEMATIS

GOLDEN ORIENT-(Clematis Orientalis)-A GOLDEN ORIENT—(Clematis Orientalis)—A Wellow Clematis. A splendid companion variety to Clematis Paniculata. The flowers are produced with mearly the same wonderful freedom, but are a bright yellow, a color not at all common in this family of plants and all the more welcome for this reason. The variety is native to the Himalaya mountains and is thoroughly hardy in all parts of this country. It grows with wonderful luxuriance and will quickly cover an arbor, veranda or pergola. Price, 20c. each, 3 for 55c., postpaid.

PANICULATA—One of the most valuable of all hardy flowering vines. Of exceedingly rapid growth, soon reaching a height of 15 to 20 feet and spreading out in all directions. Small, pure white flowers, borne in great masses of panicles or clusters on long stems, so profuse as to fairly cover the plant with a sheet of fleecy white. Its blooming period is in August and September, when most other vines have ceased, and it is then a sight to behold. Hardy as an oak. Price, 15c. each, 3 for 40c., postpaid.

One each of the two small-flowering varieties, Golden Orient, yellow, and Paniculata, white, for 35c., postpaid.

Clematis cannot be supplied after May 1st.

SWORD

HARDY GARDEN CARNATIONS (Scotch Pinks) 7 5

These beautiful Carnations are particularly valuable or bed borders and edging in the gardens, lawns, parks and cemeteries. They are entirely hardy, need no proand cemeteries. They are entirely hardy, need no protection and bloom regularly every season without attention. They are very fragrant, giving out a rich spicy fragrance that is particularly attractive. A single plant will grow from twelve to eighteen inches in diameter.

Price, 15c. each: 3 for 40c., postpaid.

FOUR BABY ROSES

BABY RAMBLER, Crimson—This is decidedly the greatest rose-novelty introduced in recent years, and a seedling of the well-known Crimson Rambler with which it is identical in all but habit of growth and blooming, being a pronounced dwarf, very quickly reaching a mature growth of eighteen inches to two feet which it rarely exceeds; as a bedding or border plant it is incomparable; a superb, rich, crimson in color, blooming in as immense clusters as its parent, the Crimson Rambler. The Baby Rambler is, in addition, a more continuous bloomer than the tender Tea Roses, bearing its wealth of flowers from early spring until frost. Grown as a pot plant, indoors, we always in bloom.

BABY DOROTHY, Pink—This is a splendid companion rose to the crimson Baby Rambler. It was originated by the same grower and is just as vigorous and free bloomer. Practically the only difference is in the color of the flowers which are a very bright and pleasing rose-pink. It is much the color of that charming climbing rose, Dorothy Perkins, hence the appropriateness of the name, "Baby Dorothy." It is perfectly hardy and blooms without cessation from early spring until late in the fall. As a pink bedding rose it has no equal. We have counted as many as 100 blooms to the cluster on three year old plants. blooms to the cluster on three year old plants.

WHITE BABY RAMBLER, (true)—This is identical with the two above except in the color of the flowers, which is pure snow white. It has the true rose perfume in a high degree; perfectly hardy and we pronounce it a real Rose Novelty.

MRS. WM. H. CUTBUSH—A new Baby Rose of an entirely distinct color—light pink; of the same attractive habit of growth, and profuse flowering habit as other Baby Roses. The flowers are borne in huge trusses throughout the entire summer and autumn, and completely cover the entire plant. Fully as free flowering as the other roses of this type, and to our notion. the most attractive color of all. Entirely hardy.

Price any above, 15c. each, 3 for 40c., postpaid. Strong field grown 2-year-olds 30c. each, 4 for \$1.00 by express.

EVERBLOOMING TEA MONTHLY ROSES

WELLESLEY—Another New Rose, a seedling of Liberty crossed with Bridesmaid, retaining the form of Liberty with the fullness of Bridesmaid, and color a beautiful shade of pink; in addition, it is a healthy grower, remarkably free-flowering, and possesses unusually good keeping qualities.

DUCHESS OF ALBANY, (Red La France)—Practically identical with the Pink La France all but the color which is much deeper, almost a pronounced red.

PRINCESS
BONNIE- This
is one of the loveliest of ever-blooming roses. Its color is indescribable. A richer, deeper crim-son was never er, deeper crim-son was never seen in a rose, while its fra-grance is as sub-tle and delicate as that of La France.It is apro-fuse bloomer, and as easy of culti-vation as the most

ordinary rose.
RICHMOND -Its fine, crimson, scarlet flowers are borne on long stems making it especially valuable for cut-

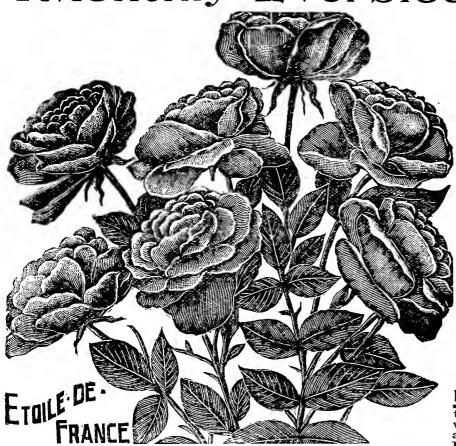

ting purposes. The most largely planted of any American red Rose. Has as delicious fragrance as the American Beau-ty, and we believe that in a short time it will take the place of any otherred rose.

Price of 1-year-old plants of any of the Above Monthly Everblooming Tea Roses, 15c. each; 3 for 40c., postpaid. Strong field grown two-year-olds, 30c. each, 4 for \$1.00, by express.

ETOILE DeLYON-A rich golden yellow; a strong, healthy and vigorous grower; immense bloomer. One of the best Yellow Roses and the best Yellow Tea Rose for outdoor planting.

PAPA GONTIER—A splendid Rose, extra large, finely formed buds and flowers, strong robust grower, free and constant bloomer, rich rosy-red in solor, very full and sweet.

CAROLINE MARNIESSE—An absolute hardy Rose that is always in dower. Color, pure white tinged with pink, medium sized, produced in clusters and very double.

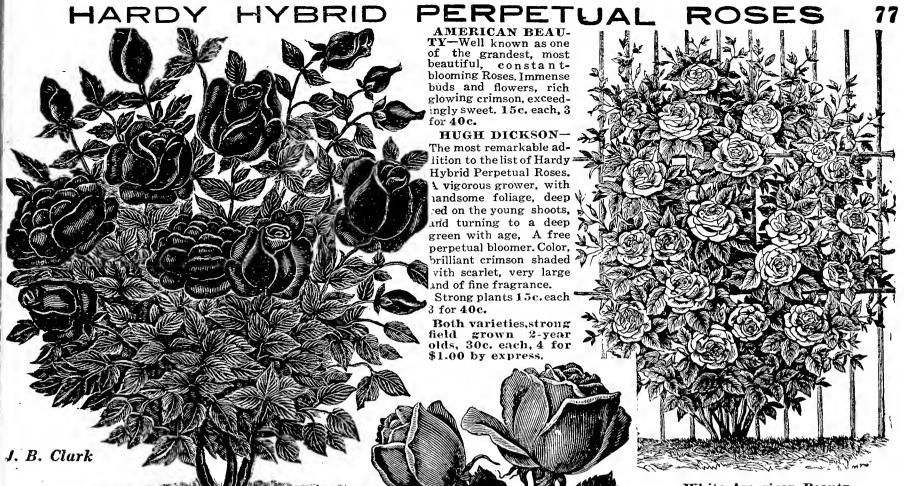

Price of any of these Five Monthly Everblooming Tea Roses, 15c. each, 3 for 40c., postpaid. Strong field grown 2-year=olds, 30c. each, 4 for \$1.00 by express.

TWO SOUPERT ROSES

CLOTHILDE SOUPERT—This is the best Rose known for bedding or pot culture. Color, a French white, deepening to a rosy-blush in the center, Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom; even the smallest plants being literally covered with flowers. It is valuable for garden purposes but more so for pot culture, and ranks first for blooming in the house. It is free from diseases and perfectly hardy.

PINK SOUPERT-A lovely everblooming rose, as beautiful as Clothild's Soupert, but deeper color; medium size flowers, perfectly full and doubles blooms all the time; color, fine rose pink, but variable. The same bush frequently bears flowers of different colors at the same time; grows bushy and bearedy

Either of the Soupert Roses, 15c. each, 3 for 40c., postpaid. Strong field grown 2-year olds, 30c. each, 4 for \$1.00 by express.

J. B. CLARK-This grand Hybrid Perpetual Rose has been J. B. CLARK—This grand Hybrid Perpetual Rose has been exhibited bearing flowers seven inches in diameter and five inches deep. Think of it! There is no description adequate to cover such a phenomenal Rose as this. It is a strong, upright grower, producing a handsome bush, as will be shown by the illustration, with splendid heavy dark bronze green foliage. Flowers are extraordinary in size, with beautifully formed petals of great depth and substance. Color, intense deep scarlet, heavily shaded with blackish crimson, giving the expanded flower an indescribably beautiful appearance. The fragrance is very sweet. Price, 15c. each; 3 for 40c.

CLIO—This is a grand Rose on the order of Baroness Rothschild. Flowers are flesh color, shaded in center with rose pink, large, of fine globular form, freely produced. Strong, vigorous grower and has handsome foliage.

15c. each; 3 for 40c.

CAPRICE—A fine striped Rose of great beauty. The flowers are large and finely formed, full and double. Deep, clear pink with wide stripes of pure white. 15c. each, 3 for 40c.

White American Beauty

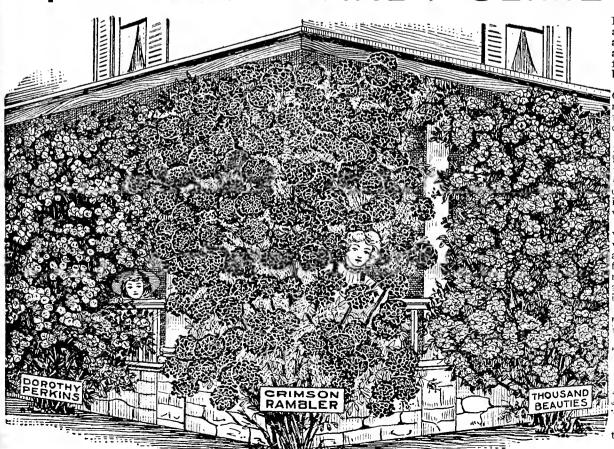

White American Beauty
WHITE AMERICAN BEAUTY
(Frau Karl Druschki)—This Hybrid Perpetual Rose is worthy of the name White American Beauty, The foliage is large and of heavy texture. The glory of this plant is its flowers, which are immense in size. An ordinary plant will produce hundreds of magnificent flowers, which are full, very deep and double, petals broad and long. The buds are egg-shaped, and long and pointed. The color is marvelous: snow-white without a tint of yellow, pink, or any other color. a tint of yellow, pink, or any other color. It is hardy anywhere. 15c.each, 3 for 40c.

MARGARET DICKSON-This handsome new white Hybrid Perpetual Rose was raised and sent out by the Messrs. Alexander Dickson & Son, of Belfast, Ireland. We do not hesitate to say it is the best Hardy Hybrid Perpetual Rose for the garden. White in color with pale flesh center; petals very large, shell shaped, of immense substance. 15c. each, 3 for 40c.

Any above Varieties, strong field grown 2-year-olds, 30c. each, 4 for \$1.00 by express.

BEST HARD IMBING

Hugh Dickson

ARE IN A SECURIOR

EVERBLOOMING CRIMSON RAM-BLER—Is found in almost every flower garden, as it is perfectly hardy in all parts of this country, and there appears to be something lacking in the appearance of the well-kept residence if it is not found trailing its way, displaying its clusters of beautiful crimson flowers about the veranda.

Now we have to offer the "EVERBLOOMING CRIMSON RAMILLER" as a glorious improvement. It is the old Crimson Rambler in growth and flowers, but it is an everbloomer, blooming continually all the season.

DOROTHY PERKINS—This beautiful hardy climbing Rose could be called Pink Crimson Ram-

climbing Rose could be called Pink Crimson Ram-oler, for it is just like it except in color, which is a most beautiful Shell Pink. Flowers are large

in most beautiful Shell Pink. Flowers are large size, borne in clusters of from 10 to 12 and are very double. It is exceedingly hardy, vigorous growing, making a growth of 10 or 12 ft in a season; very free bloomer, flowers sweet scented.

WHITE DOROTHY PERKINS—A pure white sport from the well known Dorothy Perkins, which it exactly resembles in habit of growth. Is a splendid companion for the pink variety, as it flowers at the same time. Was awarded a gold medal by the National Rose Society of England, also given an award of merit at the Temple Show in London, Eng.

THOUSAND BEAUTIES—This beautiful novelty surpasses all other climbing Roses, both

THOUSAND BEAUTIES—This beautiful novelty surpasses all other climbing Roses, both in growth, foliage and beauty of bloom.

Blooms profusely from June to end of July and the colors run through different shades; pink, ose, carmine, with various tints of crimson, white, tc. Imagine a Rose producing on the same such so many different colored flowers; impossible to describe or even picture the varieties. A single cluster of flowers is a bouquet of itself, tence its name "Thousand Beauties."

It is hardy, a strong, vigorous grower, nearly

It is hardy, a strong, vigorous grower, nearly thornless. A grand rose for porches, trellises, etc.

Price any above, 15c.each, 3 for 40c., post-paid. Strong field grown 2-year-olds, 30c. each, 4 for \$1.00 by express.

Weigelia, Candida

WEIGELIA

CANDIDA. This is the very best of all the white flowering Weigelias. (See illustration above.) A strong, upright, erect grower; flowers are pure white and produced in great profusion in June and continues to bloom throughout the entire summer.

EVA RATHKE. A charming new variety; flowers brilliant crimson, a beautiful, distinct, clear shade; flowers twice in one season.

 ${\bf ROSEA.}$ A hardy and beautiful shrub bearing in May a profusion of rose-clored flowers.

VARIEGATED. Fine, variegated foliage and lasts the entire season, contrasts finely with its rosc-colored flowers.

ELDER

GOLDEN, (Sambucus Aurea). When the leaves first appear, they are bright green, but if planted where they will get good sun, they change to a golden green. Best effect is had when planted with other shrubs, when the foliage will appear more conspicuous.

SNOWBERRY

Symphoricarpus racemosus. A well known shrub, with small pink flowers, and large white berries that hang on the plant through part of the winter.

SNOWBALL

HIGH BUSH CRANBERRY. Ornamental as well as useful. Its white flowers are followed by clusters of red berries resembling cranberries which remain on the bushes a long time.

SNOWBALL OR GUILDER ROSE. A well known old shrub bearing large balls of snow-white flowers in June. Perfectly hardy.

We can supply 1-year old plants of any of these varieties at 15c-each or 8 for \$1.00 postpaid.

Strong 2 year-old plants that will flower first year after planting at 30c. each or 4 for \$1 by express.

DEUTZIA

GRACILIS—A dwarf variety covered with white flowers in June, Fine for pot culture, as it flowers freely in a low temperature.

PRIDE OF ROCHESTER-Very large, double white flowers. A hardy, vigorous shrub tha does not suffer from insects or diseases and early in the season is fairly covered with showy double white flowers whose edges are slightly tinged with rose. Handsome, desirable shrub.

ALTHEA

(HIBISCUS)—A large shrub, sometimes trained into tree form, which blooms freely in September, when most trees are out of bloom. Hardy and succeeds everywhere. Also called Rose of Sharon.

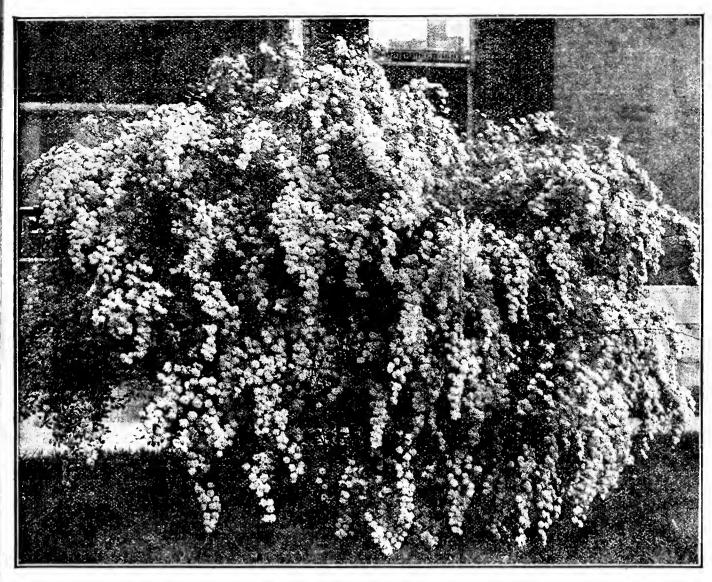

Forsythia, Suspensa

FORSYTHIA

SUSPENSA—A pretty weeping or drooping variety of the above makes a very effective and pretty shrub when covered with its yellow flowers in early spring.

Price of 1-year-old plants of any variety offered on this page 15c. each, or 8 for \$1.00 postpaid. Strong 2-year-old plants, guaranteed to flower first year after planted, 30c. each, 4 for \$1 by express

Spiræa, Van Houttei

VAN HOUTTEI-The finest and most valuable of all spiræas. either for individual planting or for use among other shrubs. It forms a round and graceful bush with arching branches which in June are covered from end to end with beautiful white blossoms, giving the bush a most graceful and beautiful appearance. The illustration will give you an idea as to its habit and free flowering qualities. It is literally a fountain of bloom.

THUNBERGII—Thunberg's Spiræa. Of dwarf habit and rounded, graceful form; branches are slender and somewhat drooping; foliage narrow and yellowish green; flowers white, appearing early in spring. One of the first Spiræas to flower. Esteemed on account of its grace. eemed on account of its graceful habit.

ANTHONY WATERER-Dark crimson, flowers all summer. This is one of the finest shrubs.

Philadelphus

GRANDIFLORA (Syringa or Mock Orange) One of the best and most popular shrubs. It is usually a tall, vigorous grower, with large foliage and flowers, and so is valuable for backgrounds, screens, grouping and specimens. The flowers are very sweet-scented, milk-white in most cases, and beautiful for cutting.

AUREUS-A striking shrub of medium size, with golden yellow leaves that remain bright throughout the season. Valuable for contrasted grouping,

THE TWO MOST POPULAR HEDGE PLANTS CALIFORNIA PRIVET JAPAN BARBERRY

(LIGUSTRUM OVALIFOLIUM). A remarkably vigorous grower, compact and regular in form with glossy wax-like foliage; a beautiful shade of green. It is recognized as the Ideal Hedge Plant. Thrives everywhere. Our plants are vigorous. Price 10c each, 3 for 25c. postpaid, 50 for \$3 by express.

(BERBERIS THUNBERGII) Valuable for making a low, dwarf hedge. Has rich green leaves that change to a fiery crimson in autumn. It makes a very hardsome hedge. Plant about 12 inches apart. Plants 20c each, \$1.50 per doz. postpaid; 2 yr. size 25c each, \$2.50 per doz. express.

HONEYSUCKLE

RED TARTARIAN (Bush Honeysuckle). Fragrant pink flowers in May, and beautiful, orange colored berries which hang on the bushes well into winter, making it a valuable shrub for winter effect.

WHITE TARTARIAN. Differs only in color of the flowers.

CLIMBING HONEYSUCKLE

H. HALLEANA (Hall's Japan). Very vigorous. Flowers open pure white and change to yellow. Very fragrant and floriferous. Leaves remain green to winter. The finest of all Honeysuckles.

LILACS

Lilacs are a class of shrubs embracing a large list of varieties, many of which are hardly dissimilar. We offer two distinct colors of the leading hardy kinds.

WHITE. Cream colored flowers. Very fine.

PURPLE. Large shining flowers, single, color red-sh purple. Very attractive. dish purple.

SMOKE TREE

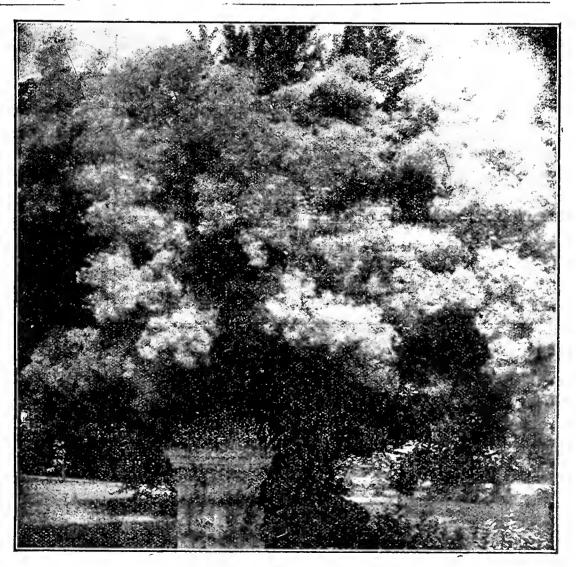

PURPLE FRINGE. A very elegant and ornamental large shrub. The large masses of misty purplish flowers, which cover the whole bush in June, give it the name of Smoke Tree, as it resembles very much a cloud of smoke in the distance. See illustration. The leaves change to various colors in the fall. We can recommend this as a highly attractive plant, worthy of a place in your collection of shrubs or trees shrubs or trees.

TAMARIX

These are very beautiful shrubs, with small leaves, somewhat like those of the Juniper, and delicate small flowers in spikes. They are invaluable for planting by the seaside, where scarcely anything else will grow. Foliage very fine and feathery on slim branches, flowers pink, very small and numerous so as to cover the branches of preceding year's growth. The peculiar flowers and leaves makes this an attractive shrub.

MATRIMONY VINE

LYCIUM BARBARUM. This is a rapid climber and its long vigorous shoots push upward 8 to 10 feet, and then recurve gracefully to the ground. Their entire length is covered with transparent, brilliant crimson berries late in summer. A handsome climber for porches or arbors.

Smoke Tree (Purple Pringe)

I-yr-old plants any variety on this page except Hedge Plants, 15c. each, or 8 for \$1 postpaid. Strong 2-yr-old plants, guaranteed to flower first year after planting, 30c.each or 4 for \$1 by express. 80 GLADIOLUS BULBS == We Offer the Best Collection of Bulbs on the Market.

This is the best double Tuberose in cultivation, blooms early, and bears immense spikes of large, pure white, perfectly double, sweet scented flowers. We offer very choice flowering sized bulbs. 5c. each, 6 for 25c., 12 for 45c., 30 for \$1.00, postpaid. By express not prepaid, \$1.00 per 100.

Mammoth Gloxinias

CINNAMON VINE

Perfectly hardy, standing the coldest winters, increases in size every year. It will quickly cover an arbor, window or veranda with a profusion of vinescovered with handsome glossy green heart shaped foliage, bearing great numbers of delicate white blooms with a cinnamon fragrance. When once planted it will grow for years.

Price 5c. each, 6 for 25c.; 12 for 40c., postpaid.

THE MAGIC LILY OF JAPAN

This Lily is distinct from any other in its large, beautiful pink flowers. Early in the spring it produces unusually attractive green strap-leaf foliage, too unique to compare with any other foliage we can mention. This foliage retains its full brilliancy until in July, when it ripens and disappears, and one not familiar with this plant would at this time judge that the bulb was dead. The most beautiful is yet to come. About three weeks later the bulb shoots a stalk from the ground like magic, to the height of three or four feet, developing a cluster of Lilies from six to fifteen in number, each from three to four inches across, with coloring of the most pronounced, yet delicate pink imaginable, shaded with clear blue. The first flower retains its beauty of color and shape even to the extremity of its petals until long after the opening of the last bud on the stem.

on the stem.

This Lily is perfectly hardy and succeeds in ordinary garden soil. The bulbs need no protection and can be planted in the fall or spring, but we advise spring planting. Cover the crowns about four inches.

Price of extra large bulbs, 20c. each, 3 for 50c...6 for \$1.00 postpaid.

BEGONIA == Tuberous Rooted

This grand plant is a rival to the Gloxinia as a summer window or conservatory plant, and a strong rival to the Geranium and Verbena as an out-door rival to the Geranium and Verbena as an out-door bedding plant. The enormous size and intense brilliancy of the flowers astonish those who have never seen any but the ordinary house Begonia. The bulbs can be started from March to June and will soon be in full bloom. They must be kept from direct sunshine, a good place for them is the north side window or if planted out, in some partly shaded place. Our strain of both single and double is a very superior one many of the flowers measuring three superior one, many of the flowers measuring three to five inches in diameter. We offer single and double bulbs in all the various

colors and markings.
Single—All colors mixed, 6c.each,6 for 30c.

Single—A 12 for 50c.

Double—All colors, 10c. each, 3 for 30c. 6 for 50c., 12 for \$1.00.

PEONY

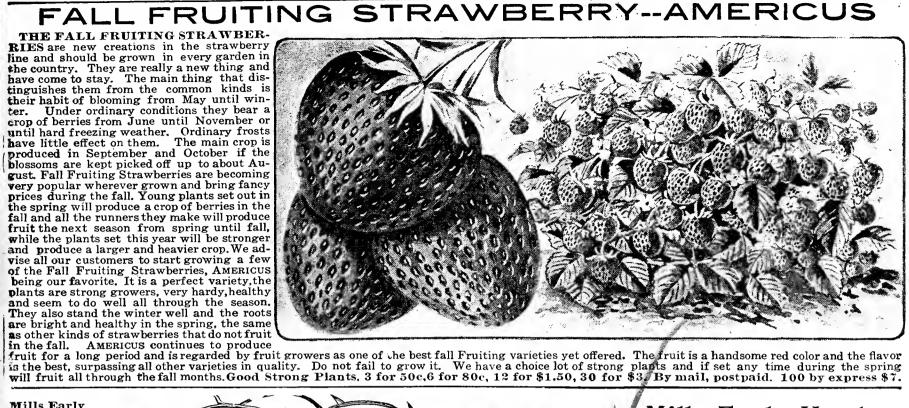

A noble flower, almost rivaling the rose in brilliancy of color and perfection of bloom. The first point in its favor is hardiness. It may be truly said to be "hardy as an oak." The plants require no other protection than that which they afford themselves. Their vigorons habit, healthy growth and freedom from all diseases are important arguments in favor of their cultivation. Each succeeding year adds to their size and their cultivation. Each succeeding year adds to their size and beauty. Rich, glossy foliage of a beautiful deep green. The peony may be planted singly on the lawn or used in a border. Flowers early in month of June. White, pink and crimson. Will send you one plant for 40c. or one of each kind, 3 plants for \$1.10, or 4 of each kind, making 12 plants in all, for \$4.50, by express.

CHOICE NEW AND RARE FRUITS

Every garden should have a good supply of fruit. It is an indispensable part of any rural home. It can be made a source of pleasure and profit. Beginning with strawberries in May, the supply of fresh fruit direct from the plants may be had until hard frosts in the fall if a good selection of our plants is planted. Examine our list carefully.

L FRUITING STRAWBERRY--AMERICUS

Mills Early Hardy Prolific Strawberry

In all our experience in Strawberry growing, we have never found a variety to equal this one. It fruits most profusely; is the earliest of all varieties, and continues fruiting for a long period. The plants grow very strong and vigorous, while the fruits are large and uniform in size, of a rich bright, crimson color and excellent flavor. It begins ripening very early in the season and continues to bear fruit until very late. The commercial grower who wants to keep up with the times and make money on early berries will be behind if he does not have a stock of these planted this spring. It continues to fruit day after day and when once grown will be a favorite. Be sure to give it a trial

Plants, 6 for 30c, 15 for 60c, 30 for \$1 postpaid. By express, 100 for \$2.

THE NORWOOD

Claimed to be the largest Strawberry in existence. The plants grow strong and healthy. Berry is conic and regular in shape, quality is unsurpassed and the size unequalled, some attaining the enormous size of three inches in diameter. Four such berries would fill a box and be crowded. Color is bright red all the way through, growing darker with age, is firm, a good keeper and will ship well. It has a perfect blossom, holds its size well through the season and remains in bearing a long time. Even the plants grow larger and stronger than other Strawberries.

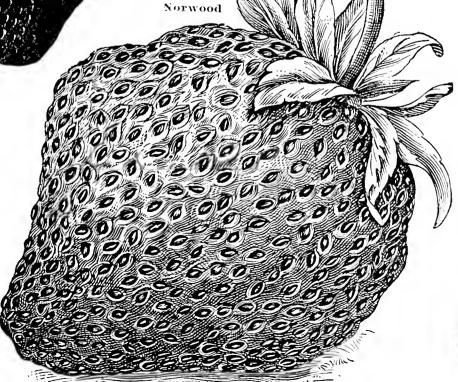

Plants, 6 for 30c, 15 for 60c, 30 for \$1.00 postpd. By express, 100 for \$2.00.

KELLOGG'S PRIZE

The most wonderful Strawberry ever originated. The berries are sometimes as large as a hen's egg, very brightly colored, and the flavor is delicious. The plants bear abundantly. Among the summer fruiting varieties, this one is unquestionably the leader. In fact, its splendid qualities cannot be overestimated. Plants, 10 for 30c, 20 for 50c, 50 for \$1.00 postpaid. By express, 100 for \$1.50.

THE FENDALL

Fendall is called the Giant Berry. Its fruits are large and are produced in great quantities. 16,300 quarts are said to have been picked from 1 acre. Hardy and will grow in a wide range of territory. Has a very lengthy fruiting season, berries having been gathered from the middle of May till July. The fruit has a delicious flavor. One of the most popular pistillate varieties. Plants 10 for 30c,20 for 50c,50 for \$1,postpd.By ex.100 for \$1.50

Known also as Ewing's Wonder

Known also as Ewing's Wonder

A wonder indeed! In growth, excellence and productiveness. The canes are like grape vines in vigor—growing under favorable conditions twenty feet or more in a season; the fruit is of the highest quality and a single piant has produced over eighty quarts of berries in one year. The berries are coal black, extremely firm, as large as those of the Ward, or any of the popular varieties, melting and of sprightly flavor. It has undoubtedly descended from the widely known cut-leaf or evergreen blackberry, but is unlike it in flavor and ten times as productive. It holds its leaves until well into the winter and the canes are very hardy and are entirely exempt from fungus and insect attacks.

The following statement does not read like a conservative one, yet it is, and was made by conservative men of authority. It was issued by Mr. Franklin Dye, secretary of the New Jersey State Board of Agriculture, after visiting the grounds of Mr. Ewing, in company with a number of eminent horticulturists:

"The Ewing's Wonder Blackberry is all its name implies and exceeds in productiveness the most sanguine expectations. When the promoter first told us of its growth and yield we were decidedly skeptical and thought he was romancing. A visit to the farm and to the blackberry field and inquiries among the neighbors dissipated all doubt.

"The berry is of medium Ewing's Wonder

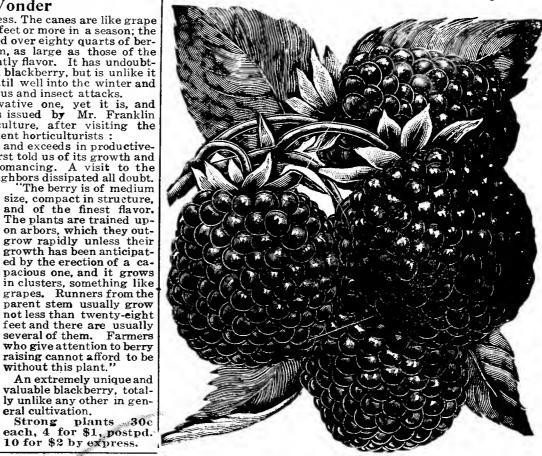

Photo of Cluster size, compact in structure,

Photo of Cluster size, compact in structure, and of the finest flavor.
The plants are trained up-Ewing's Wonder raising cannot afford to be without this plant." Photo of Wonder Cluster Black= Ewing's berry

ELDORADO

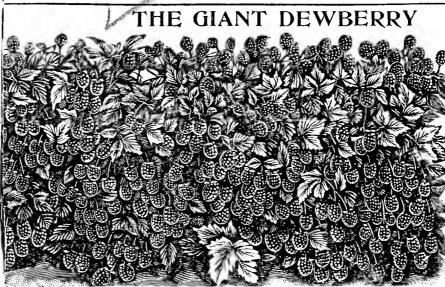

One of the valuable varieties for home and market use. One of the valuable varieties for home and market use. A strong, upright grower, moderately full of thorns. Is about equal to Snyder in productiveness. The fruit is jet black, never coloring red after picking, fully as large again as the average Snyder berry. The flavor is excellent, differing from all others in that respect, imparting a rich aroma, melting and juicy, with but little core. Highly recommended by experimental stations and growers everywhere. Berries sell for 50c. to \$1 per bushel in advance of Snyder. Eldorado is unquestionably one of the best commercial blackberries grown. The finest quality of the blackberry family. Strong plants, 5 for 50c., 15 for \$1.00, postpaid. 100 for \$4.00 by express.

Blowers Giant Blackberry

BLOWERS GIANT BLACKBERRY

In describing it a large fruit grower says: "Blowers is such a sturdy grower that the canes, if unchecked, attain a height of 10 to 12 ft. and are as hardy as an oak." The Blowers yields very heavily and for a long season. The fruit is large, handsome, and of superb quality, very juicy, with small seeds. Mr. E. P. Powell, the well known horticulturist, declares: The best I have ever tested." Its canes have endured a temperature of 20 degrees below zero unharmed and it has yielded at the rate of 280 bushels per acre. Begins to ripen in midseason, continuing a long time, Plants, 3 for 25c, 6 for 50c, 12 for 75c, postpaid. By express, 100 for \$4.00.

The Giant Dewberry is earlier than blackberries and as large as the largest of them, Canes are hardy and very prolific, thriving every-where; of slender, trailing habit and free from disease or insect attacks. Fruit large handsome, jet black, rich and melting. Ships and keeps well. Perfectly hardy, stands ex tremes of cold and heat. A very pro-ductive, pleasing berry. Strong plants, 3 for 25c,6for50c,15 for \$1 postpd

GIANT CARDINAL RASPBERRY

This wonderful berry is a surprise in many ways—its great growth, extreme hardiness, and the exceeding productiveness of its choice purple, pure flavored berries. It will pay to grow it everywhere. Not a novelty, but a variety of great merit. Leading hosticulturists say that it is one of the but a variety of great merit. Leading horticulturists say that it is one of the wonders of the century, exceeding all others. The president of the Kansas State Horticultural Society said, at a meeting of the society, that the Cardinal Raspberry would add millions to the wealth of the farmers of the country because of its great vigor and exceeding preductiveness.

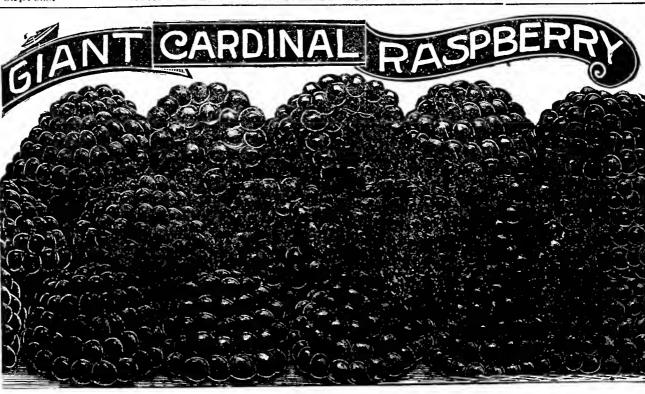

ceeding productiveness.

Plants, 3 for 30c, 6 for 50c, 12 for 75c, postpd. 100 for \$4 by ex.

CUTHBERT or Queen of the Market

Fruit is large, firm, luscious and pro-Fruit is large, firm, luscious and produced in the greatest profusion. Color deep, rich crimson. Ripens from July 19to 20, continuing long in fruit. Entirely hardy, yields heavy crops. Follows Marlboro in season of ripening.

EVERBEARING ELACK RASPBERRY This is a wonderful black

This is a wonderful black before, and will actually lear fruit from June until killed by frost in the fall. The vines are literally loaded with fruit in all stages—from bloom to ripe fruit. It

sreates great surprise eve-where it is grown, for it

4. Berries are bright crimson, of large size and of surpassing quality—rich, sugary, with full raspberry flavor. They are of exceedingly meaty, firm texture and keep in good condition longer, after being gathered, than any other red raspberry. As a shipper it is unexcelled.

5. The canes are of strong, stocky growth, with a
great abundance of dark green, leathery leaves. It succeeds upon all soils, whether light and sandy
cold heavy clay, and the canes are absolutely hardy.

Price of strong plants are absolutely hardy.

Price of strong plants 15c each, 3 for 30c, 6 for 50c, 15 for \$1 by mail postpaid. By express, not prepaid, 50 for \$2.50, 100 for \$4.00

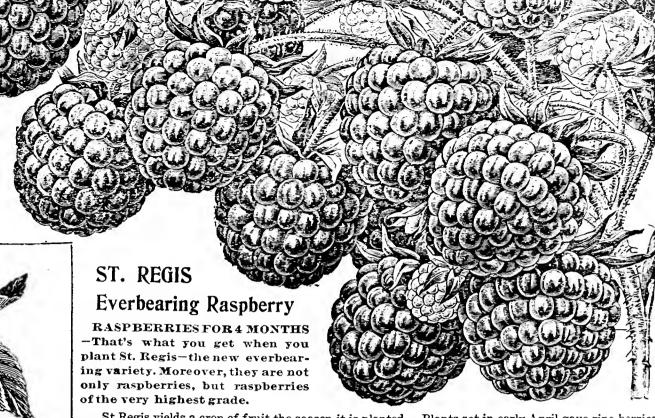

FRUITING TREE RASPBERRY FALL

We are pleased to be able to offer this Fall Fruiting Tree Red Raspberry. This berry was originated in the state of Illinois, and the originator who has been growing it for several years, and marketing its fruit at fancy prices, has been very careful not to allow it to be offered to the general public. It is really remarkable variety, and we have pleasure in offering this grand new berry. To fully describe it we can do no better than to give the originator's descripon, under date of Nov. 27th.

This is to certify that I have been growing the new Fall Fruiting Red Raspberries for seven years, together with several of the other standard varieises, and can truthfully say that they never fail to have the largest crop of any red raspberry that I have ever grown. They are not only more productive than any other variety, but the berries are much larger, firm, bright flame color, and the finest flavor.

The canes branch like trees, and every branch is laden down with its heavy crop of fine, large berries, which always bring the highest price in the Northern markets, where nothing but strictly first-class fruit is wanted. They always kell for 50c. to \$1 per 24 pint crate higher than any other variety I have grown, first shipments bringing \$5.00 to \$5.50 per 24 pint crates on the Chicago mark-The vines are more free from disease than any variety I have ever grown. They are very vigorous and stocky, many of the canes bein: $4\frac{1}{2}$ inches in circumference and 8 to 10 feet high. The last season's canes had an enormous load of berries during the months of June and July, and the current year's growth, or new vines, bore a heavy crop of berries during the months of Augrst, September. October, and November, making it an almost everbearing raspberry. The flavor of the fall crop is just as fine as the June crop, and saying nothing about the fall crop, I consider this the most profitable variety grown. From 1/8 of an acre I cleared \$94.00 for what I shipped to Chicago, and we used all we wanted on our table, and canned a lot for winter use beside. We have gathered 6 crops from this same field, and it is just as fine now as ever, only the growth was not quite so vigorous, on account of the dry season.

We know this berry will create a great sensation wherever grown, and we want every one of our customers who grows fruit of any kind, either for market or home use, to try this one. Strong plants, 30c each, 3 for 60c, 6 for **32.00.** 15 for \$2.00, postpaid. By Express, not prepaid, 50 for \$4.00,

St Regis yields a crop of fruit the season it is planted. Plants set in early April gave ripe berries on June 20th of the same year. For four weeks thereafter the yield was heavy and the canes continued to produce fruit freely without intermission until the middle of October. The berries were large and beautiful, firm and full flavored to the very last.

St. Regis is of pure American blood and of ironclad hardihood, the canes enduring the severest cold uninjured, and are wonderfully prolific. Unlike Belle de Fontenay, Henrietta, Marvel of Four Seasons, and all other so-styled everbearing red raspberries that have preceded it, (and many others that are not everbearing) its foliage never suffers by sunburn or scald, nor is its growth of care impaired by the heat and drouth of summer.

the heat and drouth of summer,

In addition to the bright crimson color and large size of the fruit, it is so firm and rich in sugar that it will stand shipping two hundred miles, arriving at market in first class order; and can readily be keptin perfect condition for several days after being gathered.

The merits of this truly reliable everbearing raspberry may be summarized as follows:

1. It is the earliest of all red raspberries.

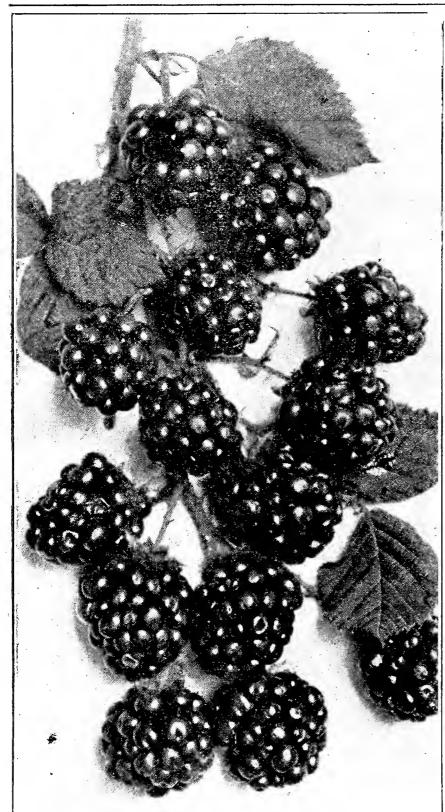

It is wonderfully prolific, the first, or main crop being far greater than that of any other red variety known.

3. It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen upon the young, i. e., current year's canes, which continue to produce berries in increasing numbers until late autumn; in fact, until severe frost

Tree Red Raspberry VERBEARING RASPBERRY

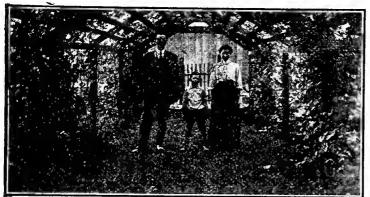

TRUE GIANT HIMALAYA BERRY

One of the Greatest Berries Ever Offered

This photograph shows a cluster of ripe Giant Himalaya Berries just picked from the vine. Could you ask for anything better?

Mrs. Geo. GILCREST, OSKALOOSA, IOWA, writes: "The Hima-laya Berry has made a wonderful growth of about fifty feet. The vines are thick and heavy. The plant appears to be very healthy."

F. MOODY, GRAND VIEW, Wash., writes: "I enclose you phofrom seed cannot be relled upon for frult or hard-bor is 12 feet wide, 42 feet long, and is covered from six plants. Some of the vincs have run 35 feet this season. The Berry beats the old Blackberry, and is better for jellies and canning. This vine is the wonder of the town.

from seed cannot be relled upon for frult or hard-liness. All our plants are grown from tested parent stock, as shown in the photographs, and we guarantee them TRUE.

This wonderful berry was recently introduced from the cold regions of the Himalaya Mountains. There are several different forms of it, but this seems to be the only one of general value: It grows like a grapevine, and can be trained to a trel is of any kind. The plant is extremely hardy, and for rapid and immense growth it is almost unbelievable. A single cane, under favorable conditions, will, if permitted, often reach a growth of fifty feet in a single season. Sprouts do not come from the ground like the blackberry, but start from the one root. These canes, when one or more years old, send out fruit laterals from sixteen to forty inches long, which

to forty inches long, which bear enormous crops, from 6 to 10 tons per acre. For these and other reasons apparent to the grower, the vines should be pruned and trained high with plenty of room. It should not be forgotten that the plant is a perennial, not an annual. and comes to perfection in three years. For the best results it should be treated as a fruit tree, and pruned accordingly. About four accordingly. About four canes should be allowed to grow from a root and train-

GIANT HIMALAYA BERRY

fruit is large, almost coreless, and unsurpassed for eating when picked fresh from the vines, or cooked, canned or preserved in any form. Plants do well in the hot, dry sections of the South and West, and are making wonderful records in the Middle, Northern and Eastern states. This is certainly a most won-

derful berry, because the vines do not die down after fruiting, as is the case with other berries, but continue to live and grow year after year like a grape vine or apple tree. It is perfectly hardy everywhere, there being no winter in the U. S. severe enough to kill it. It is valuable for city people or anyone with limited space who desires an abundance of luscious herwise.

Photo of a main stalk of a 5-year-old vine. Notice the immense size at the base: Himalaya Vines grow larger and stronger each year.

The GIANT HIMALAYA BER-RY is fine for covering old buildings, walls, summer houses, etc. It looks fine trained to a post on the lawn, tying the canes to the post. When they reach the top, pinch them back, and they will branch out and form a bush or Weeping Tree that is a beautiful sight in July, with its shell pink blossoms. Read what a few of our custom-

J. O. BICKHAM, HENDERSON, N. CAR., writes: "I send you photograph of one of my Himalaya plants 12 months old. Is the most wonderful berry known. Had some fruit this summer and I look for a heavy crop next year. This plant covers an arbor 15 by 15 feet."

JOHN A. MITCHELL, GAINESVILLE, ARK., writes: "The Himalaya Berry has made a growth far beyond my expectations. They have covered a trellis 40 feet each way and are still growing."

Another patron writes that he planted 2 plants in 1907, and in 1908 he picked \$31.00 worth of berries at 15c per quart. In 1909 he sold over \$54.00 worth of

Just think this over. \$31.00 worth of berries from 2 plants 1 year old. What would an acre of these berries bring you? Do you know of any better investment?

BEWARE OF IMITATIONS

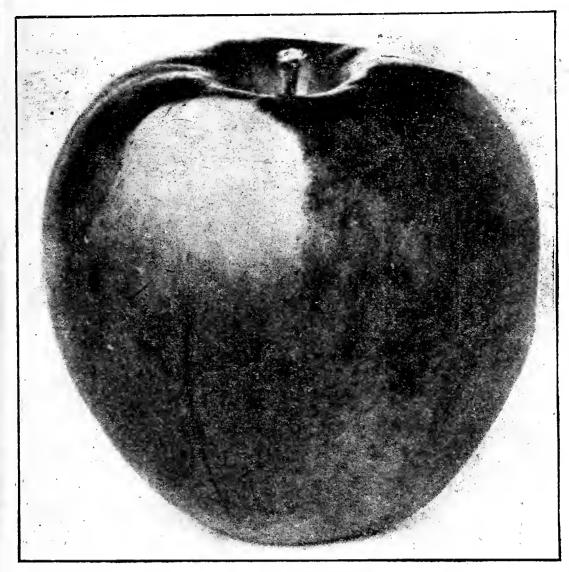

Glant Himalava Berry is a family by itself The English Cut Leaf Himalaya or plants raised from seed cannot be relied upon for fruit or hard-

Picking Giant Himalaya Ber-ries In the Garden.

Good strong plants by mail, carefully packed, 15c. each, 3 for 30c., 6 for 50c., 15 for \$1.00, postpaid. By express not prepaid, 25 plants for \$1.50, 50 for \$2.50.

APPLES == "THE KING OF ALL FRUITS"

Duchess of Oldenburg

AUTUMN VARIETIES

Gravenstein

Orange yellow with stripes of light and dark red; tender, juicy, aromatic, sub-acid. Good size and attractive appearance. In quality it ranks among the best. The tree is a strong grower and a sure bearer. Growers are making large profits from this variety. Sept. to Nov.

Wealthy

This variety is valuable for cold climates, the tree is hardy and bears well and early. A tree four years old has been known to produce three bushels of apples. Just figure what this would bring if you planted Wealthy as "fillers," 82 trees to the acre, each tree producing about \$3.00 worth of fruit. At the end of four years from planting this would bring you nearly \$250.00 per acre and your crop would increase from year to year. Its early bearing qualities make it valuable as a "filler" for orchards and very valuable for garden use. Fruit is large and round, covered with dark red, flesh tender, juicy, white. Quality good. Oct. to Jan.

WINTER VARIETIES

Baldwin

Without question, the leading commercial variety in New England, New York, Ontario, Ohio, Michigan, and in many sections from Colorado to Washington. You are taking absolutely no chances when investing your money in this variety. No variety yields larger crops, bears shipping better, or is more attractive in color, size, and shape. Thousands of barrels of this fruit are exported to England annually. Fruit is large, bright red, crisp, juicy and rich. Trees are vigorous and productive. Dec, to Jan. In Western New York the advice used to be, "If you are planting 1,000 trees, plant 999 Baldwins, and the other a Baldwin also."

Rhode Island Greening

This apple ranks next in popularity to the Baldwin. The tree does not come into bearing very young, but when well grown produces a large percentage of high grade fruit that is smooth, uniform and large, with very few undersized apples, and is strong and vigorous. The skin is thick and tough, and grass-green or yellow in color. The flesh is yellowish, firm, crisp, tender and sub-acid. The Rhode Island Greening is of the highest quality. In ordinary storage its season is from October to February, but in cold storage it may be held commercially until April.

Northern Spy

This variety ranks about third in commercial importance with the fruit growers of Pennsylvania, New York and Ohio, being surpassed by Baldwin and R. I. Greening. Fruit is large and very attractive, of bright red color, with a delicious bloom; flesh is very juicy, crisp, tender, and excellent for dessert or culinary uses. Its fine reputation causes it to bring a high price in the market, and the fruit is always in demand. Ready for use in November or December; keeps well in cold storage until April, or, if more carefully handled, until May. The tree is very strong.

Price of 2 yr. apple trees, any variety except Dwarf, 50c. each, 12 for \$5.00 by express.

Dwarf Apple

Dwarf Apples commence bearing fruit the second year after planting, and as they do not attain as large a size as standard trees, they are especially desirable for village or city gardens. The great advantage of these dwarf trees is that they bear fruit several years earlier, usually the first year after planting and produce more returns for a given space than standard trees. Heretofore city people have been obliged to buy all their apples because the size of their garden plot would not enable them to plant standard trees. There is no question as to the desirability of this new dwarf variety. Price of Dwarf Apple Trees, 60c. each, 10 for \$5.00 by express. The varieties we grow are Baldwin, Wealthy and Yellow Transparent.

No ordinary farm crop will produce such a good income per acre as a good apple orchard. No family can afford to dispense with the apple. Physicians say that if a person would eat an apple a day they could dispense with doctors' bills.

Money Making. Figure what a good investment a 10 acre orchard would be to you, Say you have 28 permanent trees to the acre, which you would have if planted 40 feet apart. This would of course leave room for "fillers" of early bearing apple or peach trees between your permanent trees. Each of your permanent trees will at 8 or 10 years of age produce about 10 bushels of good fruit, which at the lowest price would be worth about \$10, so you see 28 trees to the acre would produce \$280, and your 10 acre orchard would be worth \$2800 per year to you. In addition to that you would have been picking fruit from your "fillers" from the time they were 3 or 4 years old. The expense of the upkeep of your orchard would be less than \$800 per year, leaving a sure profit of \$2000 a year. What better investment could you make? What other farm crops will do this for you? None.

SUMMER VARIETIES Red Astrachan

Tree hardy and regular bearer; a very vigorous grower; fruit large, roundish, nearly covered with deep crimson, overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of all the summer varieties. July and August.

Duchess of Oldenburg

A large, beautiful apple; roundish: streaked red and yellow; tender, juicy, pleasant. A kitchen apple of the best quality. Tree a fine, vigorous grower and an abundant bearer. The hardiest fall apple. Duchess is the most valuable commercial variety, a sure cropper, hardy as an oak, and a wonderful variety. We recommend Duchess for either orchard or garden planting. August and September. and September.

Early Harvest

Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer. Excellent for orchard and garden; one of the first to ri-

Dwarf Apple Tree

CURRANTS

The growing of this fruit and the Gooseberry is The growing of this fruit and the Gooseberry is the easiest and least troublesome, and at the same time among the most profitable of any the fruit grower has to deal with. About the only thing to do is to keep the weeds down and to gather the crop which latter process does not demand that close attention necessary for other berries. They mature just before Raspberries and can be used either raw or cooked. Being very hardy, they do not winter kill and are easy of cultivation, requiring little care. They can be grown in any good garden soil. An acre yields from 200 to 250 bushels of fruit, bringing a price of from \$4.00 to \$5.00 per bushel. Plant 4 feet apart each way and mulch with good manure.

Crandall's.

This variety is often used as a flowering shrub as it has large yellow flowers which are produced in great profusion. Fruit is very large, black and unexcelled for jams, tarts and jellies.

Fay's Prolific

Has fully satisfied all the claims that were made for it by the originator when first introduced, and is the best red currant known. It has been widely planted, and has given general satisfaction; fruit large, bright red, and excellent flavor, less acid than Cherry. It has a long stem, which admits of rapid picking, and is enormously productive. One of the most valuable fruits of recent introduction. Comes into bearing early.

Lee's Prolific

The largest berry and bunch, and best in quality and productiveness of any black variety yet intro-duced. Fruit large and fine quality. Black. Is enormously productive.

White Grape

The best of all white currants and it should be planted in every garden owing to the great beauty

of the fruit as compared with other varieties.

Our plants are strong well rooted plants that will bear fruit early. We offer only the best va-

rieties. Price of any of the four currants, 20c each, 10 for \$1.75, 100 for \$12.00 by express.

Adams New Prolific Elder Berry

After carefully testing this variety, we found it was superior in productiveness. size and quality to the wild varieties, and at once arranged for the entire control throughout the United States and Canada. We can highly recommend it.

The following is the description written by Mr. Adams:

"In describing Adams New Prolific Elder Berry, I will say it originated on my place in Cayuga County, N. Y., about 7 years ago. The plants grow very strong, my place in Cayuga County, N. Y., about 7 years ago. The plants grow very strong, from eight to twelve feethigh, and produce great quantities of fruit stems containing a large number of berries. As high as 1750 berries have been counted on one stem. They are of extra large size, four of them placed side by side measuring one inch. The flavor is of the finest and the berries contain but very few seeds. All the stock propagated from the original bush is large, and as fine as the original. The plants are perfectly hardy everywhere, and this cultivated variety which I have originated is far superior to any of the wild varieties that can be found in this country." Why not have a few plants of this Mammoth Elder Berry growing in a corner of your garden? You will then have a good supply of berries at your disposal each year, A single plant will produce great quantities.

Price 25c each, 3 for 60c, 6 for \$1.00 postpaid.

Strawberry=Raspberry

This is a beautiful fruit from Japan. The bush grows from 1½ to 2 ft. high, is perfectly hardy and a rapid grower. The berries are produced on stems growing upright a-bove the foliage as shown in bove the foliage as shown in illustration always of a bright shining scarlet, and larger than the largest Strawberries. It is an immense yielder, producing an abundance of fruit, bears the first season and gets stronger each year. It is very attractive and a few plants will be the wonder of your neighborhood.

Plants 3 for 15c,6 for 25c. 15 for 50c. postpaid.

15 for 50c, postpaid.

Downing

GOOSEBERRY

DOWNING

Largest and best of native American varieties. Of fine quality, beautiful appearance vigorous growth, and is free from mildew. Has no spines, color transparent, tending to yellow. Bush upright, keepe fruit from sand. Enormously productive. Being native to America, plants are sold at a lower price than foreign varieties. Within a few years, 1 are can be made to bring \$500 acre can be made to bring \$500 Unsurpassed for canning.

HOUGHTON

Medium size, pale red, sweet and juicy; vigorous grower, abundant bearer. free from mildew. Sweet, good in flavor and quality.

PEARL

The most prolific. One bush produced 2,500 berries. Free from mildew, larger than the Downing. Color is light the Downing. Color is light green and quality first class. A valuable variety for home

A valuable variety for home use or market.
Price of any of the three gooseberries, 20c each, 10 for \$1.75, 100 for \$12 by express.

The Bartlett is by far the best and most popular of all Pears, both for market and home use. Large and when fully ripe is a beautiful waxen yellow with a soft blush on the sunny side. The fruit ripens at a time when there is no competition with other Pears, making a most profitable market variety. Its flesh is buttery and melting, and has a rich musky flavor. You will never make a mistake by planting the Bartlett.

August and Sentember

August and September.

A most dependable cropper, often A most dependable cropper, often fruiting the first season after plant-ing. Fruit large, frequently weigh-ing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all-around profit-able market pear. Oct. and Nov.

SECKEL

A beautiful and delicious little pear; the standard of excellence in its class. One of the richest and highest flavored pears known. Al-ways in demand for desserts and ways in demand for desserts and better known than any pear of its class. The tree is very productive. This variety is so popular with consumers that it has a market price of its own. When there is a glut in the market with other varieties, the price and demand for Seckel keeps up to the standard. October.

KIEFFER

Large, rich golden yellow, some-times tinted red on the sun exposed Bartlett

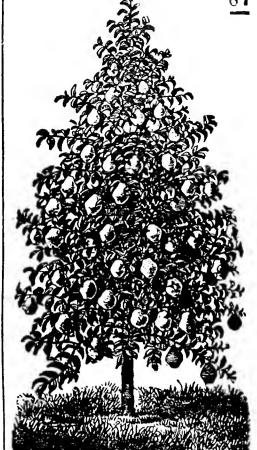

Bartlett

Bartlett

The tree is so hardy and free from insect pests as to give it greater value than most other varieties, and widely planted throughout the country.

Price of strong 2-year old Pear Trees, any above variety offered, 60c each, 10 for \$5.00 by express-

Price of strong 2-year old Pear Trees, any above variety offered, 60c each, 10 for \$5.00 by express.

BUSHEL FROM A 4 YEARS OLD KIEFFER PEAR TREE. DWARF PEAR TREES

The Dwarf Pear, like the Dwarf Apple. bears fruit very early, does not grow so large a tree as the standard trees, consearge a tree as the standard trees, consequently is valuable where space is a consideration. It is also valuable for commercial planting, being an ideal "filler" in orchards of standard pears or apples. Although tree is dwarf, the fruit is as large as those produced by standard trees.

Dwarf Pear Trees 60c each, 10 for \$5.00 by express. We grow Bartlett, Duchess d'Angouleme and Kieffer.

Elberta

PEACHES ELBERTA

The leader of all Peaches and the greatest commerand the greatest commercial variety on the market; 50 per cent of all the Peaches planted are Elberta. It will thrive where any peach can be grown. A beautiful Peach of good quality. Elberta is hardier in bud than many varieties. Large, yellow, red cheek, juicy and high flavor, flesh yellow, freestone. Season early September.

CRAWFORD'S **EARLY**

A magnificent large vel-low Peach of good quality. Tree vigorous and prolific. Its size, beauty and pro-ductiveness make it one of the most popular varieties. Freestone. Early Sept.

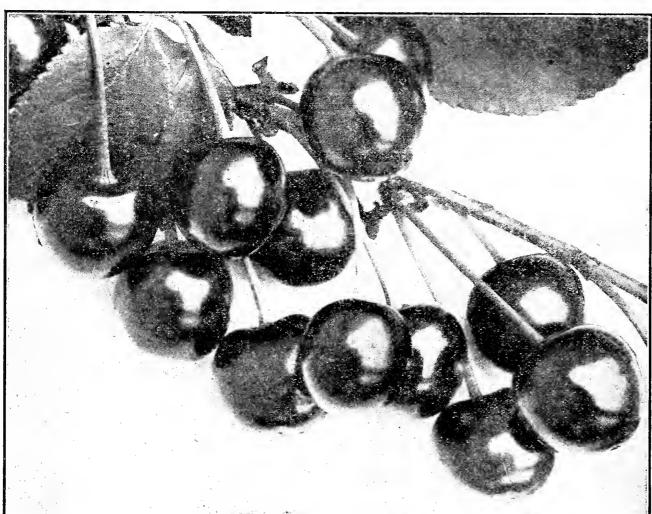

CHAMPION

A very large Peach, sometimes measuring 10 inches in circumference. It is very hardy and productive. Both the tree and fruit buds have stood 18 degrees below zero, and produced a full crop the following summer. The fruit is fine flavor, sweet, rich and juicy. Skin is creamy white with a red cheek, very handsome. Is very prolific and fruit ships well. Freestone. Ripens end of Aug. end of Aug.

CROSBY, called the Frost=Proof Peach. A fine handsome yellow Peach with remarkably small pit, that bears regular crops North of the Peach belt, Quality superb; season follows quickly after Early Crawford. Crosby is now so well known that it will be no experiment planting it. It has been planted in nearly all Peach growing states, and is spoken of in the highest terms. Many large orchards of this variety have been planted the past season. The strongest claim for its superiority made over other varieties is the frost proof character of its fruit buds.

Price of Strong Trees, any of above varieties of Peaches, 50c each, 12 for \$5.00 by Express.

NONEY IN CHERRIES== Cherries commence to bear fruit very young, and a three year old cherry tree duce about 150 pounds. One acre will grow 100 trees: figuring 150 lbs. to the tree, this acre will produce 15,000 lbs., which if sold at 7c per pound would bring a return of \$1,050 per acre. The Best Investment You can make is in a Cherry Orchard. 88

Mont morency

Gov. Wood = One of the finest of the high colored cherries. Fruit is large, tender, juicy and of fine quality. The tree is vigorous and productive, one of the best shaped of all the Cherry varieties. Fruit ripens in June and hangs well on the tree. We recommend this cherry very highly.

Lambert = A wonderful variety of the sweet cherry and one of the largest. The skin is dark purplish-red, almost jetblack when ripe. Flesh is firm, and juicy. The tree is hardy, a strong grower and an enormous bearer.

PLUMS

We grow only the leading varieties of proved merit, so our patrons can make no mistake in selecting from our catalogue.

ABUNDANCE

One of the most popular One of the most popular of all Japanese varieties. Favorable everywhere, and should be in every collection. Fruit is large, showy and beautiful, of a bright cherry-red. Flesh yellow, firm, juicy, sweet and very delicious. Stone is small and parts freely from the flesh. Its season is very early, which adds is very early, which adds greatly to its value. The tree is vigorous and exceedingly productive. It is liable to overbear unless thinned.

BURBANK

Much like Abundance, except that it is much deeper in color, and ripens deeper in color, and ripens from ten to fourteen days later. It is one of the handsomest plums on the market and always finds a ready sale. The fruit is large, reddish purple. Flesh yellow, juicy and good. The tree is very vigorous. It will withstand the frost better than most varieties. We recommend it very highly. recommend itveryhighly.

GREEN GAGE

Yellowish green when mature, flesh pale green. melting, luscious, sweet Considered the standard of excellence. Moderate grower, very free bearer. ripens middle of August. SOUR CHERRIES EARLY RICHMOND

This is one of the most valuable and popular cherries and is unsurand popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish, spreading head, exceedingly productive. Fruit is medium size, round and dark red. The flesh is tender, juicy and subacid. Ripens in June.

MONTMORENCY

MONTMORENCY

This cherry is the best of all the sour varieties. There is a greater demand on the market for this cherry than for any other.

The trees are the cleanest and best growers, and are less subject to disease, less affected by wet weather, and are the best bearers of the best fruit of all other sour varieties. No matter how unfavorable the season, it can be depended upon for a full crop. A good shipper, very attractive, and brings a good price. Canning factories buy hundreds of tons. Fruit is good sized, fine flavored of a bright, shining red, Ripens 10 days after Early Richmond, Flesh subacid, of fine quality. acid, of fine quality.

SWEET CHERRIES **BLACK TARTARIAN**

This is a large, black, heart-shaped This is a large, black, heart-shaped tender, juicy sweet cherry of unsurpassing quality. The tree is upright, a dense grower, remarkably vigorous and a regular bearer of immense crops. In 1910 a fruit grower in Michigan produced fruit from this tree which sold at the rate of \$4,000 per acre. Fruit ripens last of June or first of July.

Strong two-year-old trees, any variety Cherries offered, 60c. each, 10 for \$5.00, by express

Abundance

Shropshire Damson = One of the favorite Damsons. Fruit oval. Tree a good grower and enormously productive. Fruit of medium size, produced in thick clusters or groups, dark purple color, esteemed for preserving. Always sells well. October.

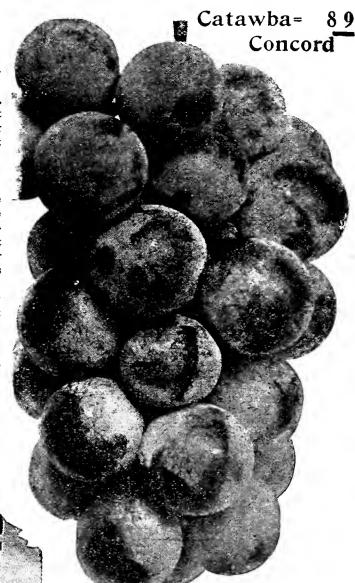

New Grape==Catawba=Concord

This is an Early Grape and without exception the best early variety we have ever known. A cross between Catawba and Concord, scientifically made, and possesses the merits of both varieties with the defects of neither.

Fifty years ago the Catawba was universally popular; it is still the standard of excellence, in quality, among hardy grapes; but having become enfeebled with the infirmities of old age, it can no longer be grown successfully, except in favored locations, by reason of its foliage being subject to downy mildew, and the fruit to black-rot. It also ripens quite late—too late for most regions. Concord, as is well known, is unexcelled in productiveness, vigor, hardiness of vine, and freedom from disease of foliage. The good properties of Catawba-Concord are:

High quality—equalling in tenderness of pulp, sweet luscious flavor and aroma the Catawba, with added sweetness and juiciness. Rich sparkling light red, with abundant bloom. Bunch large and compact—just like the Catawba. Berry medium to large and nearly round—exactly like the Concord. Season early; a little in advance of Concord. Skin thin and tough; much like Catawba but thinner. Berry adheres firmly to bunch, hence a superior shipper and keeper. Exempt from both black-rot and brown-rot; and all other diseases. Vine of extreme vigor—a stronger grower than the Concord, and of ironclad hardihood. A heavy annual yielder—as prolific as Concord. Foliage similar to Concord and of like freedom from mildew. Entirely without foxiness in odor or flavor. This Grape has been given ten years of the severest kind of test—never petted— and "has not been found wanting" in any way. There is nothing like it on the market today. Stock is limited and high priced. Best of all Early Grapes. You will have a prize if you grow it.

Price of strong one year old vines, carefully packed 60c., each, 3 for \$1.75 postpd.

The Mammoth Grape

The largest and most magnificent Grape in the world, the berry measuring one inch or more in diameter. For table use, for jelly, for wine, for an arbor, and for bealthfulness and appearance it has no equal. Vines are strong and thrifty growers and abundant bearers. Fruit ripens in September. Berry is the color of Concord and of as fine a flavor. Has from two to three seeds, bunches large and compact, skin is a little tough and bee proof, pulp very tender, sweet and juicy, and the pulp parts easily from the seeds. This grape will grow in any climate, and is free from mildew or blight. I have grown this one particular kind of grape for years, and I find it is the one to grow for profit and pleasure.

You should not fail to grow this Gigantic Grape. It is hardy everywhere and the mammoth size of the fruit is perfectly astonishing and always of the best quality.

· Price of strong one year old vines,60c.each, 3 for \$1.50 postpaid.

The following varieties are of proved merit and well known as the leading grapes among the older varieties.

Concord

Black. Early. Decidedly the most popular grape in America, and deservedly so. Bunch large shouldered, compact. Berries large, covered with rich bloom, skin tender, but sufficiently firm to carry well to distant markets, flesh juicy, sweet, pulpy, tender. Vine a strong grower, hardy, healthy, productive.

Delaware

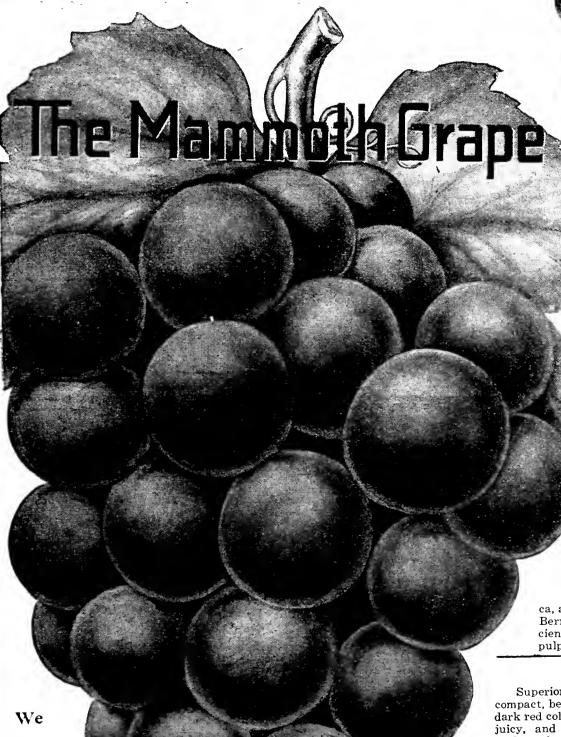

Superior as a table grape. The bunch is of medium size, very compact, berries medium round. The skin is thin, and of a beautiful dark red color when fully ripe. The flesh of this variety is tender, juicy, and exceedingly sweet and delicious. The vine is hardy, moderately vigorous in growth, and is productive. Ripens early in September.

Niagara White

Occupies the same position among the white varieties as Concord does among the black. The leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough, quality much like Concord.

Brighton = Rcd. Bunch large, well formed, fruit above medium to large, round. Excellent flavor and quality. One of the earliest in ripening.

Price of Concord, Delaware, Niagara White and Brighton, good strong plants, 20c each or 10 for \$1.75, postpaid.

WHOLESALE PRICE

No Order Filled from This List for Less than \$3.00

Thousands of our customers write us each year, asking for Special Prices on seeds of all kinds, thinking we could make them a reduction on account or their order being a large one.

On large orders we have made some reductions, because we can pack and ship large orders almost as cheaply as small ones; but this year we have prepared a wholesale price list on everything which we can reduce the price on, for express or freight shipments, but an order selected from this list must amount to not less than \$3.00 to be entitled to these prices.

In order to give every one of our customers exactly the same prices, we are devoting two pages of this catalogue to giving the prices we charge on everything to go in express or freight shipments, customers to pay transportation charges on arrival. These prices are good as long as our stock of seed lasts.

This gives every customer a chance to get the best seeds that grow at WHOLESALE PRICES, and if anyone cannot use \$3.00 worth it is a very easy matter to get some neighbor to take something to make the order reach at least the required amount of \$3.00.

Please remember that these prices are our very lowest, no matter how much over \$3.00 worth you buy. We can offer no reduction on anything else in our catalogue, and it is further understood that all orders must be sent to ROSE HILL, N. Y., For everything is shipped from our Rose Hill Warehouses

By Mail Postpaid=If 10c per pound extra is enclosed to pay postage on any order selected from this Wholesale List amounting to \$3.00 or more we will forward by mail postpaid. You can figure packets average about ½ oz. each in weight (pints, 1 lb.) and by totalling all other quantities you can figure very closely just how much to send extra to have all seeds sent by mail postpaid, which in many cases is cheaper than express,

Packing=All orders from this Wholesale Price List go either by ex. or frt. (unless enough extra money is sent to pay postage) packed in a light weight package in order to make transportation charges as cheap as possible. We cannot pack plants in seed packages. They always go in separate packages. Potatoes and bulbs will go in express shipments of seeds any time in winter or spring, but we cannot pack potatoes in freight shipments until danger of frost is past.

Express Shipments=All orders selected from this Wholesale List to go by express are carefully packed and forwarded by the American Express Co., direct from our Warehouse at Rose Hill, N. Y., to all parts of the United States at the lowest possible rates, customers to pay express charges on arrival.

Freight Shipments=Everything selected from this Wholesale List, making a shipment too heavy for express, we will ship by freight direct from the Shipments our Warehouses at Rose Hill, N. Y., over the Marcellus & Otisco Lake Railway, which connects with the New York Central & Hudson River Railway lines, one of the largest systems in this country, and makes direct connection with railroads in the far South and West. We reserve the right to determine whether a shipment shall go by freight or express.

Remember These prices are not good unless you make up an older of at least \$3.00 worth, all ordered at one time. Small orders of less than \$3.00 for any varieties at the wholesale price cannot be accented

92 OUR DEMONSTRATION FARMS

Named "Fruitland Park"

For several years we have been investigating various sections of the country for the purpose of selecting the most desirable location to establish a number of **Demonstration Farms**, all adjoining one another, where nearly everything produced in the United States can be tested and successfully grown. At last we believe we have found just the place, which is located in the South, near the Gulf Coast, and we have named it "Fruitland Park."

CLIMATE AND HEALTH CONDITIONS. The Gulf Coast country where our Demonstration Farms are located possesses as delightful a climate as does Southern California or the East Coast of Florida and is perhaps the most desirable portion of the South to live in as far as health is concerned. The Summers are long but never oppressively warm, being near enough to the Gulf to get the delightful sea breeze that usually blows every night from the South. The Winters are warm, and the few cool spells are always of very short duration. Elevation is about 300 ft. above sea level.

TEMPERATURE. The average temperature during 1912 was 66.2 degrees, by months as follows:

February 49.3 April 68.4 June 75.6 August 80.0 October 70,2 December 53	January February	Deg. 47.4 49.3	March April	Deg. 59.5 68.4	May June	Deg. 74.1 75.6	Deg. July 80.4 August 80.0	September October	Deg. 79.8 70.2	November 56 December 53
---	---------------------	----------------------	----------------	----------------	-------------	----------------------	----------------------------------	----------------------	----------------------	----------------------------

RAINFALL. The following is the average rainfall from official figures for the twelve months ending Dec. 1912.

		, .		0			
Inc	ches	Inches	Inches	Inches	,	Inches	- Inches
January 4	37 March	9.19 Ma	ay 4.48	July 7.66	September	1.30	November 3.24
February 5	.42 April	8.35 Ju	ne 2.45	August 7.96	October	6.73	December 7.26

A glance at the above table will show how evenly the rainfall is distributed throughout the 12 months of the year.

SOIL. The soil is composed of a sandy loam underlaid with a clay subsoil and will produce excellent field and garden crops and nearly all fruits and nuts. Because of the clay subsoil it holds the moisture, works freely, is easily cultivated and is quick to mature crops of all kinds. It is possible to raise from 2 to 3 crops a year from the same soil, and with only ordinary management an industrious farmer should be able to realize a net profit of from \$150 to \$300 per acre.

WATER. Good pure water is obtainable at a depth of from 20 to 25 feet below the surface, while the purest of flowing artesian water can be reached anywhere on the Gulf Coast at from 600 to 900 feet in depth. In addition to this, springs of pure water are plentiful, and the entire area is amply supplied with running streams.

MARKET FACILITIES: Including railroad transportation are the very best being only 24 to 36 hours to all the best markets of the North and East. Nearby access also is to be had to large complete canning plants which will contract by acreage for crops before they are planted.

PUBLIC SCHOOLS, CHURCHES, AND SOCIAL PRIVILEGES. To the man who contemplates changing the location of his family, if he is a good citizen, the question of churches, schools, and society is indeed an important one. Nothing indicates the respectability and moral standing of communities more than do the churches which are supported by them. One of the most noticeable features which greets the eye of the stranger along the Gulf Coast is the great number of churches to be seen. Good school facilities are found at all points, and several Agricultural High Schools, or Colleges, have been established in the towns along the lines of all the railroads.

Garden Truck, Fruit, Nuts, General Farming, Live Stock Raising

Garden Truck of every description, as described on the following pages, grows to perfection, and we believe this is the coming Truck and Fruit Farm section of the South. Nats and Fruits, such as Oranges, Grape Fruit, Figs, Persimmons. Pears, Strawberries, Peaches, Grapes, Pecans, Almonds, Walnuts, etc., produce abundant crops and bring large profits. Farm Crops, such as Alfalfa and other grasses, Corn, Cotton, Peanuts, Sugar Cane, Sweet and Irish Potatoes, and Live Stock, such as Cattle, Horses, Sheep, Swine and Poultry, do remarkably well.

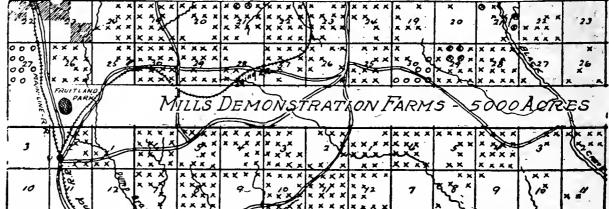

A Free Trip to Inspect Our Farms

If you wish to inspect our Demonstration Farms and the surrounding lands we offer our customers, and also investigate the wonderful possibilities of the Gulf Coast, we will allow you the railroad fare from your place to our Farms and return on any purchase of land you make from us after looking it over. We are going to give our customers the first chance of getting this surplus land at a Bargain, and we know it will all be taken very soon. We want the country all around our Farms filled up with Truck Farms and Nut and Fruit Orchards, and everyone will get the benefit of our Demonstration Farm work. Only a few people in the North have any idea of the wonderful increase in Southern enterprises in the last few years, especially in Truck and Fruit Farming and Stock Raising.

PLAN SHOWING WHERE OUR DEMONSTRATION FARMS ARE LOCATED

This plan shows where our Demonstration Farms, covering 5000 acres, are located. On each side, marked with an X, lies the choice land which we are offering our customers at attractive prices for immediate sale or on our 5-year Development Plan.

"Fruitland Park" is the new town site adjoining the railroad, where the executive headquarters of Mills Demonstration Farms and many of their buildings will be located. This location has been selected as the most desirable in the United States for such work, and those who are fortunate enough to get some of the land near our Demonstration Farms are bound to be highly pleased, for it will soon sell for \$100 and upwards per acre.

DO YOU WANT A FARM NOW? If you want to take immediate possession of a Farm; we will sell you one op easy terms and give you possession at once. Price \$25 to \$40 per acre, according to location.

DO YOU WANT A FARM ON OUR 5-YEAR DEVELOPMENT PLAN? If you are not ready to take possession of a Farm now, buy one on our 5-Year Development Plan. See Pages 96, 97 and 98. We offer you great opportunities. Write us just what you want and also arrange to go and inspect our Farms. Remember, we allow you your railroad fare to our farms and return if you buy a Farm, or Fruit or Nut Orchard from us. Fill in and mail Application Blank, see Page 97

For further particulars write to == MILLS FARMS, Dept. 6, ROSE HILL, N. Y.

A FEW OF THE MANY CROPS GROWN

You can plant and harvest some crop every month in the year, and you can plant and harvest at least two valuable crops from the same ground each year and three and four crops of some varieties. There is no danger but that they will ripen perfectly.

You can start an orchard of fruits and farm the ground at the same time, for you know that the rain will come, the sun shine and that your orchard will grow much faster than in the North; for it is the greatest location for Truck

and Fruit Farming in this country.

Photo of a field of Cabbage in February

SNAP BEANS. Make enormous yields and bring fancy prices when shipped to Northern markets. One acre will net \$75 to \$125.

BEETS. Are grown for winter shipment and the common sugar beet attains a good size and the percentage of sweet is in excess of the great sugar beet district and as soon as the enterprising farmers take hold of this matter and locate a Sugar Beet Refinery here this will become one of the great industries of the Coast Country.

PEPPERS: Add materially to the extensive farmer's and trucker's profits and the markets are always good.

CANTALOUPES. These grow to perfection in this district and the famous Rockyford is grown here as well as in the Colorado district and has as distinct and pleasant a flavor. A money making crop when shipped to Northern markets early in the season.

Photo of Gulf Coast Cantaloupe field. Will net big returns per acre. The scattering plants are corn stalks that have not reached their growth and the time to tassel.

JAPANESE PERSIMMON: Tree requires little care and bears enormous crops at an early age. Grows to about the size of an apple and is a fine fruit.

KUMQUATS. In size and flavor between the Orange and Lime and used extensively in decorations at fancy dinners and as a dessert. An acre would produce in profits many times the value of any other bush fruit.

CABBAGE. An acre of Cabbage plants set in December are ready to market by the middle of March and yield from 150 to 200 crates which sell at high prices at that time of the year. This is one of the farmers and truckers "ready money crops" and is shipped by the car load to Northern markets, after which this land is used for some other crop.

COW PEAS. Like the Soy Bean, grows luxuriantly; will make 2 crops per year; yielding from 2 to 3 tons per acre, and all know its feed and fertilizing value, especially when taken into consideration with general hog raising.

ONIONS. Onions grow to perfection. The Red and White Bermuda yield enormous crops and if you are an onion grower in the North you should immediately investigate our lands, for here, they may be produced nearly any month in the year and no soil is more easily worked or better adapted to onion growing.

Picking Snap Beans for Market. Pecan Trees carrying a heavy crop are growing in this field.

EGG PLANT. This is a money making crop for early shipment to Northern markets. Yields enormously.

POULTRY RAISING

Any one who wants great results in money-making from a small investment can find it in the raising of poultry along the Gulf Coast if they will try. Chickens, ducks, geese, and turkeys all thrive in this country, and there is plenty of cheap feed for them. This industry offers a splendid chance to the man with a few acres.

STOCK RAISING

This country is particularly a dapted to stock raising either on a large or small scale. There is an abundance of pasture over 10 months in the year and the feeding

crops raised in this country make stock raising very profitable. By the proper succession of crops, such as cow peas, velvet beans, corn, etc., it makes it possible for cattle, sheep and hogs to get their own living the year round without labor and extra expense. The fine water of springs, creeks and streams is abundant.

A crop of Sweet Potatoes, yield more than 200 bushels per acre and a crop of Irish Potatoes will yield from 160 bu. and upward. HIGHLAND RICE. This crop is grown, harvested and threshed very much like wheat. It pays much better than wheat as the yield is 35 to 60 bushels per acre.

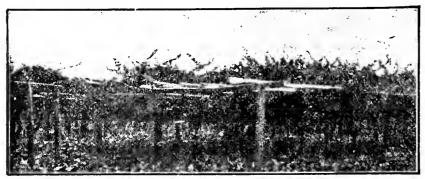

Cucumbers, nearly a car load to the acre is the average yield

CUCUMBERS. The vine attains a perfection of growth in this soil not equalled elsewhere. Bears wonderfully, selling as high as \$4.00 per crate.

GARDEN TRUCK. This is one of the greatest trucking sections in the South. Celery, Radishes, Turnips, Spinach, Lettuce, Mustard, Carrots, Endive, Cauliflower, Cress, Brussels Sprouts, Parsley, Kohl-Rabi, Salsify, Parsnips, Okra, as well as all the leading crops described. An enterprising grower can realize hundreds of dollars per acre every season from his land, and with our increasing population and our rapidly growing industries a ready market is assured.

PEPPERMINT. This profitable line of agriculture was not thought of until recently. Practical mint growers of Southern Michigan and of Indiana have experimented and demonstrated to their satisfaction that it can be grown here with more profit than in the North.

Grapes grow to perfection. Within fifteen months after planting, bunches weighing $2\frac{1}{2}$ pounds have been picked.

POTATOES, IRISH AND SWEET

Two of the best ready market crops grown in this district are Irish and Sweet Potatoes. The yield is large, and are usually planted, Irish Potatoes in February which are harvested in April, then on the same ground follow with Sweet Potatoes, which are harvested in the Fall, and followed with Winter crop of Oats or Clover. The average yield per acre of Irish Potatoes being 100 to 200 bushels, and of Sweet Potatoes 200 to 500 bushels, while under especially favorable conditions, as high as 1000 bushels have been obtained from one acre, with prices ranging from 50 cts. to \$1.00 per bushel, according to time of year.

TOMATOES. It is possible to raise two crops on the same ground, the first crop marketed in May and the last in November or near Thanksgiving. The profits running from \$200 to \$400 per acre.

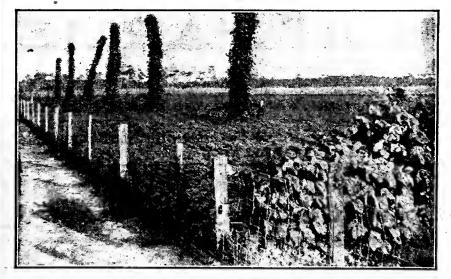

Picking Tomatoes for early shipment to Northern Mar kets

SUGAR CANE: Is a "ready money" making crop-It is cultivated like corn. The yield is from 400 to 500 gallons per acre which readily sells at from 45 to 60 cents per gallon. Many growers realize over \$250 per acre.

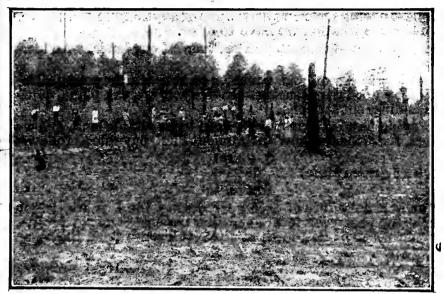

A crop of Sugar Cane produces 400 to 500 gallons of syrup to the acre. Sells for 45 to 60 cents or more per gallon.

GRAPES. The soil will produce as fine Grapes as ever grew in France or California. Men who have grown Grapes in both France and California are growing them on the Gulf Coast today. They declare that the product there is equal to any in quantity and quality, produced anywhere, and ripens about one month earlier than the California crop. The Scuppernong Grapes are attracting a great deal of attention and are only known to the coast country. The vine is a very vigorous grower and free from diseases. It is claimed one acre of Scuppernong vines has produced 800 bushels of grapes.

Afield of Velvet Beans—A nitrogen—gathering crop, highly valuable for Forage as well as for its soil building qualities.

CLOVER and GRASSES. All kinds of Clover and Grasses do well. The Red, White, Crimson, Burr, Mexican, and Lespedeza Clovers all do well, while Grasses of the best kinds grow and flourish and do well on the Gulf Coast.

A field of Strawberries near the Gulf Coast

STRAWBERRIES. The Gulf Coast is just becoming famous as a great country for growing Strawberries. They can be grown and placed upon the Northern markets at a time competition is at a minimum and prices are high. Growers have only recently discovered that this is one of the best sections in the country for Strawberry raising and fortunes will be made during the next few years on this fruit alone.

er eighty Grape Fruit on tree less than three years

old. From a photo. Grape Fruit do remarkably well.

on our Development Plan. SATSUMA ORANGE ORCHARDS are valuable orchards to own. bulletin No. 374, issued October 2, 1909, says: "The early ripening of the Satsuma—in October, makes it the first new

orange on the market by thirty to sixty days, thus realizing top notch prices." Read Page 98 for prices and our plan for developing Orchards for our customers.

Is a forage and hay crop of great value, especially when you consider its power of fertilization and improving land upon which it is grown. It vines from 50 to 75 feet and produces, at about every 12 to 15 inches, heavy clusters of bean pods, varying in length from 10 to 15 inches, filled with choice beans that will produce as much fat per pound as peanuts or corn, and can be mowed for hay, yielding 3 to 4 tons per acre of the very choicest kind. The beans find ready sale at \$2.00 to \$4.00 per bushel and the hay at \$12.00 to \$15.00 per ton. If pastured as finish feed for stock it is superior to any crop grown. For winter pasture for stock raising there is nothing equal to Velvet Beans.

CORN. The South is becoming a great Corn section. Crops of sixty bushels to eighty bushels per acre are very common and as high as 227½ bushels has been raised on one acre.

Photo of a field of Water Melons near the Gulf Coast

WATER MELONS. This is an ideal country for raising Water Melons and it has been reported on good authority that one farmer realized \$1000 from 9 acres and afterwards raised a crop of Pea Vine hay worth \$20 per ton, and left the land in shape for the winter pasture for hogs. It is an easy matter to produce more than enough on one acre of land to pay for the land the first season.

GRAPE FRUIT. This fruit does well and a tree three years old will produce about 50 to 100 fruits. They are planted about the same as Oranges.

PAPER SHELL PE-CAN ORCHARD. The greatest wealth proto man. The king of all nut bearing trees. of the people of the U. S. have ever seen a Paper Shell Pecan.

ducing orchard known Less than 1 per cent 50c. to 75c. per pound.

Photo of a two-year-old Fig Orchard. Climate Photo of a two-year-old Fig Orchard. Climate of the coast section is ideal for Figs, and there is an enormous demand for the fruit. There are 134 Fig Trees to an acre, and trees 3 to five years old will produce from \$1.00 to \$3.00 worth of figs per tree, and much more as trees increase in age. A Fig Orchard 3 years old is worth at least from \$400 to \$500 per acre.

Trees begin to bear at 4 or 5 years of age and the nuts sell for from When 5 years old they are worth \$350, and when ten years old \$1,000 per acre. See Page 98 for Pecan Orchards

TRUCK AND FRUIT FARMS

We offer the following Truck and Fruit Farms on our Five-year Development Plan

We have some of the best Truck and Fruit Farm Land in the South surrounding our Demonstration Farms, and are offering it to our customers in various ways under our 5-year development plans. We will sell you a Truck or Fruit Farm and develop it for you, also contract to operate and market all the crops.

We offer several different Farms, but our Dividend Paying Truck Farm is the Great Favorite with Northern people, and is a safe and profitable investment from every standpoint. Write us just what you want.

10-ACRE DIVIDEND PAYING TRUCK FARM

Do You Want a Farm in the South that Pays for Itself?

Price \$750.00, on Five Year Installment Plan 10 Per Cent Discount for Cash

Buy one of these Dividend Paying Farms while we have them to offer. They make the best kind of investments and your money is always well protected by the best Truck Farm land in the South, fast increasing in value, and you receive a 25 per cent dividend Feb. 15th of each year on the Net Profits of the Farm.

An IDEAL INVESTMENT for Anyone, No Matter Where They Live. READ OUR OFFER

We have selected one thousand acres of our very choicest and best Truck Farm lands located near our Demonstration Farms, which we are dividing into 10 acre Truck Farms. By selecting the very best land especially adapted to Garden Truck for winter markets, we propose to make this block of farms the best paying and most attractive of anything in the South. They are situated close to our Demonstration Farms, the most desirable location we have to offer.

These farms will all front on the leading highways to town in one of the most beautiful sections of our lands. An ideal location for winter homes for Northern people.

We are locating these Dividend Paying Truck Farms in one large body of land, as shown on map, so they may all be operated by our expert truck farmers, and they will all be protected by good wire fencing. In this way we can plant, cultivate, harvest and market the crops much cheaper than if located in different sections.

Our offer is to sell you one of these selected 10-acre Dividend Paying Truck Farms; every acre to be tillable land, and we will at once proceed to put under cultivation after contract is closed, for \$750 on 5 year Installment Plan, payable as follows:

\$ 90.00 Cash with Contract 60 monthly payments of \$11.00 each (5 years time) 660.00 Total amount paid in 5 years \$750.00

The Contract provides that you are to receive a Farm report on February 15th of each year during the 5 years, which shall show the total receipts from all crops produced on the farm for the past year, total operating expenses and net profits, with a check for 25 per cent of the Net Profits, or in other words you receive one fourth of the Net Profits from the farm during the 5 years you are paying for it and we are operating it for you.

You have no worry or care about it and you can inspect the farm and crops as often as you wish. The contract provides that you can select at any time a building lot on the farm, erect a home to suit yourself and live there during the winters, or in fact all the year if you choose. This is an ideal opportunity for the Northern man who is looking ahead for a winter home in the Sunny South.

We are not going to try to estimate what the Net Profits from our 10-acre Truck Farms will be, but we do know of any number of Truck Farmers near our lands making more than \$100 per acre clear profit, and we know our lands are as good or better, and we shall try our best to exceed these figures.

We make you a plain contract setting forth just what we do. It provides that we will continue to cultivate and care for this farm purchased from us after the 5 year contract expires, (if you are not in a position to look after it yourself) on the basis of your paying us the small commission of 10 per cent on both the receipts and expenditures for planting, cultivating, gathering and marketing the crops for you. It provides for your 25 per cent dividend on Net Profits from farm. It also provides that in case of death, if your heirs want to surrender the contract we will either pay them back every dollar you have paid us, or after all payments are made according to the contract, we will make the deed to whom it should legally go. Should you fail after three months to make payment and we re-sell it, then we pay you all we get, less cost of re-sale. If you are sick or disabled, we extend the time of payments, charging you 6 per cent. We pay all taxes until deed are delivered. If you want to purchase one cost plan we will allow you are some the warrants deed to you at once. ered. If you want to purchase on a cash plan, we will allow you 10 per cent discount and make warranty deed to you at once.

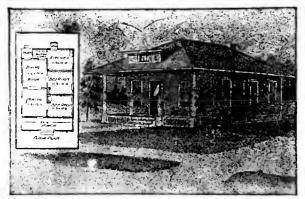

It must be understood that we have only 100 of these selected Dividend Paying Truck Farms and they all will be quickly taken, and we guarantee every purchaser will have a prize farm.

Send for a Contract at once, before they are all sold.

10=Acre Truck and Fruit Farm, with all improvements, nicely located, for \$1000, on Five Year Installment plan. 10% Discount for Cash.

SOLD ON OUR 5-YEAR DEVELOPMENT PLAN

OUR 10-ACRE FARM is a bargain and is in great demand. Just enough land to devote to vegetables and fruits so that one family can look after the place and have some crop coming off nearly every month in the year.

Home on a 10-acre Truck and Fruit Farm

It will be wire fenced, all cleared for the plow, with house for family, with good well, etc. One acre will be set to Pecans, Satsuma Oranges, Grape Fruit, Figs, Persimmons and Grapes, your selection, when deeded to you.

You or your agent may select this land by personally visiting our farm lands, or you may select it from our map of lands, or we will select it for you, guaranteeing you will be well pleased, and will sell it to you with all improvements, as specified, on 5-year Development Plan, on the following terms:

Cash with Contract 900.00 60 monthly payments of \$15 each (5 years time) 1000 00 Total amount paid in 5 years

This is a great opportunity for any young man to save his money and own one of our choice Truck and Fruit farms now being developed and sold on such easy terms. At the end of five years we predict this farm will be in great demand at from \$150 to \$200 per acre.

If you want a 10-acre Farm with all improvements, this is your opportunity. Send for our Contract

SOLD ON OUR 5-YEAR DEVELOPMENT PLAN

This farm is a Great Bargain for the man with limited means who wants a home in the Sunny South, and is equally as valuable to the investor. It is an ideal farm for any purpose, but especially vegetables, fruits, poultry, etc., and we feel safe in saying more can be produced on this 20-acre farm than can possibly be produced on fifty acres of land in the You can plant and harvest every month in the year.

Home on a 20-acre Truck and Fruit Farm

This farm contains 20 acres of choice Truck and Fruit land, will be wire fenced, 10 acres cleared for the plow, balance 10 acres all good land in pasture and easy to break up if needed at very little expense.

It must be remembered that from \$2,500 to \$3,000 worth of Garden Truck, Fruits, etc., can easily be produced on ten acres of our lands during a year and several head of stock kept on the other ten acres, for the stock can pasture 12 months in the year. It is a money maker from start to finish, and is just the farm for a man to buy who wants five year's time to pay for it.

New House can soon be completed, all ready to move in, good Well, and the Farm is nicely located on good country road leading to town. Clear title guaranteed, price \$1,500 payable as follows:

Cash with Contract 60 Monthly Payments of \$22.00 each (5 years time) 1320 Total Amount Paid in Five Years

On making last payment, Warranty Deed will be given and the Farm will be delivered free and clear to you.

If, after your contract expires, you find for some reason you are unable to move on the farm for a year or more, we will submit a proposition for your approval, whereby we will agree to operate the farm upon a small commission basis until such time as you desire to take possession yourself. Could anything be fairer than this? You absolutely do not take any risk, for the land around our Demonstration Farms is rapidly increasing in value.

Did you ever stop and figure that "the best investment on Earth is earth itself?" Suppose you have \$1500, and buy this Farm. You can feel safe that it will pay you a handsome dividend. If \$1500 is invested at 6 per cent you would receive interest amounting to \$90.00 per year, not as much as one acre of this 20-acre Farm will produce, and the land is good at any time for more money than you pay for it, so your security is always the very best.

Even if you do not move on the Farm for several years you can contract with us to operate it for you, We develop and operate Farms for our customers.

> If terms of payment are not satisfactory, advise us, and we will try to meet your wishes. SEND FOR OUR CONTRACT ON THIS FARM. IT IS A VERY FAIR ONE.

40 Acre Truck and Fruit Farm with all improvements, nicely located near town, for \$3000 on 5 year Installment Plan. 10% Discount for Cash.

SOLD ON OUR 5-YEAR DEVELOPMENT PLAN

We will sell you 40 acres of good Truck Farm land located near our Demonstration Farms, to be selected by you or your agent or from our map of lands, or we will select it for you, to be especially adapted to the growing of Agricultural and Garden crops.

We will fence this 40 acres and proceed to put the farm under cultivation the first season after signing the contract. We will sell you this Farm on a 5 year Installment Plan and operate it on our large system by experts and give you 25 per cent of net profits of the Farm during the 5 years you are paying for it. You make Payments for Farm, as follows:

Cash with Contract \$ 300 60 Monthly Payments of \$45 each (5 years time) Total amount paid in 5 years 3000

You are to receive during the 60 months, or 5 years, 25 per cent of the net profits of the Farm which should bring you a handsome revenue while you are paying for the Farm. Should the profits average \$3000 per year you would receive your 25 per cent or \$750. Report to be made on February 15th of each year.

Within 18 months after signing the contract, we will properly prepare suitable ground and set three acres of Paper Shell Pecan Trees, 1 year grade, in rows 50 feet apart, which will become a very valuable part of the Farm.

During the 5 years you are paying for this Farm and we are developing and producing crops, etc., on it, we agree to erect a House and Barn as illustrated, install a good well and do everything we think is necessary to deliver to you at the end of five years an up-to-date Truck Farm, all ready for you or any one else to move on. With all these improvements at the end of 5 years when we deliver it to you this Farm will be worth from \$150 to \$200 per acre, and we predict it will sell quick at this price.

At the expiration of your contract when we deliver you the Farm, if you do not want to move on to it yourself, we will contract to continue to operate it for you on a commission basis, and you pay us a 10 per cent com
Home on a 40-acre Truck and Fruit Fa
mission on both operating expenses and receipts of Farm for our labor in looking after it and marketing the crops.

Home on a 40-acre Truck and Fruit Farm

We believe this is one of the greatest Truck Farm Bargains ever offered and this 40 acres in this climate will produce more than 100 acres in the North. We make you a plain simple Contract setting forth just what we do. Send for it.

Remember you get 1-4 of the Profits of this Farm during the 5 years you are paying for it.

NUT AND FRUIT ORCHARDS

OUR DEVELOPMENT PLAN

We are having a great dear of inquiry trom people in all lines of profession living in cities, villages, and the country who are anxious to buy suitable land in the South and have it planted to Nut or Fruit trees; and properly cultivated and cared for until they begin to produce an income.

To meet the requirements of this class of people, Our Demonstration Farm Department will plant Nut and Fruit Orchards and operate on "A Development Plan," where one or more acres can be purchased and we plant to Paper Shell Pecan trees and care for them under contract for a term of five years, to be paid for on the installment plan. Or, you can purchase one or more acres and we will plant it to Satsuma Orange or Fig trees and we will cultivate and care for them under contract for a term of three years, to be paid for on the installment plan. care for them under contract for a term of three years, to be paid for on the installment plan. In either case, we deliver warranty deeds of the property free and clear at the expiration of contracts made for 3 or 5 years.

ONE ACRE PECAN ORCHARD 5 YEARS OLD == \$200 ON THE INSTALLMENT PLAN SEND FOR OUR CONTRACT

Photograph of a Pecan Orchard Five Years Old

We will sell you one or more acres of land to be selected by you or your agent or from our map of lands, or we will select it for you, to be especially adapted to growing of Paper Shell Pecans as well as to Agricultural and Garden crops.

We will fence this land put it in first class shape for cultivation and plant it to grafted Soft Paper Shell Pecans, a good variety, (2 to 3 foot grade) in rows 50 feet apart, first season after your contract is executed.

We will scientifically cultivate and care for one or more acres of Pecan trees to the end of the 5th year, at which time the same will be deeded and delivered to you, a bearing Pecan orchard. Thus at the end of 5 years, you will have one acre or more of land with a bearing, profit producing Pecan orchard, and we will pay you a 5 per cent dividend on your investment from the time you make the contract until delivery of deed and you are to pay us on the installment plan. **DIVIDENDS PAYMENTS**

You can purchase one or more acres at same price per acre on the same terms and conditions. is considered one of the safest and most profitable investments anyone can make today. A Pecan orchard

Charles E Pabst, Discoverer and Propagator "Pabst" Pecan, says:

"We have at present here on our new place fifty acres in pecans. Eighteen acres are seven years old and not for sale at \$1,000 per acre, twenty acres five years old and not for sale at \$700; twelve acres three years old and not for sale at \$600 per acre. Any pecan acreage, grown properly on ground properly fitted, planted to three year old stock, is cheap at \$250 per acre. I myself would not sell an acre at that price because I consider the investment too valuable to sell."

ONE ACRE ORANGE OR FIG ORCHARD 3 YEARS OLD==\$300 ON THE INSTALLMENT PLAN SEND FOR OUR CONTRACT

We will sell you one acre or more of land to be selected by you or your agent or from our map of lands, or we will select it for you to be especially adapted to the growing of Satsuma Oranges or Figs, as well as to Agricultural and Garden crops.

Photo July 17, 1913, of Satsuma Orange Tree on farmof John Clark, near Gulf Coast, 4 years old, with 538 perfect oranges, actual count.

Satsuma Orange Tree, 18 months old from planting, 14 Oranges. Reproduced from a photograph.

The Satsuma Orange is of Japanese origin, and when grafted on Citrus Trifoliatum stock, it becomes a very hardy tree and will stand safely a temperature of 15 degrees above zero, and has withstood without damage 10 degrees above.

It is known as "The Kid Glove Orange," has exceedingly thin peel, and segments part so easily that it is peeled and eaten without soiling the hands or clothing. Flesh is fine grained, tender, juicy, sweet and delicious flavor and entirely seedless. They are medium size, ranging from $2\frac{3}{4}$ to $3\frac{1}{2}$ inches in diameter; orange-yellow color and ripens in October, November and December. The trees are dwarf, spreading and rarely growing taller than 12 to 15 feet and produce fruit the third year with an annual increase until the trees are producing from 1000 to 1500 fruits annually. It has become the most popular orange when marketed. The demand is constantly increasing, and it sells readily at from 50c to 75c more per box than the ordinary California variety. There are hundreds of acres planted on the Gulf Coast where the Satsuma is found at its best.

There is no more Delightful or Profitable Occupation than caring for a SATSUMA ORANGE ORCHARD

Fig Orchard Two Years Old

OWN A FIG ORCHARD

This fruit pays well. There is a great demand for it for canning and preserving. It is sold by weight and brings from four to six cents per pound.

The following is a very conservative estimate of a season's crop from one tree at different ages. 134 trees can be set to an acre.

3 Years Old, 10 to 15 pounds

4 Years Old, 15 to 25 pounds

5 Years Old, 30 to 50 pounds

6 Years Old, 75 to 100 pounds

7 Years Old, 100 to 150 pounds

8 Years Old, 150 to 200 pounds

We make you a plain, simple contract setting forth what we do. It provides for the kind of trees and cultivation. It provides that we will continue to cultivate and care for any or all such fruit or nut orchards purchased from us after the 3 or 5 year contract expires, (if you are not in a position to look after them yourself) on the basis of your paying us the small commission of 10 per cent on both the receipts and expenditures for cultivating, gathering and marketing the crops for you. It provides for your 5 per cent dividend. We pay all taxes until deeds are delivered. If you want to purchase on a cash plan you can do so and we will allow you 10 per cent discount and make warranty deed to you at once.
